Get Valid 300-420 Valid Exam Guide and Excellent Reliable 300-420 Study Notes

As usual, you just need to spend little time can have a good command of our study materials, then you can attend to your 300-420 exam and pass it at your first attempt. We also hire a team of experts, and the content of 300-420 question torrent is all high-quality test guidance materials that have been accepted by experienced professionals. 300-420 practice materials will be the most professional and dedicated tutor you have ever met.

Cisco Designing Cisco Enterprise Networks Sample Questions (Q257-Q262):

NEW QUESTION # 257

A customer requested that a guaranteed service line be enabled for a manufacturing business in different countries. On the customer side, the QoS-aware application is used to process large data chunks. The application cannot tolerate drops and latency should be as low as possible. Which QoS model must an engineer employ to use the minimum required resources on the ISP network nodes?

- A. Implement a group-based QoS strategy with FECs enabled
- B. Configure a domain-based QoS strategy with PHB behavior.
- C. Enable a flow-based QoS strategy with queuing elements.
- D. **Implement an end-to-end QoS strategy with SLA.**

Answer: D

NEW QUESTION # 258

Which NETCONF operation creates filtering that is specific to the session notifications?

- A. <create-subscription>
- B. <logging>
- C. <commit>
- D. <notification>

Answer: A

NEW QUESTION # 259

Which two Cisco ISE use cases typically involve the highest level of implementation complexity?
(Choose two.)

- A. Software-defined segmentation
- B. Device management
- C. Guest and wireless access
- D. **Software-defined access**
- E. Asset visibility

Answer: A,D

NEW QUESTION # 260

A company's security policy requires that all connections between sites be encrypted in a manner that does not require maintenance of permanent tunnels. The sites are connected through a private MPLS-based service that uses a dynamically changing key and spoke-to-spoke communication. Which type of transport encryption must be used in this environment?

- A. DMVPN
- B. **GETVPN**
- C. GRE VPN
- D. standard IPsec VPN

Answer: B

NEW QUESTION # 261

Which two steps can be taken to improve convergence in an OSPF network? (Choose two.)

- A. Use Bidirectional Forwarding Detection
- B. Merge all the areas into one backbone area
- C. Span the same IP network across multiple areas.
- D. **Make all non-backbone areas stub areas**
- E. Tune OSPF parameters

Answer: D,E

NEW QUESTION # 262

Our 300-420 study materials are the hard-won fruit of our experts with their unwavering efforts in designing products and choosing test questions. Pass rate is what we care for preparing for an examination, which is the final goal of our 300-420 study materials. According to the feedback of our users, we have the pass rate of 99%, which is equal to 100% in some sense. The high quality of our products also embodies in its short-time learning. You are only supposed to practice 300-420 Study Materials for about 20 to 30 hours before you are fully equipped to take part in the examination.
