Haben sie von SAP C_S4EWM_2023 Dumps von DeutschPrüfung gehört? Aber, Haben Sie diese Dumps benutzt? Viele Leute haben gesagt, dass DeutschPrüfung Dumps sehr gute Unterlagen sind, womit sie die SAP C_S4EWM_2023 Zertifizierungsprüfung bestanden haben. Wir DeutschPrüfung sind von vielen Leuten, die früher die SAP C_S4EWM_2023 Dumps benutzt haben, gut bewertet, weil sie wirklich viel Zeit für die SAP C_S4EWM_2023 Prüfungen sparen und den Erfolg für die Teilnehmer garantieren.

SAP C_S4EWM_2023 Prüfungsplan:

Thema	Einzelheiten
Thema 1	Shipping and Receiving: It focuses on configuring Yard Management, SAP Dock Appointment Scheduling, and using the Shipping Cockpit.
Thema 2	Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).
Thema 3	Warehouse Structure, Resource Management and SAP EWM Master Data: This topic encompasses defining the warehouse structure and setting up resource management, along with creating SAP EWM master data like storage bins and products, packaging specifications, supply chain units, and business partners.

Thema 4	• Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.
Thema 5	• Warehouse Management (Monitor - Cockpit): This topic involves monitoring warehouse activities using the Warehouse Management Monitor, Warehouse Cockpit, and analytical apps.
Thema 6	• Cross Topics (Labor Management, Exception Handling, Batches, Serial Numbers): This topic includes setting up labor management and exception handling, and working with additional product information.
Thema 7	• System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management C_S4EWM_2023 Prüfungsfragen mit Lösungen (Q29-Q34):

29. Frage

You have maintained several process types that should all use the same storage type search sequence for putaway. You want to minimize customizing efforts and create only one entry for these process types. What can you use to achieve this goal?

- A. Storage type group
- B. Putaway control indicator
- C. Stock type group
- **D. Process type group**

Antwort: D

Begründung:

Comprehensive and Detailed In-Depth Explanation:

To streamline configuration, SAP EWM allows grouping process types. Option A ("Process type group") is correct because it enables multiple process types to share a single storage type search sequence, defined in SPRO: SCM Extended Warehouse Management > Goods Receipt Process > Define Process Type Group. Options B, C, and D (putaway control indicator, storage type group, stock type group) serve other purposes like putaway rules or stock categorization, not process type grouping for search sequences.

30. Frage

Which of the following are supported with advanced production integration? Note: There are 2 correct answers to this question.

- A. Kanban
- B. Repetitive manufacturing
- **C. Process orders**
- **D. Production orders**

Antwort: C,D

Begründung:

Advanced production integration in SAP EWM supports the following scenarios:

* C. Production Orders:

* Production orders are seamlessly integrated with EWM for managing material staging, consumption, and feedback processes.

* D. Process Orders:

* Process orders are supported for industries like chemicals and pharmaceuticals where batch- oriented production is essential.

Incorrect Options:

* A: Repetitive manufacturing is not fully supported in advanced production integration with EWM.

* B: Kanban is managed differently and is not directly part of advanced production integration.

31. Frage

A packing profile is used to create pick-HUs. Which options are available? Note: There are 3 correct answers to this question.

- A. Split a warehouse task to fill the HU as completely as possible
- B. Limit the number of items to be packed in the pick handling unit
- C. Consider length, width, and height
- D. Create items in the outbound delivery for the packaging material
- E. Use a simple algorithm, a complex algorithm, or a BAdI

Antwort: B,C,E

Begründung:

Comprehensive and Detailed In-Depth Explanation:

Packing profiles in SAP EWM control pick-HU creation. Option B ("Consider length, width, and height") is correct for dimensional checks, option C ("Use a simple algorithm, a complex algorithm, or a BAdI") is correct as it offers packing logic options, and option D ("Limit the number of items") is correct for capacity control, all configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Packing > Define Packing Profile. Option A (split task) and option E (delivery items) are not standard profile features.

32. Frage

What do you require for the use of Yard Management? Note: There are 2 correct answers to this question.

- A. Resources
- B. Doors
- C. Vehicles
- D. Checkpoints

Antwort: B,C

Begründung:

Comprehensive and Detailed In-Depth Explanation:

Yard Management in SAP EWM tracks vehicle movements. Option A ("Doors") is correct as they connect the yard to the warehouse, and option B ("Vehicles") is correct as they are the objects managed, both configured in SPRO: SCM Extended Warehouse Management > Yard Management. Option C (resources) is warehouse- specific, and option D (checkpoints) is optional, not mandatory.

33. Frage

To which of the following objects can you assign external process steps? Note: There are 2 correct answers to this question.

- A. Packaging specification
- B. Warehouse process type
- C. Work center
- D. Delivery item type

Antwort: B,C

Comprehensive and Detailed In-Depth Explanation:

steps.
