Free PDF Quiz EMC - D-PDD-DY-23 - Pass-Sure Latest Dell PowerProtect Data Domain Deploy 2023 Exam Experience

Passing the test D-PDD-DY-23 certification can prove you are that kind of talents and help you find a good job with high pay and if you buy our D-PDD-DY-23 guide torrent you will pass the exam successfully. Our product boosts many merits and useful functions to make you to learn efficiently and easily. Our D-PDD-DY-23 guide questions are compiled and approved elaborately by experienced professionals and experts. The download and tryout of our D-PDD-DY-23 Torrent question before the purchase are free and we provide free update and the discounts to the old client. Our customer service personnel are working on the whole day and can solve your doubts and questions at any time.

EMC Dell PowerProtect Data Domain Deploy 2023 Sample Questions (Q131-Q136):

NEW QUESTION # 131

Task 7

An engineer is implementing a new PowerProtect DD system. Retention Lock Compliance Edition is required.

Use the simulator to ensure that the account asterix1 with the password password2 is in place and the correct role assigned. Set the password to be required to change after 180 days.

When you have finished, continue to the next question.

Answer:

Explanation:

See the solution in the explanation below.

Explanation:

To configure a user account for Retention Lock Compliance Edition with specific role and password policies on a PowerProtect DD system, follow these steps:

Step 1: Access the User Management Section

* In the DD System Manager interface, go to Administration or Users (exact location may vary).

* Look for an option to manage user accounts.

Step 2: Create or Verify the Account

* If the account asterix1 already exists:

* Select the user and edit the properties.

* If the account does not exist:

* Click on Add User or Create New User.

* Enter the Username as asterix1.

* Set the Password as password2.

Step 3: Assign the Compliance Role

* Ensure that asterix1 is assigned the correct role, which is usually Security Officer or a similar role necessary for Retention Lock Compliance.

* This role allows the user to manage and enforce compliance-related settings on the system.

Step 4: Set Password Expiration Policy

* Configure the Password Aging Policy:

* Set Password Expiration or Maximum Days to 180 days.

* Ensure Minimum Days and Warning Days are set as needed or required by the compliance policy.

Step 5: Save and Verify

* Save the changes and verify that the account asterix1 is now listed with the appropriate role and password settings.

This configuration ensures that the asterix1 account is in place with the correct permissions and that the password is set to expire after 180 days. Let me know if you need more assistance!

NEW QUESTION # 132

A PowerProtect DD system is configured to with VTL. The backup application requires a minimum tape capacity of 1.5 TiB.

What is the minimum tape type to support this requirement?
