Palo Alto Networks System Engineer - Cortex Professional Sample Questions (Q140-Q145):

NEW QUESTION # 140

When preparing for a Cortex XSOAR proof of value (POV), which task should be performed before the evaluation is requested?

- A. Ensuring that the customer has single sign-on (SSO) configured in their environment
- B. Planning for every different use case the customer has for the solution
- C. Building out an executive-level proposal detailing the product capabilities
- D. Gathering a list of the different integrations that will need to be configured

Answer: D

NEW QUESTION # 141

If a customer activates a TMS tenant and has not purchased a Cortex Data Lake instance.

Palo Alto Networks will provide the customer with a free instance

What size is this free Cortex Data Lake instance?

- A. 100 GB
- B. 10 TB
- C. 10 GB
- D. 1 TB

Answer: A

NEW QUESTION # 142

A Cortex Xpanse customer receives an email regarding an upcoming product update and wants to get more information on the new features.

In which resource can the customer access this information?

- A. Compatibility Matrix
- B. Administrator Guide
- C. Release Notes
- D. LIVEcommunity

Answer: C

Explanation:

The Release Notes are the resource where the customer can access information about upcoming product updates and the new features included. Release Notes provide detailed descriptions of new features, improvements, bug fixes, and any other important changes to the product.

NEW QUESTION # 143
