Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q37-Q42):

NEW QUESTION # 37

Your customer has different accounting and project accounting periods, and sometimes enters invoices with an invoice date in the open project accounting and closed accounting periods. Which two statements are true about how project accounting and accounting dates will be populated in such invoices? (Choose two.)

- A. Project accounting date is the same as the original invoice date.
- B. Project accounting date is the last day of the open project accounting period.
- C. Accounting date is the same as the original invoice date.
- D. Accounting date is the first day of the first open accounting period.
- E. Project accounting date is the first day of the first open project accounting period.

Answer: C,E

Explanation:

When an invoice is entered with an invoice date in the open project accounting and closed accounting periods, the accounting date is the same as the original invoice date, but the project accounting date is the first day of the first open project accounting period. This

ensures that the invoice is accounted in the correct accounting period and recognized in the correct project accounting period.

NEW QUESTION # 39

Which step within the functional setup manager helps you to move your verified setup data from the test environment to a production environment?

- A. Planning
- B. Deploying
- C. Opting In
- D. Setting Up
- E. Maintaining

Answer: B

Explanation:

The Deploying step within the functional setup manager helps you to move your verified setup data from the test environment to a production environment. This step allows you to export and import setup data across instances using spreadsheets or configuration packages. You can also compare and validate setup data across instances using reports and dashboards. Reference:

Projects and Resources: Procedure Project Schedules are used as a base for project and resource calendars in Project Execution Management applications. The smallest scheduling unit is a day. For example, you can define the number of hours in a day but, you can't schedule work for a specific time of the day.

The following are the elements of a schedule:

* Shifts

- * Workday patterns
- * Exceptions

NEW QUESTION # 41

Your organization has a requirement to create and apply a new theme for the application user interface. Which option allows you to achieve this requirement?

- **A. Appearance Page**
- B. Structure Page
- C. Setup and Maintenance Work Area
- D. User Interface Text

Answer: A

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. Reference:
