

Free PDF Quiz 2026 L3M6: Authoritative Test Socially Responsible Warehousing and Distribution Study Guide

P.S. Free & New L3M6 dumps are available on Google Drive shared by PDFTorrent: https://drive.google.com/open?id=1L69KrqMycOu0z_eDEZrNnz6W3cqnX0Vx

Our CIPS L3M6 exam questions are designed to provide you with the most realistic L3M6 Exam experience possible. Each question is accompanied by an accurate answer, prepared by our team of experts. We also offer free CIPS L3M6 Exam Questions updates for 1 year after purchase, as well as a free L3M6 practice exam questions demo before purchase.

CIPS L3M6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understand the Environmental Impact of Warehousing and Distribution: This section targets Logistics Coordinators and examines how warehousing and distribution contribute to environmental challenges. Topics include air pollution, carbon footprint, noise pollution, accidents, land use, and visual intrusion. It also discusses the environmental costs associated with logistics activities such as greenhouse gas emissions and global warming and strategies to mitigate these impacts. The role of government policies in sustainable logistics is emphasized, including reducing freight intensity, improving utilization rates, promoting greener transport modes, enhancing energy efficiency, and cutting emissions.

Topic 2	<ul style="list-style-type: none"> Understand the Environmental Impact of Procurement and Supply: This section evaluates the skills of Supply Chain Analysts in understanding how procurement affects the environment. It explores global challenges such as balancing globalization with green logistics, public awareness, external pressures, and international regulations. The environmental impact of transportation and storage is covered, including air pollution, carbon footprint calculations, noise pollution, accidents, and land use. Additionally, it highlights the government's role in promoting sustainability through policies like greener transport modes, energy efficiency, and emission reduction.
Topic 3	<ul style="list-style-type: none"> Understand the Concepts of Sustainability and Corporate Social Responsibility (CSR): This section of the exam measures the knowledge of Procurement Specialists and covers the foundational concepts of sustainability and CSR. It explains how sustainability involves meeting present needs without compromising future generations' ability to do the same. The focus extends beyond traditional economic criteria, incorporating environmental and social impacts into procurement decisions. CSR emphasizes extending corporate goals to include social responsibility, promoting good citizenship, and encouraging positive impacts on stakeholders, including social, economic, and cultural diversity.
Topic 4	<ul style="list-style-type: none"> Understand Methods for the Storage and Movement of Inventory: This section assesses the expertise of Warehouse Managers in inventory storage and movement methods. It includes principles of warehouse design, focusing on location, layout factors such as flow and space utilization, and flexibility. It also explains various types of warehousing equipment like material handling systems, palletization techniques, packaging standards, and automation technologies that align with environmental standards.

L3M6 Boot Camp | L3M6 Accurate Answers

The second form is Socially Responsible Warehousing and Distribution (L3M6) web-based practice test which can be accessed through online browsing. The L3M6 web-based practice test is supported by browsers like Firefox, Microsoft Edge, CIPS Chrome, and Safari. You don't need to install any plugins or software to attempt the L3M6 web-based practice test. This online CIPS L3M6 exam is also compatible with all operating systems.

CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q194-Q199):

NEW QUESTION # 194

Which pillar of sustainability aims to eliminate waste, promote the use of renewable energy and recycled materials, and optimize processes through the supply chain by using available expertise and new technologies?

- A. Shared
- B. Economic
- C. Social
- D. Environmental**

Answer: D

Explanation:

The Environmental pillar focuses on minimizing ecological harm by eliminating waste, using renewable energy and recycled materials, and optimizing supply chain processes with expertise and technology. The CIPS L3M6 module links this to sustainable procurement practices that reduce environmental footprints.

Reference:

NEW QUESTION # 195

A _____ measures the total greenhouse gas emissions caused directly and indirectly by people and organizations.

- A. Environment footprint**

- B. Carbon handprint
- C. Environment handprint
- D. Carbon footprint

Answer: D

Explanation:

A carbon footprint (A) quantifies total GHG emissions from activities, per the CIPS L3M6 syllabus. Carbon handprint (B) measures positive impacts, while environment footprint (C) and handprint (D) are broader or less defined terms. CSR focuses on carbon footprints for accountability.

NEW QUESTION # 196

What activities are included in logistics? Select all that apply.

- A. Order fulfilment
- B. Inventory management
- C. Transportation
- D. Warehousing
- E. Manufacturing
- F. Invoicing

Answer: A,B,C,D

Explanation:

Logistics encompasses:

- * A. Inventory Management: Tracking stock levels for efficient supply.
- * D. Order Fulfilment: Processing and delivering orders.
- * E. Transportation: Moving goods across the chain.
- * F. Warehousing: Storing goods sustainably.
- * B. Invoicing: Financial, not logistical.
- * C. Manufacturing: Production, not logistics.

The CIPS L3M6 module defines logistics as these operational activities, critical to LO2's environmental focus (e.g., green transport).

NEW QUESTION # 197

Which group of influencers uses publicity campaigns and social media to raise awareness of poor environmental practices while also lobbying businesses directly?

- A. Consumers
- B. Governments
- C. Activists

Answer: C

Explanation:

Activists (A) employ campaigns and lobbying to highlight environmental issues, per the CIPS L3M6 syllabus. Consumers (B) act through purchasing, and governments (C) through policy. Activists shape CSR via public pressure.

Reference:

NEW QUESTION # 198

Which group of influencers is becoming more aware of environmental issues and activities that contribute to climate change?

- A. Consumers
- B. Governments

- C. Activists

Answer: A

Explanation:

Consumers (B) are increasingly aware of climate issues, per the CIPS L3M6 syllabus, influencing demand for sustainable logistics. Activists (A) are already aware, and governments (C) respond rather than awaken. CSR adapts to consumer trends.
