

# All Objectives for the Latest NS0-528 New Cram Materials

## WHAT YOU WILL BE TESTED ON

### Domain 1. Data Protection Solutions

- Data protection solutions
- Design documentation solutions
- Solution dependencies

### Domain 2. NetApp ONTAP Core Data Protection Features

- Knowledge of data protection or data redundancy on an ONTAP system
- Data efficiencies as they relate to data protection
- How to deploy data protection solutions in a hybrid cloud

### Domain 3. NetApp Data Protection Software

- Deploy NetApp data protection software
- Administer NetApp data protection software
- Data protection solutions for Kubernetes applications

### Domain 4. NetApp ONTAP Business Continuity Solutions

- SnapMirror active sync
- SVM-DR operations

### Domain 5. Troubleshooting and Testing

- Troubleshoot data protection configurations
- Disaster Recovery procedures
- Data restore procedures

DOWNLOAD the newest RealValidExam NS0-528 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1\\_Yrs89PoeXEJ5Oj7O0jEumSOdZU\\_PkoZ](https://drive.google.com/open?id=1_Yrs89PoeXEJ5Oj7O0jEumSOdZU_PkoZ)

It will make you practice nicely and productively as you will experience better handling of the Network Appliance NS0-528 questions when you take the actual Network Appliance NS0-528 exam to grab the Network Appliance NS0-528 certification. Work hard and practice with our Network Appliance NS0-528 Dumps till you are confident to pass the Network Appliance NS0-528 exam. And that too with flying colors and achieving the Network Appliance NS0-528 certification on the first attempt.

## Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.</li> </ul>

## **Free PDF Quiz NS0-528 - Accurate Implementation Engineer - Data Protection Exam New Cram Materials**

The NS0-528 PDF works on smart phones, tablets, and laptops. Windows computers support the NS0-528 desktop practice test software. No software installation is necessary for the web-based Network Appliance Exam practice exam. All operating systems (Mac, Linus, Android, iOS, Windows) and major browsers support the NS0-528 web-based practice exam.

### **Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q245-Q250):**

#### **NEW QUESTION # 245**

A customer wants to upgrade to ONTAP 9.7P3 from their current version running on their AFF All SAN Array A220. This upgrade must be completed non-disruptively.

In this scenario, which statement is correct?

- A. Migrate the LIFs and use the ~vol move~ command, then carry out the upgrade.
- B. Plug in the HA cabling and mirror the NVRAM, then carry out the upgrade.
- C. Shut down access to all the volumes, then carry out the upgrade.
- D. The upgrade process is non-disruptive, no further action is required.

**Answer: D**

#### **NEW QUESTION # 246**

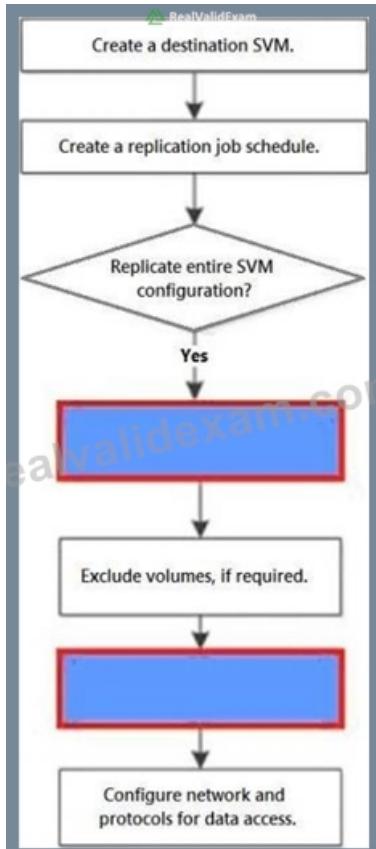

What are the key considerations when selecting a data protection solution provider?

- A. Data storage capacity, data backup speed, and data retrieval time
- B. Data encryption strength, data deduplication ratio, and data archiving capabilities
- C. Data protection compliance, service level agreements, and customer support
- D. Cost, data security, and data backup frequency

**Answer: C**

## NEW QUESTION # 247

Exhibit:

You must set up SVM replication for the first time using CLI. This replication will be used for DR purposes. The SVM configuration does not need to be replicated at this time. In this configuration, you will be reusing a default policy.

Referring to the exhibit, what are two missing steps from the SVM replication workflow? (Choose two.)

- A. Exclude specific LIFs and protocols from the replication policy.
- B. Create a relationship with the id-preserve option set to false.
- C. Initialize the newly created SnapMirror relationship.
- D. Initialize the relationship with the id-preserve option set to true.

**Answer: B,D**

## NEW QUESTION # 248

You have an AFF A220 cluster in your main data center and a FAS2720 cluster that uses ONTAP 9.8 at a second data center on the same campus. You must ensure maximum data availability for the data center.

In this scenario, which ONTAP solution do you implement?

- A. a SnapMirror relationship with an update interval of one minute
- B. a SnapMirror Synchronous relationship between AFF and FAS
- C. an SVM-DR relationship with identity preserve disabled for your SVMs
- D. an SVM-DR relationship with identity preserve enabled for your SVMs

**Answer: D**

## NEW QUESTION # 249

What are the requirements for installing NetApp data protection software?

- A. A high-speed internet connection and a powerful processor
- B. A dedicated server and a database management system
- C. A specialized network and firewall configuration
- D. A compatible operating system and sufficient storage space

## Answer: D

### NEW QUESTION # 250

Once you purchase the NS0-528 exam dumps from RealValidExam you can use it in three forms Network Appliance PDF Questions format, web-based software, and desktop Network Appliance NS0-528 practice test. Candidates can use Implementation Engineer - Data Protection Exam pdf questions file on their mobiles, laptop tablets, or any other device. Candidates can install the NS0-528 Practice Exam software on their desktops to attempt the Network Appliance NS0-528 practice test even when they are offline.
