The NS0-184 exam covers a range of topics, including NetApp hardware installation and configuration, NetApp software installation and configuration, and NetApp storage system troubleshooting. NS0-184 exam is divided into two parts: a written exam and a lab exam. The written exam consists of multiple-choice questions that test the candidate's knowledge of NetApp storage installation, while the lab exam assesses the candidate's ability to install, configure, and troubleshoot NetApp storage systems in a simulated environment.

Network Appliance NS0-184 Exam is a certification test that verifies the skills and knowledge of candidates in installing, implementing, and managing NetApp ONTAP storage systems. NetApp Certified Storage Installation Engineer, ONTAP certification is designed to validate the expertise of storage installation engineers and other IT professionals who work with NetApp storage solutions. The NS0-184 exam is a vendor-neutral certification that demonstrates a thorough understanding of NetApp storage systems and the ability to install, configure, and maintain them.
