Salesforce Certified Experience Cloud Consultant Sample Questions (Q20-Q25):

NEW QUESTION # 20

Universal Containers (UC) is building a new self-service site for its large global customer base. Customers will be posting questions, viewing Knowledge articles, downloading warranties, opening tickets, and registering their recent purchases. Purchases are stored in a custom object. UC is considering using the Customer Service template for the site and External Apps license for the customers. Which limitation could cause a potential issue for UC?

- A. External Apps license does NOT allow access to cases.
- B. External Apps license does NOT allow access to custom objects.
- C. External Apps license does NOT download documents out-of-the-box.
- **D. External Apps license does NOT allow self-registration.**

Answer: D

NEW QUESTION # 21

A consultant for Cloud Kicks (CK) is asked to build a site for CK customers. As part of this site, a custom object will be used to manage customer subscriptions. These subscriptions will need to leverage advanced sharing rules to ensure that only appropriate customers can see these subscriptions.

Which two user license types should be granted to customers to support this sharing requirement?

Choose 2 answers

- **A. Customer Community Login User**
- B. Customer Community User
- C. Partner Community User
- **D. Customer Community Plus Login User**

Answer: A,D

NEW QUESTION # 22

Dreamscape flowers is looking to launch a public site for its current customers and prospects.

Which three actions are performed automatically when a site is created Experience Cloud?

Choose 3 answers

- **A. Creation of a guest profile**
- **B. Creation of a guest user record**
- **C. Creation of a guest role**
- D. Creation of sharing mechanisms that are available only to guest users
- E. Creation of moderation criteria that are applied only to guest users

Answer: A,B,C

Explanation:

Three actions that are performed automatically when a site is created in Experience Cloud are A, C, and E. A guest role is a role that defines the access level and permissions of guest users on your site. A guest profile is a profile that determines what guest users can see and do on your site. A guest user record is a user record that represents the guest user on your site. These actions are performed automatically when you create a site in Experience Cloud, so you don't have to manually create them.

NEW QUESTION # 23

Northern Trail Outfitters (NTO) is punning to create an HR help desk for its employees. IT recommends using Experience Cloud to build the HR help desk app. What should NTO consider when building the HR help desk app?

- A. The HR help desk app can centralize knowledge and self-service in to one experience site.
- B. MR user profile is only available in Employee Cloud with Employee permission set license.
- C. HR user profile is only available in Enterprise and Performance Editions with HR permission set license.
- **D. The HR help desk app can centralize Chatter from all related active Experience Cloud sites in the org.**

Answer: D
