最新的 SAP Certified Associate C-THR84-2505 免費考試真題 (Q37-Q42):

問題 #37

Which of the following can you use to explore released APIs?

- A. SAP Application Interface Framework
- **B. SAP Business Accelerator Hub**
- C. SAP Integration Suite

答案: B

問題 #38

In addition to their Career Site Builder (CSB) site, some customers also maintain career information on a site they host externally. The content of what type of page is most often hosted by a customer externally and linked with their CSB site?

- A. Map page
- **B. Content page**
- C. Category page
- D. Landing page

答案: B

解題說明:

Comprehensive and Detailed In-Depth Explanation:

In SAP SuccessFactors Recruiting: Candidate Experience, Career Site Builder (CSB) is a fully hosted solution for career sites, but some customers maintain supplemental career-related content on external sites (e.g., their corporate website) and link it to CSB. Let's analyze why "Content page" is the most common type hosted externally:

* Option A (Content page): Correct. Content pages, such as "About Us," "Company Culture," or

"Benefits," provide static, informational content about the employer. These are frequently hosted on a customer's corporate site because they align with broader branding efforts and may already exist outside the CSB scope. Linking these to CSB ensures candidates can access detailed company info without duplicating it in CSB.

* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "Customers often maintain content pages, such as 'About Us' or 'Our Values,' on their externally hosted corporate websites. These can be linked from the CSB site via external type links in the header or footer to provide candidates with additional employer information."

* Reasoning: Imagine a company like "Best Run Corp." Their CSB site (careers.bestrun.com) focuses on job listings, but their corporate site (www.bestrun.com) has an "About Us" page detailing their history. A header link in CSB to this external content page enhances the candidate experience without overloading CSB with non-job content.

* Practical Example: In a multi-brand scenario, a customer might link to a corporate "Diversity" page to reinforce their employer brand consistently across platforms.

* Option B (Map page): Incorrect. A "Map page" isn't a standard CSB page type. While CSB integrates Google Maps for job locations, customers rarely host standalone map pages externally, as this functionality is embedded within CSB's search experience.

* Option C (Landing page): Incorrect. Landing pages in CSB are campaign-specific (e.g., for a hiring event) and typically hosted within CSB to leverage data capture forms and job links. External landing pages are less common for career info.

* Option D (Category page): Incorrect. Category pages (e.g., "Sales Jobs") display job listings and are core to CSB's purpose. Hosting them externally defeats CSB's job-centric design.

問題 #39

Which of the following are leading practices for using images on a Career Site Builder site? Note: There are 3 correct answers to this question.

- **A. Unique alt text should be populated for all images in all languages.**
- B. Alt Text is NOT required for logos on the site.
- **C. Do NOT use embedded text on images.**
- **D. Select images that have a strong focal point.**
- E. All images on a Career Site Builder site should be oriented as portrait, NOT landscape.

答案: A,C,D

解題說明:

Comprehensive and Detailed In-Depth Explanation:

Images in Career Site Builder (CSB) enhance visual appeal and accessibility, requiring careful consideration to meet standards like WCAG 2.1. Let's delve into the options:

- * Option A (Select images that have a strong focal point): Correct. Images with a clear focus (e.g., a person's face) engage candidates and improve visual hierarchy.
 - * SAP Documentation Excerpt: From the Career Site Builder Accessibility Guide: "Leading practice recommends selecting images with a strong focal point to draw candidate attention and enhance the visual experience on the CSB site."
 - * Reasoning: A photo of a smiling employee on careers.bestrun.com/home stands out over a blurry group shot, guiding the eye to key content. This is configured in CSB > Pages > Image Upload.
 - * Practical Example: For "Best Run," choosing an image of a team leader for the "About Us" page increases engagement.
 - * Option C (Do NOT use embedded text on images): Correct. Embedded text (e.g., "Join Us" on a banner) isn't accessible to screen readers or searchable, violating SEO and accessibility norms.
 - * SAP Documentation Excerpt: From the Career Site Builder Accessibility Guide: "Avoid using embedded text on images, as it cannot be read by screen readers and may not be indexed by search engines; use alt text instead."
 - * Reasoning: Instead of embedding "Apply Now" on an image, use HTML text with CSS styling in CSB > Global Styles, ensuring accessibility for users with JAWS.
 - * Practical Example: "Best Run" replaces a text-over-image banner with a styled "Apply Now" button.
 - * Option E (Unique alt text should be populated for all images in all languages): Correct. Alt text describes images for accessibility and must reflect content in each locale.
 - * SAP Documentation Excerpt: From the Career Site Builder Localization Guide: "Populate unique alt text for all images in each language to ensure accessibility and relevance for candidates across locales."
 - * Reasoning: For an image of a team on careers.bestrun.com, alt text is "Best Run team meeting" (en_US) and "Reunion de l'équipe Best Run" (fr_FR), set in CSB > Pages > Image Settings.
 - * Practical Example: "Best Run" updates alt text for a logo across en_US, fr_FR, and es_ES.
 - * Option B (Alt Text is NOT required for logos): Incorrect. WCAG 2.1 mandates alt text for all images, including logos, for accessibility (e.g., "Best Run Logo").
 - * Option D (All images should be oriented as portrait): Incorrect. Orientation (portrait or landscape) depends on design needs, not a universal rule.

問題 #40

What tasks related to job distribution are you responsible for? Note: There are 3 correct answers to this question.

- **A. Conduct the job delivery intake meeting.**
- B. Deliver jobs directly to compliance job boards.
- **C. Train your customers how to populate their preferred sources in the Career Site Builder Site Source Editor.**
- D. Work with job boards to arrange special pricing for your customer.
- **E. Create the customer's standard XML feeds.**

答案: A,C,E

解題說明:

Comprehensive and Detailed In-Depth Explanation:

As a consultant for SAP SuccessFactors Recruiting:

- * Option A (Create the customer's standard XML feeds): Correct. Consultants configure standard XML feeds to automate job distribution, included in the Recruiting statement of work (SOW).
 - * SAP Documentation Excerpt: From the Recruiting Posting Guide: "The consultant is responsible for creating one standard XML feed as part of the standard recruiting implementation to facilitate automated job distribution to job boards."
 - * Option B (Conduct the job delivery intake meeting): Correct. This meeting aligns customer requirements with job distribution strategy, a key consultant task.
 - * SAP Documentation Excerpt: From the Implementation Handbook: "Conducting the job delivery intake meeting is a critical step where the consultant gathers customer preferences and requirements for job distribution processes."
 - * Option E (Train your customers how to populate their preferred sources in the Career Site Builder Site Source Editor): Correct. Training ensures customers can manage sources post-implementation.
 - * SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "Consultants should train customers on using the Site Source Editor to populate and manage preferred job sources, empowering self-sufficiency."
 - * Option C (Work with job boards to arrange special pricing): Incorrect. This is a sales or procurement task, not a consultant's responsibility.
