## Quiz 2026 Alibaba Pass-Sure SAE-C01 Valid Exam Syllabus

Originating the SAE-C01 exam questions of our company from tenets of offering the most reliable backup for customers, and outstanding results have captured exam candidates' heart for their functions. Our SAE-C01 practice materials can be subdivided into three versions. All those versions of usage has been well-accepted by them. There is not much disparity among these versions of SAE-C01 simulating practice, but they do helpful to beef up your capacity and speed up you review process to master more knowledge about the exam, so the review process will be unencumbered.

## Alibaba Cloud Certified Expert - Solutions Architect (SAE-C01) Sample Questions (Q52-Q57):

#### NEW QUESTION # 52

In high-performance architectural design, what is the role of caching mechanisms like Redis or Memcached?

Response:

- A. To centralize data storage
- **B. To speed up data retrieval and reduce database load**
- C. To improve fault tolerance
- D. To enhance data security

**Answer: B**

#### NEW QUESTION # 53

In IT Governance, what does the term "IT portfolio management" refer to?

Response:

- **A. Managing a collection of IT investments and projects**
- B. Managing IT project budgets
- C. Managing software development teams
- D. Managing physical IT assets

**Answer: A**

#### NEW QUESTION # 54

A company stores data in OSS buckets. According to the company's security policy, static data must be encrypted at rest. Which of the following methods can meet this requirement?

An e-commerce platform, implementing a highavailability architecture, uses an Alibaba Cloud Server Load Balancer (SLB) instance to connect user terminals to its applications. Users note login states not being updated after logging in and items disappearing from shopping carts. Addressing this issue revolves around the management of user sessions and persistence.

Which solutions can resolve issues such as session inconsistency and cleared shopping cart items?

(Choose three)

Response:

- **A. Enable session persistence for SLB instances, ensuring user requests maintain session continuity with backend processing servers. Upload an object and specify a server-side encryption method for the object.**
- **B. Upload data over HTTPS and encrypt the data before transmitting it to OSS.**
- C. Use OSS bucket policies to restrict access to static data.
- **D. Use custom keys to encrypt the data at the client before importing it to OSS.**

**Answer: A,B,D**

#### NEW QUESTION # 55

What is the primary goal of distributed infrastructure in a high-performance architectural design?

Response:

- A. Simplifying system complexity
- **B. Maximizing redundancy**
- C. Minimizing cost
- D. Reducing network latency

**Answer: B**

#### NEW QUESTION # 56

A cloud e-commerce platform is going to hold a sales promotion during Christmas. At present, the customer has built an online shopping platform on Alibaba Cloud by using Server Load Balancer (SLB), Elastic Compute Service (ECS), Relational Database Service (RDS), and Object Storage Service (OSS).

When handling a surge of business traffic during the past holiday sales promotions, the customer's platform encountered the following

problems: Because of great purchase demands for certain holiday products, the number of access requests for such products was too large, resulting in image loading failures on shopping pages.

Transaction pages of hot-selling products were loading slowly or even could not be opened. To build the cloud architecture in advance to cope with the growth of business traffic during the sales promotion, if you are an Alibaba Cloud architect, which of the following solutions do you think are the most reasonable and effective?

(two correct answers)

Response:

- A. Configure existing RDS instances as single RDS instances to improve database performance.
- **B. Use the data control module of the business system to cache the data of hot-selling products in advance on ApsaraDB for Redis, implementing high concurrency and relieving the RDS access pressure.**
- C. Change the instance type to upgrade the configuration of SLB instances and increase the bandwidth to handle the traffic surge.
- **D. Enable Alibaba Cloud Content Delivery Network (CDN) and separate the details pages of hot-selling products from those of general products in the business system. Statically process the details pages of hot-selling products to allow servers to dynamically determine only user clicks for buying products, and cache other static data on CDN.**

**Answer: B,D**

## NEW QUESTION # 57

.....

We offer you free update for 365 days for SAE-C01 study guide materials, so that you can have a better understanding of what you are going to buy. And update version for SAE-C01 exam materials will be sent to your email automatically. In addition, SAE-C01 exam materials are compiled by experienced experts, and they are quite familiar with the exam center, therefore if you choose us, you can get the latest information for the exam We also have online and offline chat service, if you have any questions about SAE-C01 Study Guide, you can contact with us online or by email, and we will give you reply as quickly as we can.
