NEW QUESTION # 174
By default, what is the printing behavior when no printing policy is configured?

- A. All client printers are auto-created.
- B. Direct connections to print servers are prohibited.
- C. The Universal Print Server is enabled.
- D. The generic universal printer is automatically created.

Answer: A

Explanation:
The default printing behavior when no printing policy is configured is to auto-create all client printers. This means that the system automatically creates printers in the user session that correspond to the printers defined on the user device. This option provides users with access to the same printers in a session as they have on their user devices.
