Cisco 300-740 preparation materials will be the good helper for your qualification certification. We are concentrating on providing high-quality authorized 300-740 study guide all over the world so that you can clear exam one time. As we all know, the preparation process for an exam is very laborious and time- consuming. We had to spare time to do other things to prepare for Cisco 300-740 Exam, which delayed a lot of important things.

As for the points you may elapse or being frequently tested in the real exam, we give referent information, then involved them into our 300-740 actual exam. Our experts expertise about 300-740 training materials is unquestionable considering their long-time research and compile. I believe that no one can know the 300-740 Exam Questions better than them. And they always keep a close eye on the changes of the content and displays of the 300-740 study guide.

Quiz Cisco - 300-740 –Latest Exam Exercise

Cisco 300-740 Practice test is an integral part of Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) exam preparation. DumpsTorrent offers desktop-based 300-740 practice exam software and web-based Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) practice test that simulates the real Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) exam environment. These Designing and Implementing Secure Cloud Access for Users and Endpoints (300-740) practice tests are designed to help identify strengths and weaknesses.

Cisco 300-740 Exam Syllabus Topics:

| Topic	Details
Topic 1	• Network and Cloud Security:This section of the exam measures skills of Network Security Engineers and covers policy design for secure access to cloud and SaaS applications. It outlines techniques like URL filtering, app control, blocking specific protocols, and using firewalls and reverse proxies. The section also addresses security controls for remote users, including VPN-based and application-based access methods, as well as policy enforcement at the network edge.

Topic 2	• Cloud Security Architecture: This section of the exam measures the skills of Cloud Security Architects and covers the fundamental components of the Cisco Security Reference Architecture. It introduces the role of threat intelligence in identifying and mitigating risks, the use of security operations tools for monitoring and response, and the mechanisms of user and device protection. It also includes strategies for securing cloud and on-premise networks, as well as safeguarding applications, workloads, and data across environments.
Topic 3	• Visibility and Assurance: This section of the exam measures skills of Security Operations Center (SOC) Analysts and focuses on monitoring, diagnostics, and compliance. It explains the Cisco XDR solution, discusses visibility automation, and describes tools for traffic analysis and log management. The section also involves diagnosing application access issues, validating telemetry for behavior analysis, and verifying user access with tools like firewall logs, Duo, and Cisco Secure Workload.
Topic 4	• Threat Response: This section of the exam measures skills of Incident Response Engineers and focuses on responding to threats through automation and data analysis. It covers how to act based on telemetry and audit reports, manage user or application compromises, and implement response steps such as containment, reporting, remediation, and reinstating services securely.
Topic 5	• Application and Data Security This section of the exam measures skills of Cloud Security Analysts and explores how to defend applications and data from cyber threats. It introduces the MITRE ATT&CK framework, explains cloud attack patterns, and discusses mitigation strategies. Additionally, it covers web application firewall functions, lateral movement prevention, microsegmentation, and creating policies for secure application connectivity in multicloud environments.
Topic 6	• Industry Security Frameworks: This section of the exam measures the skills of Cybersecurity Governance Professionals and introduces major industry frameworks such as NIST, CISA, and DISA. These frameworks guide best practices and compliance in designing secure systems and managing cloud environments responsibly.
Topic 7	• User and Device Security: This section of the exam measures skills of Identity and Access Management Engineers and deals with authentication and access control for users and devices. It covers how to use identity certificates, enforce multifactor authentication, define endpoint posture policies, and configure single sign-on (SSO) and OIDC protocols. The section also includes the use of SAML to establish trust between devices and applications.

Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q82-Q87):

NEW QUESTION # 82

Refer to the exhibit. An engineer must configure SAML single sign-on in Cisco ISE to use Microsoft Azure AD as an identity provider. Drag and drop the steps from the left into the sequence on the right to configure Cisco ISE with SAML single sign-on.

Configure SAML Groups on ISE.	step 1 (CISCO logo)
Configure Azure AD IdP Settings.	step 2
Configure SAML Identity Provider on ISE.	step 3
Upload metadata from Azure AD to ISE.	step 4

Answer:

Explanation:

Configure SAML Groups on ISE.	Configure Azure AD IdP Settings.
Configure Azure AD IdP Settings. (CISCO logo)	Upload metadata from Azure AD to ISE.
Configure SAML Identity Provider on ISE.	Configure SAML Identity Provider on ISE.
Upload metadata from Azure AD to ISE.	Configure SAML Groups on ISE.

Configure Azure AD IdP Settings. (CISCO logo)
Upload metadata from Azure AD to ISE.
Configure SAML Identity Provider on ISE.
Configure SAML Groups on ISE.

NEW QUESTION # 83
A recent InfraGard news release indicates the need to establish a risk ranking for all on-premises and cloud services. The ACME Corporation already performs risk assessments for on-premises services and has applied a risk ranking to them. However, the cloud services that were used lack risk rankings. What Cisco Umbrella function should be used to meet the requirement?

- A. URL Categorization by Talos
- B. Secure Internet Gateway
- C. App Discovery
- D. Domain Name Server Filtering

Answer: C

Explanation:
The App Discovery function in Cisco Umbrella enables organizations to identify cloud applications in use across their environment, including unsanctioned or shadow IT services. This is crucial for risk assessments and ranking cloud services based on their risk profile.
App Discovery analyzes DNS and web traffic to detect SaaS applications and assigns a risk score to each app based on industry best practices and Cisco Talos threat intelligence.
It provides visibility into cloud service usage and supports decisions about which applications should be allowed, restricted, or

blocked.
Reference (Cisco SCAZT Guide):
Section: Visibility and Assurance
Topic: Cisco Umbrella > App Discovery
Key Statement: "App Discovery helps identify cloud applications in use and provides risk ratings for each, allowing organizations to apply governance policies to risky or unsanctioned cloud services." Pages: 84-86

NEW QUESTION # 84
The benefits of utilizing visibility and logging tools such as SIEM include:

- A. Decreased need for encryption
- B. Improved incident detection and response times
- C. Increased manual workload for security teams
- D. Centralized logging and analysis of security data

Answer: B,D

NEW QUESTION # 85
Cisco Secure Cloud Analytics specializes in:

- A. Detecting threats in cloud and hybrid environments by analyzing traffic patterns
- B. Encouraging a siloed approach to cloud security
- C. Reducing the amount of actionable security intelligence
- D. Only managing physical network devices

Answer: A

NEW QUESTION # 86
Which of the following are core components of the MITRE ATT&CK framework?
(Multiple Correct Answers)

- A. Credential access methods
- B. SSL Certificates
- C. TTPs (Tactics, Techniques, and Procedures)
- D. Defense evasion techniques

Answer: A,C,D

NEW QUESTION # 87
......

As we all know, time and tide waits for no man. If you really want to pass the 300-740 exam, you should choose our first-class 300-740 study materials. And you cannot miss the opportunities this time for as the most important and indispensable practice materials in this line, we have confidence in the quality of our 300-740 practice materials, and offer all after-sales services for your consideration and acceptance.
