Demos of C_S4CPB_2508 PDF and practice tests are free to download for you to validate the SAP C_S4CPB_2508 practice material before actually buying the SAP C_S4CPB_2508 product. Trying a free demo of SAP C_S4CPB_2508 questions will ease your mind while purchasing the product.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q16-Q21):

NEW QUESTION # 16
What defines the organizational entities that are required in SAP Central Business Configuration?
Note:
There are 2 correct answers to this question

- A. System consistency checks
- B. The selected scope
- C. The selected deployment target
- D. Added partner content

Answer: B,C

Explanation:
The organizational entities that are required in SAP Central Business Configuration are defined by the selected deployment target and the selected scope. The deployment target specifies which SAP cloud solutions are included in the project, such as SAP S/4HANA Cloud, public edition. The scope specifies which business processes and countries/regions are included in the project, such as sales or professional services.
These choices determine which organizational units are required to run the underlying processes, such as company, business residence, sales organization, or project unit. Added partner content and system consistency checks do not define the organizational entities, but rather enhance or validate the configuration. References = SAP Central Business Configuration - Overview, page 5; Introducing SAP Central Business Configuration In SAP Central Business Configuration, the organizational entities that need to be defined for an SAP S
/4HANA Cloud Public Edition implementation are influenced by two primary factors: the selected deployment target and the selected scope. The deployment target refers to the specific environment or system where SAP S/4HANA Cloud will be implemented. This choice can affect which organizational entities are necessary based on the technical and business requirements of that environment. The selected scope, on the other hand, pertains to the business processes and functions that the company intends to use within SAP S
/4HANA Cloud. This determines the organizational structures, such as company codes, sales organizations, and purchasing organizations, that need to be set up to support the scoped processes. Both factors are integral to ensuring that the configuration supports the business's operational needs and strategic objectives.

NEW QUESTION # 17
In SAP Central Business Configuration, which activities can you perform during Product-Specific Configuration? Note: There are 3 correct answers to this question.

- A. Change approval thresholds.
- B. Modify building blocks.
- C. Create new scope items.
- D. Add new sales organizations.

- E. Add blocking reasons for billing.

Answer: A,D,E

NEW QUESTION # 18

You have assigned a deployment target in SAP Central Business Configuration, but have not yet completed scoping.
Which of the following tasks can you complete? Note: There are 2 correct answers to this question.

- A. Define the group currency.
- B. Rename the deployment target.
- C. Assign a different deployment target.
- D. Create a company code.

Answer: B,C

NEW QUESTION # 19

Which tools does SAP provide to make it easier for customers to maintain their SAP S/44HANA Cloud systems after a release upgrade? Note: There are 2 correct answers to this question.

- A. What's New Viewer Tool
- B. Release Assessment and Scope Dependency Tool
- C. Test Automation Tool
- D. SAP Signavio Process Navigator Tool

Answer: C,D

NEW QUESTION # 20

When do you specify the data retention period in the SAP S/4HANA Migration Cockpit?

- A. When the project status is "Finished"
- B. When the project status is "Not Started"
- C. When the project status is "Completed"
- D. When the project status in "In Progress

Answer: A

Explanation:
You specify the data retention period in the SAP S/4HANA Migration Cockpit when the project status is
"Finished". The data retention period is the length of time (in days) that the project and all associated data is kept in the system after you have set the status of the project to Finished. To do this, set the option Data Retention Period to On. The data will be deleted from the SAP S/4HANA system when the data retention time expires. If you set the option Data Retention Period to Off, then the project and all associated data will be kept in the system indefinitely. You can also change the retention time for finished projects on the Technical Information tab of the project settings. References = The Migration Project Screen, Migrating Data to the SAP S/4HANA System

NEW QUESTION # 21
