As we all know, all companies will pay more attention on the staffs who have more certifications which is a symbol of better understanding and efficiency on the job. Our 300-420 Study Materials have the high pass rate as 98% to 100%, hope you can use it fully and pass the exam smoothly.

Cisco Designing Cisco Enterprise Networks Sample Questions (Q185-Q190):

NEW QUESTION # 185

Which two statements about VRRP object tracking are true? (Choose two)

- A. The VRRP interface priority must be manually configured by the administrator
- B. VRRP can track the status of interfaces and routes
- C. A VRRP group can track only one object at a time
- D. VRRP supports only interface tracking
- E. The priority of a VRRP device can change in accordance with the up or down status of a VRRP object

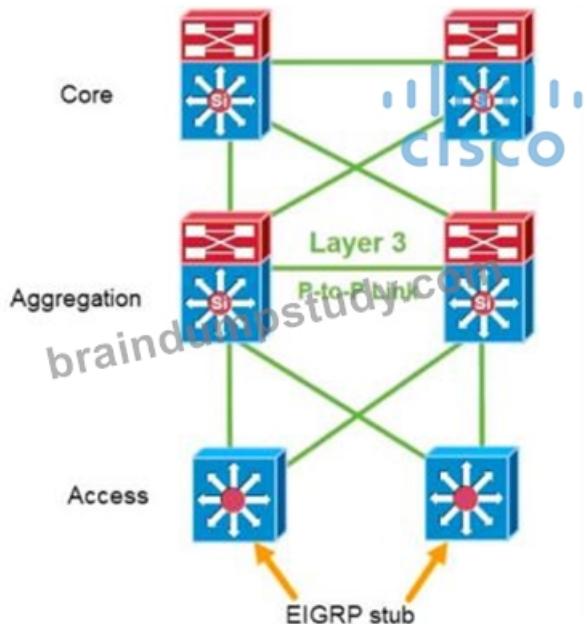

Answer: B,E

Explanation:

<https://www.ciscolive.com/c/dam/r/ciscolive/emea/docs/2019/pdf/BRKCRS-2821.pdf>

NEW QUESTION # 186

Refer to the exhibit.

Refer to the exhibit. Where must an architect plan for route summarization for the topology?

- A. from the core toward the aggregation and the aggregation toward the core
- B. from the aggregation toward the access and the access toward the aggregation
- C. from the core toward the aggregation and the access toward the aggregation
- D. from the aggregation toward the core and the aggregation toward the access

Answer: D

NEW QUESTION # 187

Drag and drop the characteristics from the left onto the Yang model they describe on the right.

Select and Place:

independent of the underlying operating system	Open Model
specific to the underlying operating system	
vendor neutral	Native Model
provided by the vendor for device management	

Answer:

Explanation:

independent of the underlying operating system	Open Model
specific to the underlying operating system	independent of the underlying operating system
vendor neutral	vendor neutral
provided by the vendor for device management	Native Model
independent of the underlying operating system	specific to the underlying operating system
specific to the underlying operating system	provided by the vendor for device management
vendor neutral	Open Model
provided by the vendor for device management	independent of the underlying operating system
independent of the underlying operating system	vendor neutral
specific to the underlying operating system	Native Model
vendor neutral	specific to the underlying operating system
provided by the vendor for device management	provided by the vendor for device management

NEW QUESTION # 188

Refer to the exhibit. The distribution switches serve as the layer 3 boundary. HSRP preemption is enabled. When the primary switch comes back after a failure, traffic is initially dropped. Which solution must be implemented to improve the design?

- A. Use the preempt delay feature on the primary HSRP device.
- B. Configure a higher mac-refresh interval on both HSRP devices
- C. Increase the hello timers on both HSRP devices
- D. Use the preempt delay feature on the backup HSRP device

Answer: A

NEW QUESTION # 189

What are two valid scaling techniques when an EIGRP network is designed that consists of more than 1000 routers? (Choose two.)

- A. Use the distribute-list command to filter routes
- B. Implement multiple EIGRP autonomous systems
- C. Use structured hierarchical topology with route summarization
- D. Use sub-second timers
- E. Modify delay parameters on the links

Answer: B,C

Explanation:

Section: Advanced Addressing and Routing Solutions

NEW QUESTION # 190

.....

The only use of the internet is to validate the product license for the 300-420 practice exam software. If you are not online, you can still practice for the Cisco 300-420 exam questions thanks to this feature of BraindumpStudy's 300-420 Exam simulation software. As a result, the 300-420 desktop-based practice test software is a particularly useful option for customers who do not constantly have access to the internet.
