MSSC CLT Latest Exam Cost & Free CLT Study Material

In order to ensure the quality of our CLT preparation materials, we specially invited experienced team of experts to write them. The content of our CLT practice engine comes from a careful analysis and summary of previous exam syllabus, so that you can accurately grasp the core test sites. At the same time, our professional experts are keeping a close eye on the changes of the exam questions and answers. So that our CLT Study Guide can be the latest and most accurate.

MSSC CLT Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Quality Control Principles: This section of the exam measures skills of the Certified Logistics Associate and covers the fundamental concepts used to monitor and ensure that goods and processes meet required quality standards and customer expectations.

Topic 2	<ul style="list-style-type: none"> Safe Material Handling and Equipment Operation: This section of the exam measures skills of the Certified Logistics Associate and covers the proper methods for safely moving materials and the correct operation of common handling equipment like forklifts and pallet jacks.
Topic 3	<ul style="list-style-type: none"> Safety Principles: This section of the exam measures skills of the Certified Logistics Associate and covers essential workplace safety guidelines and procedures needed to maintain a secure working environment and prevent common injuries.
Topic 4	<ul style="list-style-type: none"> Safe Handling of Hazardous Materials: This section of the exam measures skills of the Certified Logistics Technician and covers the specific regulations, documentation, and protective measures required for storing and moving dangerous goods safely.
Topic 5	<ul style="list-style-type: none"> Inventory Control: This section of the exam measures skills of the Certified Logistics Technician and covers the methods used to track stock levels, perform cycle counts, and reconcile inventory discrepancies to maintain high accuracy and prevent shortages or overstock.
Topic 6	<ul style="list-style-type: none"> Teamwork and Good Workplace Conduct to Solve Problems: This section of the exam measures skills of the Certified Logistics Associate and covers the professional behaviors and collaborative techniques needed to work effectively with colleagues and resolve common operational issues as a team.
Topic 7	<ul style="list-style-type: none"> The Logistics Environment: This section of the exam measures skills of the Certified Logistics Associate and covers the standard operational setting, including the various facilities, equipment, and regulatory factors that affect daily logistics tasks.
Topic 8	<ul style="list-style-type: none"> The World of Logistics and the Global Supply Chain: This section of the exam measures skills of the Certified Logistics Associate and covers the foundational knowledge of how logistics fits into the broader global economy and the movement of goods from their origin to the final consumer.
Topic 9	<ul style="list-style-type: none"> Packaging and Shipping: This section of the exam measures skills of the Certified Logistics Technician and covers the necessary techniques for securing goods safely for transit, selecting the right containers, and correctly labeling them for outbound transportation.
Topic 10	<ul style="list-style-type: none"> Work Communication: This section of the exam measures skills of the Certified Logistics Associate and covers the ability to effectively share information, follow verbal and written instructions, and clearly document tasks in a logistics environment.
Topic 11	<ul style="list-style-type: none"> Information Systems: This section of the exam measures skills of the Certified Logistics Associate and covers understanding and using the basic technology and software systems necessary to track, manage, and execute logistics operations, such as inventory or shipment records.
Topic 12	<ul style="list-style-type: none"> Evaluation of Transportation Modes (Truck, Air, Rail, Water): This section of the exam measures skills of the Certified Logistics Technician and covers the ability to compare and select the most appropriate transportation methods based on factors like cost, speed, and the nature of the freight being moved.
Topic 13	<ul style="list-style-type: none"> Product Receiving: This section of the exam measures skills of the Certified Logistics Technician and covers the technical procedures for inspecting, verifying, documenting, and correctly transferring incoming shipments of goods into storage facilities.
Topic 14	<ul style="list-style-type: none"> Measuring Weight & Volume: This section of the exam measures skills of the Certified Logistics Technician and covers the technical computations needed to correctly size packages and calculate accurate weight and cubic volume for shipping costs and load planning.
Topic 15	<ul style="list-style-type: none"> The 4.0 Technologies: This section of the exam measures skills of the Certified Logistics Associate and covers emerging technologies like automation, the Internet of Things (IoT), and data analytics that are changing how modern supply chains operate in the current industrial revolution.
Topic 16	<ul style="list-style-type: none"> Order Processing: This section of the exam measures skills of the Certified Logistics Technician and covers the steps required to accurately manage and fulfill customer requests, including picking and preparing the correct items for dispatch.

MSSC Certified Logistics Technician (CLT) 4.0 Sample Questions (Q105-Q110):

NEW QUESTION # 105

Which of the following loads can efficiently be unloaded in the least amount of time?

- A. damaged load
- B. suspended load
- C. **palletized load**
- D. floor loaded trailer

Answer: C

Explanation:

The CLT "Packaging and Shipment" module identifies palletized loads as the most efficient configuration for loading and unloading. Palletization allows forklifts or pallet jacks to handle multiple units as one secure, stable load, significantly reducing manual labor and dock time. In contrast, floor loading, where cartons are stacked directly in the trailer, requires individual handling and takes much longer. Palletized handling also minimizes product damage, standardizes storage footprints, and facilitates automated scanning. Damaged or irregular loads demand extra care and time. The CLT promotes palletization as a best practice for maximizing throughput, reducing ergonomics risk, and improving safety and productivity in dock operations.

NEW QUESTION # 106

Which document does NOT contain the weight of goods for preparation of loading a trailer or container?

- A. Trucker Receipt
- B. Manifest
- C. Packing List
- D. **Delivery Receipt**

Answer: D

Explanation:

The Delivery Receipt is primarily used to acknowledge that the consignee has received the shipment in good condition, noting exceptions such as damage or shortage. Unlike manifests or packing lists, it does not normally include the specific weight of goods. CLT 4.0 notes that documents such as the manifest, bill of lading, or packing list are used in load planning and verification, as they include cargo weights and cubic measurements necessary for balancing, equipment selection, and safety compliance. The delivery receipt focuses on the "proof of delivery" function within final-mile operations, forming part of the carrier's record of completed service. Proper documentation flow between warehouse, carrier, and consignee ensures accountability and accuracy at every handoff point in the logistics chain.

NEW QUESTION # 107

The basic elements of HAZMAT training required by OSHA for new HAZMAT employees include the following EXCEPT

- A. **Globally Harmonized System**
- B. function specific
- C. general awareness training
- D. safety

Answer: A

Explanation:

The CLT curriculum aligns with OSHA's HAZWOPER / Hazard Communication training: new hazmat employees require general awareness, safety training, and function-specific training (the tasks they'll perform). GHS (Globally Harmonized System) is a chemical classification/labeling standard incorporated into SDS and labeling, but it is not typically listed as a training "element" separate from those core categories in OSHA's training rubric. Thus GHS is integrated but not a separate training element per se.

Reference:

NEW QUESTION # 108

Order picking processing ends

- A. when the customer receives the order
- B. upon receipt at the warehouse
- C. when the seller receives an order
- D. when directed by the supervisor

Answer: A

Explanation:

The CLT defines the end of the order processing cycle as the point when the customer physically receives the order and confirms its condition and accuracy. This closure validates the entire order management system-from entry and picking to packing and shipping. Only at this point is the logistics transaction complete and eligible for final invoicing or proof-of-delivery confirmation. Steps before that (such as internal authorization or shipment departure) represent intermediate stages. By setting this definitive endpoint, CLT reinforces a customer-centric perspective, emphasizing that logistics effectiveness is measured by successful, on-time, accurate delivery to the customer-not merely by internal completion metrics.

NEW QUESTION # 109

An electronic data interchange (EDI) notification of shipment of product is a/an

- A. Advance Shipping Notice (ASN)
- B. Consignee
- C. Air Waybill (AWB)
- D. Proof of Delivery (POD)

Answer: A

Explanation:

The Advance Shipping Notice (ASN) is an electronic message transmitted through EDI to notify the consignee of pending deliveries. The CLT dispatch/tracking framework identifies the ASN as a critical communication tool containing shipment details such as contents, quantities, carrier, and seal numbers. It allows the receiving facility to schedule dock appointments, allocate labor, and prepare for verification. Proof of Delivery confirms completion, not notification; Air Waybill applies to air freight; the consignee is the receiving entity. The ASN thus bridges outbound and inbound logistics, improving efficiency and data accuracy throughout the supply chain.

NEW QUESTION # 110

.....

If you fail in the exam with our CLT quiz prep we will refund you in full at one time immediately. If only you provide the proof which include the exam proof and the scanning copy or the screenshot of the failure marks we will refund you immediately. If any problems or doubts about our CLT exam torrent exist, please contact our customer service personnel online or contact us by mails and we will reply you and solve your doubts immediately. Before you buy our product, you can download and try out it freely so you can have a good understanding of our CLT Quiz prep. Please feel safe to purchase our CLT exam torrent any time as you like. We provide the best service to the client and hope the client can be satisfied.
