## SAP C-ADBTP-2601復習テキスト & C-ADBTP-2601試験合格攻略

SAP知ってほしいのは、人々が私たちの製造哲学の中心にいるということです。そのため、C-ADBTP-2601試験問題をより高度なものにする直感的な機能に重点を置いています。したがって、C-ADBTP-2601ガイドドレントを使用すると、C-ADBTP-2601試験に最も効率的かつ生産的な方法で簡単に合格し、献身と熱意を持って勉強する方法を学ぶことができます。Administrating SAP Business Technology Platform(C\_ADBTP\_2601)試験に合格して目標を達成するためのCertJuken最良のツールでなければなりません。

## SAP Administrating SAP Business Technology Platform(C\_ADBTP\_2601) 認定 C-ADBTP-2601 試験問題 (Q10-Q15):

### 質問 # 10

#### SIMULATION

Task 3: Create Subaccounts with Default Provider and Region

In the Human Resources directory, create the subaccount EU HCM Dev (Description: Human Resources Development) with subdomain btpops#####-eu-hcm-dev in the region Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10.2.

In the Human Resources directory, create the subaccount EU HCM Test (Description: Human Resources Testing) with subdomain btpops#####-eu-hcm-test using EU HCM Dev as source subaccount.3.

In the Human Resources directory, create the subaccount EU HCM Prod (Description: Human Resources Production) with subdomain btpops#####-eu-hcm-prod using EU HCM Dev as source subaccount. Set the subaccount as used in production.

正解:

解説:

See the Explanation below for complete solution.

Explanation:

You must create these 3 subaccounts inside the Human Resources directory:

EU HCM Dev

EU HCM Test

EU HCM Prod

Important:

Replace ##### with your global account number

Enter names, descriptions, and subdomains exactly

EU HCM Prod must be marked as used in production

Task 3 - Create Subaccounts with Default Provider and Region

Before You Start

Log in to the SAP BTP Cockpit.

Open the correct Global Account.

Go to Directories.

Open the Human Resources directory.

Why this matters:

All 3 subaccounts in this task must be created inside Human Resources. If you create them anywhere else, the result will be incorrect.

Step 1 - Open the Human Resources Directory

What to do

In the left menu, choose Directories.

In the list, select Human Resources.

Explanation:

This is the parent directory where the required HR subaccounts must be created.

What to verify

You should now be inside the Human Resources directory.

Step 2 - Start Creating EU HCM Dev

What to do

Inside Human Resources, open Subaccounts.

Click Create → Subaccount.

Explanation:

This opens the form to create the first HR subaccount.

Step 3 - Enter Values for EU HCM Dev

What to do

Enter the following:

Display Name / Name: EU HCM Dev

Description: Human Resources Development

Subdomain: btpops#####-eu-hcm-dev

Set the region as:

Cloud Provider: Amazon Web Services (AWS)

Region: Europe (Frankfurt)

Technical Region / Environment: cf-eu10

Then click Create.

Explanation:

This creates the development subaccount for HR and defines the required provider and region.

This first subaccount is important because it will be used as the source subaccount for the next two subaccounts.

What to verify

After creation, you should see:

EU HCM Dev

under the Human Resources directory.

Step 4 - Confirm EU HCM Dev Exists

What to do

Check the subaccounts list in Human Resources.

Explanation:

You must make sure EU HCM Dev is available before you create the next subaccounts, because both EU HCM Test and EU HCM Prod must use it as the source subaccount.

What to verify

You should see:

EU HCM Dev

If it is missing, create it correctly before moving on.

Step 5 - Start Creating EU HCM Test

What to do

Still in the Human Resources directory, click Create → Subaccount again.

Explanation:

This opens the form for the test subaccount.

Step 6 - Enter Values for EU HCM Test

What to do

Enter:

Display Name / Name: EU HCM Test

Description: Human Resources Testing

Subdomain: btpops#####-eu-hcm-test

Then select:

Source Subaccount: EU HCM Dev

Then click Create.

The screenshot shows the 'Create Subaccount' form in SAP. The 'Display Name' is 'EU HCM Test' and the 'Description' is 'Human Resources Testing'. The 'Region' is set to 'Europe (Frankfurt) - AWS'. The 'Subdomain' is 'btpops xxxx -eu-hcm-test' and the 'Parent' is 'Eurasia'. Under the 'Advanced' section, there are checkboxes for 'Used for production' and 'Enable beta features', both of which are currently unchecked. There is also a section for 'Add labels to this subaccount' with input fields for 'Name' and 'Values'. At the bottom right, there are 'Create' and 'Cancel' buttons.

Explanation:

This creates the testing subaccount by using EU HCM Dev as the source subaccount. This helps keep the configuration aligned with the development subaccount.

What to verify

After creation, you should see:

EU HCM Test

under Human Resources.

The screenshot shows a list of subaccounts in SAP. The table has columns for Name, Type, Environment, Provider, Region, and Changed On. The 'EU HCM Test' subaccount is highlighted in blue. It is a Subaccount of type Multi-Environment, located in the Europe (Frankfurt) - AWS region, provided by Amazon Web Services (AWS).

Name	Type	Environment	Provider	Region	Changed On
BTP Admin Certification	Global Account				March 25, 2026, 5:11:2...
...	Directory				March 26, 2026, 3:27:5...
...	Directory				March 26, 2026, 3:30:3...
EU HCM Test	Subaccount	Multi-Environment	Microsoft Azure	US West (OR)	March 26, 2026, 3:35:3...
...	Subaccount	Multi-Environment	Microsoft Azure	US West (OR)	March 26, 2026, 3:39:3...
...	Directory				March 26, 2026, 3:28:2...
Human Resources	Directory				March 26, 2026, 3:43:0...
EU HCM Dev	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:43:4...
EU HCM Test	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:46:5...

Step 7 - Start Creating EU HCM Prod

What to do

In Human Resources, click Create → Subaccount once more.

Explanation:

This opens the form for the production subaccount.

Step 8 - Enter Values for EU HCM Prod

What to do

Enter:

Display Name / Name: EU HCM Prod

Description: Human Resources Production

Subdomain: btpops#####-eu-hcm-prod

Then select:

Source Subaccount: EU HCM Dev

Enable:

Used in Production: Yes

Then click Create.

Explanation:

This creates the production HR subaccount based on EU HCM Dev and marks it as a production system.

The production setting is mandatory here.

What to verify

After creation, you should see:

EU HCM Prod

under Human Resources, and it should be marked as used in production.

Final Expected Result for Task 3

Inside the Human Resources directory, you must have these 3 subaccounts:

1. EU HCM Dev

Description: Human Resources Development

Subdomain: bt pops####- eu-hcm-dev

Region: Amazon Web Services (AWS) → Europe (Frankfurt) cf-eu10

2. EU HCM Test

Description: Human Resources Testing

Subdomain: bt pops####- eu-hcm-test

Source Subaccount: EU HCM Dev

3. EU HCM Prod

Description: Human Resources Production

Subdomain: bt pops####- eu-hcm-prod

Source Subaccount: EU HCM Dev

Used in Production: Yes

Name	Type	Environment	Provider	Region	Changed On
BTP Admin Certification XXXXX	Global Account				March 25, 2026, 5:11:2...
Americas	Directory				March 26, 2026, 3:27:5...
Partner	Directory				March 26, 2026, 3:30:3...
AM PA Dev Test	Subaccount	Multi-Environment	Microsoft Azure	US West (WA)	March 26, 2026, 3:35:3...
AM PA Prod	Subaccount	Multi-Environment	Microsoft Azure	US West (WA)	March 26, 2026, 3:39:3...
Eurasia	Directory				March 26, 2026, 3:28:2...
Human Resources	Directory				March 26, 2026, 3:43:0...
EU HCM	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:43:4...
EU HCM	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:48:3...
EU HCM	Subaccount	Multi-Environment	Amazon Web Services (AWS)	Europe (Frankfurt) - AWS	March 26, 2026, 3:46:5...

Common Mistakes to Avoid

1. Creating the subaccounts in the wrong directory

All 3 must be created inside:

Human Resources

Not under:

Global Account

Americas

Eurasia

Partner

2. Wrong subdomain values

Use exactly:

bt pops####- eu-hcm-dev

bt pops####- eu-hcm-test

bt pops####- eu-hcm-prod

Only replace ##### with your global account number.

3. Wrong region for EU HCM Dev

It must be:

Amazon Web Services (AWS)  
Europe (Frankfurt)  
cf-eu10

#### 4. Wrong source subaccount

For both:

EU HCM Test

EU HCM Prod

you must select:

EU HCM Dev

#### 5. Forgetting the production flag

For EU HCM Prod, make sure:

Used in Production is enabled

### 質問 # 11

#### SIMULATION

Enable a Cloud Foundry Environment

Add a service plan for Cloud Foundry environment and enable it in a subaccount.

Task 1: Add a Service Plan for Cloud Foundry Environment

In your SAP BTP cockpit, in your EU HCM Dev subaccount, entitle one MEMORY service plan for the Cloud Foundry Runtime.

#### 正解:

#### 解説:

See the Explanation below for complete solution.

Explanation:

Before you start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to the Human Resources directory.

Open the EU HCM Dev subaccount.

This matters because the runtime memory quota must be assigned to the EU HCM Dev subaccount specifically. SAP documents that the MEMORY plan is the quota-bearing plan for Cloud Foundry Runtime.

Step 1 - Open the EU HCM Dev subaccount

In the cockpit, choose Directories.

Open Human Resources.

Select EU HCM Dev.

You should now be on the EU HCM Dev subaccount page.

Step 2 - Open Entitlements

In EU HCM Dev, choose Entitlements.

SAP Help confirms that service plans and quota assignments for a subaccount are configured in the Entitlements area.

Step 3 - Configure entitlements

Click Configure Entitlements or Add Service Plans.

Search for:

Cloud Foundry Runtime

In SAP Help, this appears as Cloud Foundry Runtime (APPLICATION\_RUNTIME), and the relevant plan for assigning runtime memory is MEMORY.

Step 4 - Select the MEMORY plan

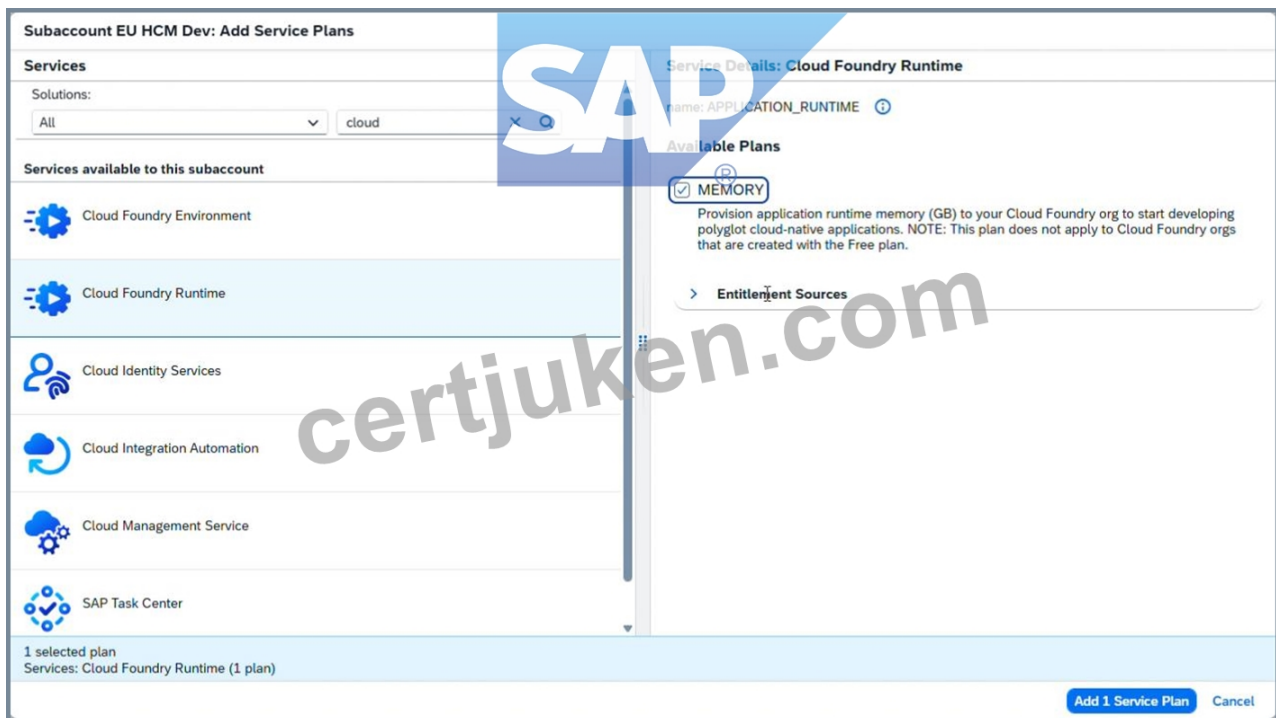

Under Cloud Foundry Runtime, select:

MEMORY

Set the quantity to 1 if the cockpit shows an amount/quota field.

Add the plan to the subaccount.

Save the entitlement changes.

SAP documents that the MEMORY plan is specifically used to assign runtime memory quota to the subaccount, and that 1 unit corresponds to 1 GB of runtime memory when quota is adjusted or assigned.

Step 5 - Verify the result

After saving, check the Entitlements page of EU HCM Dev.

You should see:

Cloud Foundry Runtime

plan: MEMORY

quantity: 1 if shown

Final expected result

Inside EU HCM Dev:

Cloud Foundry Runtime is entitled

the service plan is MEMORY

the assigned amount is 1 if the cockpit displays quantity/quota units

Common mistakes to avoid

Doing this in the wrong subaccount; it must be EU HCM Dev

Choosing the wrong Cloud Foundry plan; the task asks for MEMORY

Forgetting to save the entitlement change after adding the plan

Confusing the runtime memory entitlement with the later step of actually enabling the Cloud Foundry environment; SAP distinguishes the MEMORY runtime quota from enabling the Cloud Foundry org itself.

## 質問 # 12

### SIMULATION

Task 2: Create Subaccounts in a Directory

In the Partner directory, create the subaccount AM PA Dev Test (Description: Partner Development and Testing) with subdomain btpops#####-am-pa-dev-test in the region Microsoft Azure → US West (WA) cf-us20.

In the Partner directory, create the subaccount AM PA Prod (Description: Partner Production) with subdomain btpops#####-am-pa-prod using AM PA Dev Test as source subaccount. Set the subaccount as used in production.

正解:

解説:

See the Explanation below for complete solution.

Explanation:

Task 2 - Create Subaccounts in a Directory

You must create these two subaccounts inside the Partner directory:

AM PA Dev Test

AM PA Prod

**Important:**

Replace ##### with your global account number

Enter all names and subdomains exactly

Be careful with hyphens and spaces

AM PA Prod must be marked as used in production

Before You Start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to Directories.

Open the Partner directory.

Why this matters:

Both subaccounts in this task must be created inside the Partner directory. If you create them under the global account or another directory, the task will be wrong.

Step 1 - Open the Partner Directory

What to do

In the left menu, click Directories.

In the directory list, select Partner.

Explanation:

The Partner directory is the container where both required subaccounts must be created.

What to verify

You should now be inside the Partner directory page.

Step 2 - Start Creating the First Subaccount

What to do

Inside the Partner directory, go to Subaccounts.

Click Create → Subaccount.

Explanation:

This opens the subaccount creation screen.

What to verify

You should now see the form for creating a new subaccount.

Step 3 - Enter Data for AM PA Dev Test

What to do

Enter the following values:

Display Name / Name: AM PA Dev Test

Description: Partner Development and Testing

Subdomain: btpops#####-am-pa-dev-test

Then choose the region:

Cloud Provider: Microsoft Azure

Region: US West (WA)

Environment / Technical Region: cf-us20

After checking all values, click Create.

Explanation:

This creates the development and testing subaccount for the Partner directory.

The important points are:

the subaccount name must match exactly

the subdomain must include your account number in place of#####

the region must be Microsoft Azure → US West (WA) cf-us20

What to verify

After creation, you should see the new subaccount:

AM PA Dev Test

inside the Partner directory.

Step 4 - Confirm the First Subaccount Exists

What to do

Check the subaccounts list under Partner.

Explanation:

Before creating the production subaccount, confirm that AM PA Dev Test was created successfully, because it will be used as the source subaccount for the next step.

What to verify

You should see:

AM PA Dev Test

If it is not there, do not continue until it is created correctly.

Name	Type	Environment	Provider	Region	Changed On
AM PA Dev Test	Subaccount	Multi-Environment	Microsoft Azure	US West (WA)	March 26, 2026, 3:25:3...

Step 5 - Start Creating the Second Subaccount

What to do

Still inside the Partner directory, click Create → Subaccount again.

Explanation:

This opens a new subaccount creation form for the production subaccount.

Step 6 - Enter Data for AM PA Prod

What to do

Enter the following values:

Display Name / Name: AM PA Prod

Description: Partner Production

Subdomain: btpops#####-am-pa-prod

Then set:

Source Subaccount: AM PA Dev Test

Enable the production setting:

Used in Production: Yes

Then click Create.

Display Name\*  
AM PA Prod

Description  
Partner Production

Region\*  
US West (WA)

Subdomain\*  
bt pops xxxx am-pa-prod

Parent\*  
Partner

Advanced

Used for production

Enable beta features

Add labels to this subaccount

Name:  
Enter label name

Values:  
SAP

Explanation:

This creates the production subaccount by using AM PA Dev Test as the source subaccount.

Using a source subaccount means SAP BTP copies base settings from the selected source, which helps keep configuration aligned.

The production indicator is mandatory here because this is the production subaccount.

What to verify

After creation, you should see:

AM PA Prod

inside the Partner directory, and it should be marked as a production subaccount.

Final Expected Result for Task 2

Inside the Partner directory, you must have these two subaccounts:

1. AM PA Dev Test

Description: Partner Development and Testing

Subdomain: bt pops#####-am-pa-dev-test

Region: Microsoft Azure → US West (WA) cf-us20

2. AM PA Prod

Description: Partner Production

Subdomain: bt pops#####-am-pa-prod

Source Subaccount: AM PA Dev Test

Used in Production: Yes

Name	Type	Environment	Region	Changed On
BTP Admin Certification	Global Account			March 26, 2026, 5:51:2...
Americas	Directory			March 26, 2026, 3:27:5...
Partner	Directory			March 26, 2026, 3:30:3...
AM PA Dev Test	Subaccount	Multi Environment	Microsoft Azure	March 26, 2026, 3:35:3...
AM PA Prod	Subaccount	Multi Environment	Microsoft Azure	March 26, 2026, 3:39:3...

Common Mistakes to Avoid

1. Creating the subaccounts in the wrong place

Both subaccounts must be created in:

Partner directory

Not in:

Global Account

Americas

Eurasia

Human Resources

2. Wrong subdomain format

Use exactly:

bt pops#####-am-pa-dev-test

bt pops#####-am-pa-prod

Replace only ##### with your global account number.

Do not:

remove hyphens

add spaces

misspell dev-test or pa-prod

3. Wrong region for AM PA Dev Test

It must be:

Microsoft Azure

US West (WA)

cf-us20

4. Forgetting the source subaccount for AM PA Prod

You must select:

AM PA Dev Test

as the source subaccount.

5. Forgetting the production flag

For AM PA Prod, make sure:

Used in Production is enabled

### 質問 # 13

#### SIMULATION

Establish Shared Services

Task 2: Entitle and Subscribe a Service in a Shared Subaccount

In your SAP BTP cockpit, in your SH Dev subaccount, entitle one standard (Application) service plan for the SAP Build Work Zone, advanced edition.

In the SH Dev subaccount, establish a trust to the agvlamkzw.accounts.ondemand.com identity provider.

In your SH Dev subaccount, create a service subscription for SAP Build Work Zone, advanced edition with the standard service plan.

**正解:**

**解説:**

See the Explanation below for complete solution.

Explanation:

Before you start

Log in to SAP BTP Cockpit.

Open your correct Global Account.

Go to the Shared Services directory.

Open the SH Dev subaccount.

This matters because all three required actions must be done inside SH Dev, not in the directory and not in another subaccount.

Part 1 - Entitle the service in SH Dev

Step 1 - Open the subaccount

In the cockpit, choose Directories.

Open Shared Services.

Select SH Dev.

You should now be on the SH Dev subaccount page.

## Step 2 - Open Entitlements

In SH Dev, choose Entitlements.

SAP documents that service plans and quotas for a subaccount are added in the subaccount's Entitlements are a.

## Step 3 - Add the required service plan

Click Configure Entitlements or Add Service Plans.

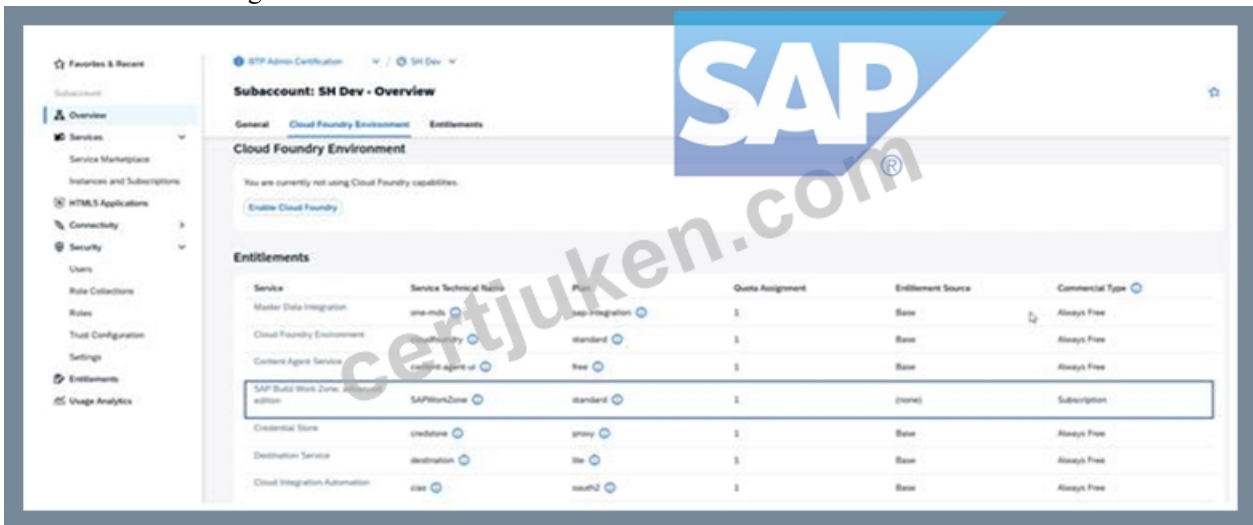

Search for SAP Build Work Zone, advanced edition.

Select the service.

Choose the plan standard (Application).

Set the quantity to 1 if a quota/amount field is shown.

Save the entitlement changes.

This task explicitly asks for one standard (Application) service plan. SAP Help also notes that SAP Build Work Zone usage depends on the correct entitlement being available in the subaccount first.

Verify

Under Entitlements, you should now see:

SAP Build Work Zone, advanced edition

plan: standard (Application)

quantity: 1 if shown

## Part 2 - Establish trust to the identity provider

### Step 4 - Open Trust Configuration

In SH Dev, go to Security.

Choose Trust Configuration.

SAP Help states that trust to a custom identity provider is established from Security > Trust Configuration in the SAP BTP cockpit.

### Step 5 - Create the trust

Click Establish Trust.

Enter or select the identity provider:

agvlamkzw.accounts.ondemand.com

Continue through the wizard.

Save the trust configuration.

SAP documents that to use a custom identity provider, the subaccount must have a trust relationship to that provider. SAP also highlights that apps such as SAP Build Work Zone rely on SAP Cloud Identity Services trust configuration.

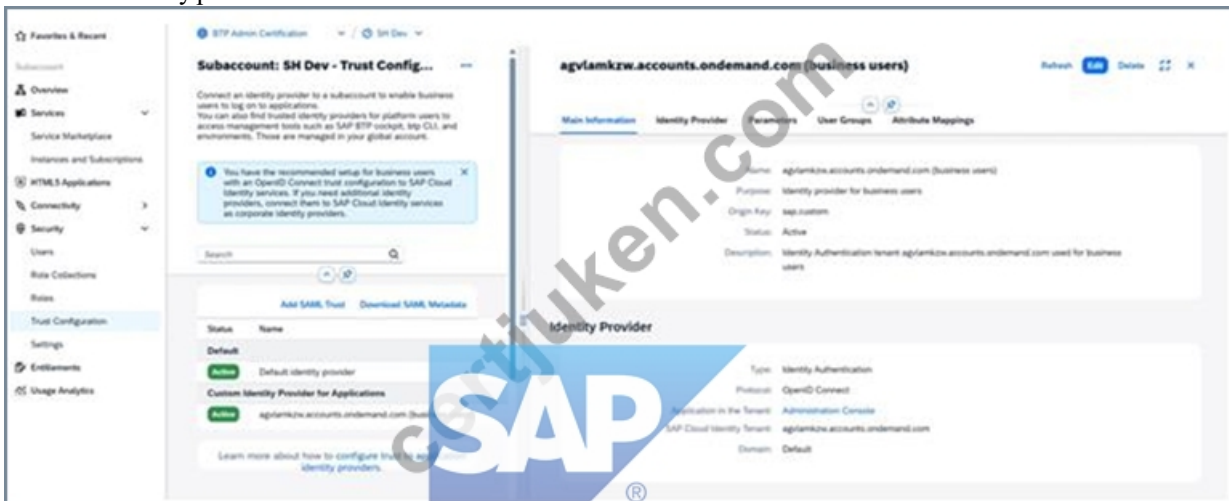

Verify

On the Trust Configuration page, you should see:

agvlamkzw.accounts.ondemand.com

as a trusted identity provider.

Part 3 - Create the subscription

Step 6 - Open Instances and Subscriptions

In SH Dev, go to Services.

Choose Instances and Subscriptions.

Step 7 - Create the subscription

Click Create.

Choose Subscription if the cockpit asks for a type.

Search for SAP Build Work Zone, advanced edition.

Select the service.

Choose the plan standard.

Confirm the creation.

SAP Help for SAP Build Work Zone scenarios indicates that the subaccount needs the correct entitlements and subscription flow to expose and use SAP Build Work Zone content.

Step 8 - Confirm subscription status

Stay on Instances and Subscriptions.

Check that the new subscription appears and is active.

Verify

You should see:

SAP Build Work Zone, advanced edition

plan: standard

subscription created successfully

## New Instance or Subscription

1

Basic Info

Enter basic info for your instance or subscription.

**i** Some services are not shown because Cloud Foundry is not enabled. To enable it, select it from the Service dropdown menu and create an instance of it.

Service: \* 

Can't find what you're looking for?

SAP Build Work Zone, advanced edition 

Plan: \*  
standard 

[Create](#) [Cancel](#)

Final expected result

Inside SH Dev:

the entitlement for SAP Build Work Zone, advanced edition exists

the entitled plan is standard (Application)

trust is established to agvlamkzw.accounts.ondemand.com

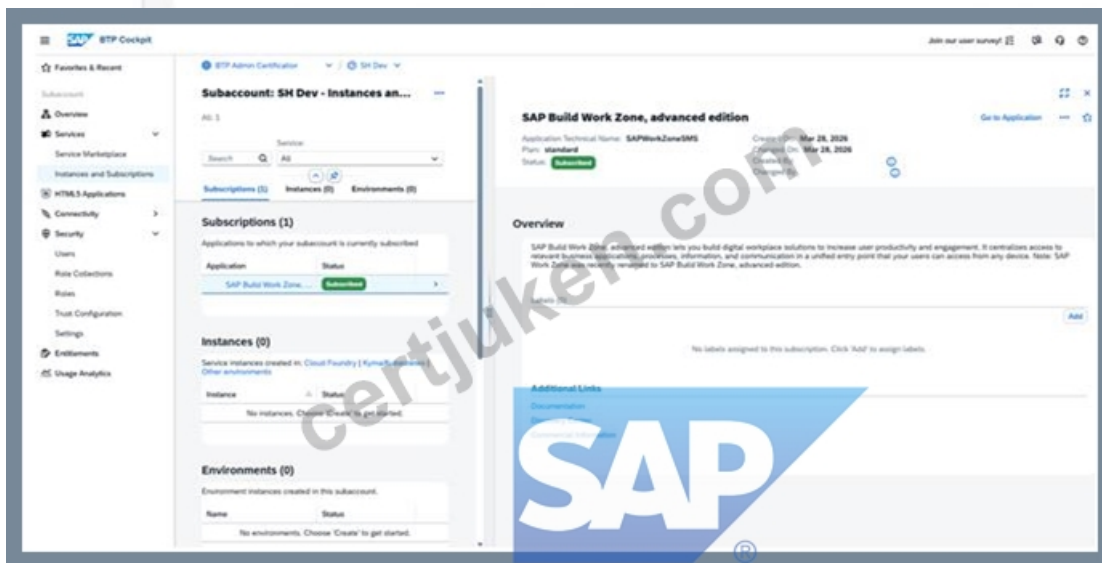

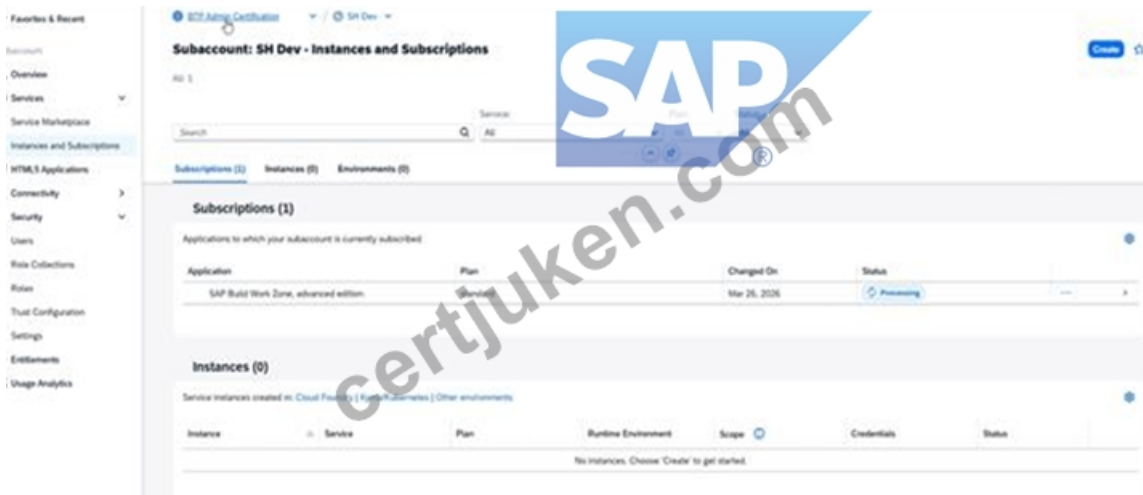

a subscription exists for SAP Build Work Zone, advanced edition

the subscription uses the standard plan

Common mistakes to avoid

Doing the entitlement in Shared Services directory instead of SH Dev

Choosing SAP Build Work Zone, standard edition instead of advanced edition  
Choosing the wrong plan; the entitlement must be standard (Application)  
Forgetting the trust step to agvlamkzw.accounts.ondemand.com  
Trying to subscribe before the entitlement exists

## 質問 # 14

.....

あなたが会社員であろうと、学生であろうと、主婦であろうと、時間はあなたの最も重要な資源です。CertJukenは、最小限の労力で最短時間でSAP試験に合格するための包括的なサービスプラットフォームです。Administrating SAP Business Technology Platform(C\_ADBTP\_2601)にもあるように、C-ADBTP-2601 1インチの金は1インチの時間です。C-ADBTP-2601学習ガイドが効率的であればあるほど、候補者はそれをより愛し、恩恵を受けます。Administrating SAP Business Technology Platform(C\_ADBTP\_2601)学習トレントの助けを借りて、最初の試行でも20~30時間だけ試験に合格できると言っても過言ではありません。また、お客様のさまざまな研究の興味や趣味に応えるために、PDF、CertJukenソフトウェア、オンラインのAPPなど、試験資料のバージョンを選択できます。
