

# New HPE7-J01 Test Camp, Latest HPE7-J01 Practice Questions

P.S. Free & New HPE7-J01 dumps are available on Google Drive shared by VerifiedDumps: <https://drive.google.com/open?id=1WIVZ8mNNXUSVe9drvUSjqi87OgAbPsvV>

VerifiedDumps Advanced HPE Storage Architect Solutions Written Exam (HPE7-J01) practice material can be accessed instantly after purchase, so you won't have to face any excessive issues for preparation of your desired HPE7-J01 certification exam. The HPE7-J01 Exam Dumps of VerifiedDumps has been made after seeking advice from many professionals. Our objective is to provide you with the best learning material to clear the Advanced HPE Storage Architect Solutions Written Exam (HPE7-J01) exam.

Our HPE7-J01 learning materials are carefully compiled by industry experts based on the examination questions and industry trends in the past few years. The knowledge points are comprehensive and focused. You don't have to worry about our learning from HPE7-J01 exam question. We assure you that our HPE7-J01 learning materials are easy to understand and use the fewest questions to convey the most important information. As long as you follow the steps of our HPE7-J01 Quiz torrent, your mastery of knowledge will be very comprehensive and you will be very familiar with the knowledge points. This will help you pass the exam more smoothly.

>>> **New HPE7-J01 Test Camp** <<<

**HPE7-J01 Test Torrent & HPE7-J01 Actual Test & HPE7-J01 Pass for Sure**

Free update for one year after purchasing is available for HPE7-J01 study guide, therefore there is no need for you to spend extra money on update version. And the update version for HPE7-J01 exam dumps will be sent to your email automatically, you just need to check your email for the update version. Besides, HPE7-J01 Exam Materials are compiled by experienced experts and, so the quality can be guaranteed. We have online and offline service, and they possess the professional knowledge for HPE7-J01 exam materials, and if you have any questions, you can consult us.

## HP Advanced HPE Storage Architect Solutions Written Exam Sample Questions (Q63-Q68):

### NEW QUESTION # 63

A customer has a variety of HPE Alletra arrays running various VM workloads managed by VMware vCenter. These arrays are managed with HPE GreenLake. The customer is concerned they are not getting the best efficiency from the HPE storage arrays. You access CloudPhysics in GreenLake to get an overall view of the hosts and VMs that have the biggest impact on the customer's current environment. Which card should you first examine to see this information?

- A. Shared Storage Analysis
- B. Summary for VMware vCenters
- C. Simulator for VM Rightsizing
- D. Host Analysis

**Answer: C**

Explanation:

HPE CloudPhysics is a SaaS-based analytics platform integrated into the HPE GreenLake Data Services Cloud Console (DSCC) that provides deep insights into virtualized infrastructure. It uses a visual metaphor called "cards" to present focused analytics for specific use cases. When a customer is concerned about storage efficiency and the overall impact of VM workloads, the Simulator for VM Rightsizing (also known as the VM Rightsizing Simulator) is the primary tool for analysis. This card specifically identifies inefficiencies such as over-provisioned or "oversized" virtual machines. By analyzing the actual resource utilization (CPU, memory, and I/O) versus the allocated capacity, the rightsizing simulator can highlight which VMs are consuming excessive resources without operational need.

Reviewing this card first is critical because storage efficiency is often compromised by "virtual sprawl" and bloated VM templates that waste disk space and IOPS on the backend HPE Alletra arrays.

### NEW QUESTION # 64

Match the HPE StoreOnce solution with the appropriate description. Each answer will be used once.

Uses bandwidth-efficient methods to copy data without rehydration		Answer Area	
Lowering license costs is required by the customer			VTL
Uses robot and drive device types for data protection			NAS
			Catalyst Copy

**Answer:**

Explanation:

Uses bandwidth-efficient methods to copy data without rehydration		Answer Area	
Lowering license costs is required by the customer		Uses robot and drive device types for data protection	VTL
Uses robot and drive device types for data protection		Lowering license costs is required by the customer	NAS
		Uses bandwidth-efficient methods to copy data without rehydration	Catalyst Copy

Explanation:

- \* Catalyst Copy: Uses bandwidth-efficient methods to copy data without rehydration
- \* NAS: Lowering license costs is required by the customer
- \* VTL: Uses robot and drive device types for data protection

The HPE StoreOnce portfolio provides multiple data protection interfaces to align with different legacy and modern workload requirements. Understanding the specific technical "DNA" of each interface is key to a successful Master ASE design. HPE StoreOnce Catalyst Copy is the most advanced method for data movement. Unlike standard protocols that must "rehydrate" (decompress/deduplicate) data before sending it over the network, Catalyst Copy is "deduplication-aware". It identifies unique data blocks at the source and only transmits those that do not already exist at the destination. This bandwidth-efficient method allows for high-speed replication over WAN links with minimal overhead. The NAS (Network Attached Storage) interface is often chosen when lowering license costs is a primary driver. Because it utilizes industry-standard protocols like NFS or SMB/CIFS, it does not require the specialized (and often separately licensed) backup software agents or plug-ins associated with the high-performance Catalyst protocol. While it lacks some of the advanced deduplication-at-source benefits of Catalyst, it remains a cost-effective choice for general-purpose file-based backups. The VTL (Virtual Tape Library) interface is designed for customers with existing investments in tape-based backup workflows. It emulates physical tape hardware, presenting the backup software with virtual "robot" (medium changer) and drive device types. This allows organizations to transition from physical tape to disk-based deduplication without changing their existing backup scripts or procedures, providing a seamless "drop-in" replacement for aging tape libraries.

**NEW QUESTION # 65**

An administrator is creating Virtual Protection Groups (VPGs) in Zerto to replicate information locally and to a remote disaster site. What is the maximum number of VPGs with which a VM can be associated?

- A. Four
- **B. Three**
- C. One
- D. Two

**Answer: B**

Explanation:

In a Zerto environment, a Virtual Protection Group (VPG) is the fundamental unit of management used to group virtual machines that must be replicated together to maintain write-order fidelity and application consistency. This is particularly vital for multi-tier applications, such as a database server and a web server, that need to be recovered to the exact same point in time. According to the HPE Advanced Storage Solutions technical guides and Zerto's architectural specifications, a single Virtual Machine (VM) can be associated with a maximum of three VPGs simultaneously.

This capability is often referred to as "one-to-many" replication. This architectural flexibility allows a storage administrator to design complex data protection strategies that go beyond simple site-to-site disaster recovery.

**NEW QUESTION # 66**

Drag and Drop Question

Match the fibre channel topology to its use case. Each answer will be used once.

	Answer Area	
Accommodates diverse geographic conditions and location		Meshed fabric
Data access is localized with servers and storage connected to the same switch		Cascaded fabric
Data access is a mix of local and distributed		Core-edge fabric
Has many-to-many connectivity and requires high performance		Ring fabric

**Answer:**

Explanation:

	Answer Area	
Accommodates diverse geographic conditions and location	Has many-to-many connectivity and requires high performance	Meshed fabric
Data access is localized with servers and storage connected to the same switch	Data access is localized with servers and storage connected to the same switch	Cascaded fabric
Data access is a mix of local and distributed	Data access is a mix of local and distributed	Core-edge fabric
Has many-to-many connectivity and requires high performance	Accommodates diverse geographic conditions and location	Ring fabric

#### NEW QUESTION # 67

A customer purchased an HPE GreenLake for File Storage solution and implemented the replication feature. Which statement is correct regarding this feature?

- A. Two protected paths configured on the same path can be used to replicate to the same peer.
- **B. N:1 and 1:N replication is supported, with snapshots taken at the directory level.**
- C. Data reduction, including deduplication, is performed between the storage arrays.
- D. Client hardware has read-write access to both the source and destination replication arrays.

**Answer: B**

Explanation:

HPE GreenLake for File Storage is built upon a disaggregated, shared-everything (DASE) architecture powered by VAST Data software. The replication mechanism in this environment is fundamentally different from traditional block-based replication. Instead of replicating entire volumes or LUNs, HPE GreenLake for File Storage performs replication at the directory level. According to the HPE GreenLake for File Storage Administrator Guide, the system utilizes a snapshot-based asynchronous replication engine. This allows for highly flexible topologies, including N:1 (fan-in) and 1:N (fan-out) configurations, which are essential for modern distributed data environments and centralized backup strategies. Because the solution is file-based, it leverages "Views" (or shares) that point to specific directory paths. Protection policies and snapshot schedules are applied directly to these paths, ensuring that only the specific datasets required for disaster recovery are replicated.

Option B is a common point of confusion; while the system is inherently "reduction-aware" and uses similarity-based data reduction (deduplication and compression) to save space on the physical media, the replication process itself focuses on the metadata and unique data blocks associated with the directory-level snapshots. Option A is incorrect because, in an asynchronous replication relationship, the destination is typically Read-Only until a failover or clone operation is initiated. Option D is incorrect as the management of protected paths follows strict pairing rules to prevent configuration conflicts. Thus, the support for flexible fan-in/fan-out topologies and granular directory-level protection (Option C) is the defining characteristic of this enterprise file solution.

#### NEW QUESTION # 68

.....

Sometimes a small step is possible to be a big step in life. HPE7-J01 exam seems just a small exam, but to get the HPE7-J01 certification exam is to be reckoned in your career. Such an international certification is recognition of your IT skills. In addition, except HPE7-J01, many other certification exams are also useful. The latest information of these tests can be found in our VerifiedDumps.

**Latest HPE7-J01 Practice Questions:** <https://www.verifieddumps.com/HPE7-J01-valid-exam-braindumps.html>

Unfortunately, if you have failed the HPE7-J01 exam, you can send us your failure HPE7-J01 certification and require the full refund, then we will deal with your case and give you full refund, Hurry up to get our HP HPE7-J01 real practice torrent with such favorable price, The HPE7-J01 VerifiedDumps exam dumps provide candidates a great possibility to increase their income substantially, The great advantage of our HPE7-J01 study prep is that we offer free updates for one year long.

In this book, we provide logical frameworks and measurement techniques to enhance HPE7-J01 decisions in several vital talent domains where decisions often lag behind scientific knowledge, and where mistakes frequently reduce strategic success.

## New HPE7-J01 Test Camp Newest Questions Pool Only at VerifiedDumps

Some candidates should notice we provide three versions for you, Latest HPE7-J01 Practice Questions and they are really affordable price to obtain as such an amazing practice material with passing rate up to 98-100 percent.

Unfortunately, if you have failed the HPE7-J01 Exam, you can send us your failure HPE7-J01 certification and require the full refund, then we will deal with your case and give you full refund.

Hurry up to get our HP HPE7-J01 real practice torrent with such favorable price, The HPE7-J01 VerifiedDumps exam dumps provide candidates a great possibility to increase their income substantially.

The great advantage of our HPE7-J01 study prep is that we offer free updates for one year long, Now, we can offer you the most comprehensive HPE7-J01 training vce torrent to help you pass the HPE7-J01 actual test in the fast way.
