You can prepare using these no-cost updates in accordance with the most recent test content changes provided by the Salesforce Certified Platform Development Lifecycle and Deployment Architect (Plat-Arch-202) exam dumps.

Salesforce Certified Platform Development Lifecycle and Deployment

Architect Sample Questions (Q120-Q125):

NEW QUESTION # 120

Universal Containers is in the final stages of building a new application to track custom containers. During a review of the application, a business subject Matter Expert mentioned that it would be nice to be able to track additional container types beyond what was originally scoped during the plan and design phase. Which two actions should be performed to mitigate the risk? Choose 2 answers.

- A. Have a discussion with the business subject Matter Expert and communicate that the Salesforce has limitations in supporting such a feature to mitigate the risk.
- B. Escalate and communicate to stakeholders the risk and mitigate it by extending the timeline of the project to support the new requirement based on stakeholders input.
- C. Have a discussion with the business subject Matter Expert and communicate that a new developer environment will be needed to mitigate the risk.
- D. Escalate and communicate to stakeholders the risk and mitigate it by allocating additional resources to support the new requirement based on stakeholders input.

Answer: B,D

NEW QUESTION # 121

Universal Containers (UC) is preparing for the new Salesforce release in a couple of months, and has several ongoing development projects that may be affected. Which three steps should the team at UC take to prepare for this release? Choose 3 answers

- A. Upgrade any SOAP integrations to the newest WSDL as early as possible
- B. Refresh a Sandbox during the Release Preview Window to ensure they have the upcoming release.
- C. Contact Salesforce to schedule a time to upgrade the full Sandbox.
- D. Run regression tests in an upgraded sandbox to detect any issues with the Upgrade.
- E. Review the release notes for automatically-enabled features and technical debt.

Answer: B,D,E

NEW QUESTION # 122

Which are two key benefits of fully integrating an agile issue tracker with software testing and continuous integration tools? Choose 2 answers?

- A. Developers can use the committed code's build status directly on the user story record.
- B. Developers can see automated test statuses post code commit on a specific user story.
- C. Developers can collaborate and communicate effectively on specific user stories.
- D. Developers can observe their team velocity on the burn chart report in the agile tool.

Answer: A,B

NEW QUESTION # 123

Universal Containers (UC) has a huge volume of metadata that cannot be deployed at once. What is the recommended strategy for UC to be successful with the deployment?

- A. Use a continuous integration tool such as Jenkins to deploy in the right order.
- B. Sort and group the metadata alphabetically and deploy them in the same order.
- C. Use a combination of the Ant migration tool and change sets for deployment.
- D. Identify metadata dependencies, create logical groupings, and deploy in the right order.

Answer: D

NEW QUESTION # 124

Universal Containers (CUC) has developed extensions of Salesforce Service Cloud for the use of its customer service teams using the change set development model.

Recently, UC acquired a company that develops extensions of an AppExchange app. The development team of the acquired

company uses the org development model. The Universal Containers CTO wants both teams to work on a single org and follow the same set of processes.

Which development model should the architect recommend to be used by the consolidated development team?

- A. Change set development model, because UC is already using it, so it will face less resistance.
- B. Package development model, because it allows packages to be created and deployed using declarative (point-and-click) development tools, without writing code.
- **C. Package development model, so teams can build release artifacts that can be tested and released independently from artifacts for other projects.**
- D. Org development model, because the acquired company's team is already using it, and it is better than the change set development model.

Answer: C

NEW QUESTION # 125

.....

Each of the formats is unique in its own way and helps every Salesforce certification exam applicant prepare according to his style.
