

PT0-003 Reliable Test Forum, PT0-003 Training Solutions

BONUS!!! Download part of Pass4cram PT0-003 dumps for free: <https://drive.google.com/open?id=1pfy82yixQmt58bUEOJOLw5E7TPPNBovf>

Candidates are looking for valid PT0-003 questions which belong to PT0-003 urgently. If you need valid exam questions and answers, our high quality is standing out. We are confident that our PT0-003 training online materials and services are competitive. Every year we spend much money and labor relationship on remaining competitive. We are trying to offer the best high passing-rate PT0-003 Training Online materials with low price. Our exam materials will help you pass exam one shot without any doubt.

You will find that it is easy to buy our PT0-003 exam questions, as you add them to the cart and pay for them. You can receive them in 5 to 10 minutes and then you can study at once. What's more, during the whole year after purchasing, you will get the latest version of our PT0-003 Study Materials for free. You can see it is clear that there are only benefits for you to buy our PT0-003 learning guide, so why not just have a try right now?

PT0-003 Training Solutions, PT0-003 Practice Test Online

We provide 3 versions for the client to choose and free update. Different version boosts different advantage and please read the introduction of each version carefully before your purchase. The language of our PT0-003 study materials are easy to be understood and we compile the PT0-003 Exam Torrent according to the latest development situation in the theory and the practice. You only need little time to prepare for our exam. So it is worthy for you to buy our PT0-003 questions torrent.

CompTIA PenTest+ Exam Sample Questions (Q55-Q60):

NEW QUESTION # 55

During a security assessment for an internal corporate network, a penetration tester wants to gain unauthorized access to internal resources by executing an attack that uses software to disguise itself as legitimate software. Which of the following host-based attacks should the tester use?

- A. Rootkit
- B. On-path
- C. Logic bomb
- D. Buffer overflow

Answer: A

NEW QUESTION # 56

A penetration tester is enumerating a Linux system. The goal is to modify the following script to provide more comprehensive system information:

```
#!/bin/bash
```

```
ps aux >> linux_enum.txt
```

Which of the following lines would provide the most comprehensive enumeration of the system?

- A. `ls -l /home/ >> linux_enum.txt; uname -a >> linux_enum.txt; ls /home/ >> linux_enum.txt`
- B. `cat /etc/passwd >> linux_enum.txt; netstat -tuln >> linux_enum.txt; cat /etc/bash.bashrc >> linux_enum.txt`
- C. `whoami >> linux_enum.txt; uname -a >> linux_enum.txt; ifconfig >> linux_enum.txt`
- D. `hostname >> linux_enum.txt; echo $USER >> linux_enum.txt; curl ifconfig.me >> linux_enum.txt`

Answer: B

Explanation:

This command gathers:

`/etc/passwd` - lists all local user accounts.

`netstat -tuln` - lists listening ports and associated services.

`/etc/bash.bashrc` - contains environment variables and configurations that could reveal system behaviors or hidden persistence mechanisms.

This provides a much broader and deeper enumeration compared to other options.

Reference: PT0-003 Objective 4.1 - Post-exploitation techniques including enumeration of system users, services, and configurations.

NEW QUESTION # 57

A tester wants to pivot from a compromised host to another network with encryption and the least amount of interaction with the compromised host. Which of the following is the best way to accomplish this objective?

- A. Create a Netcat connection to the compromised computer and forward all the traffic to the target network.
- B. Create an SSH tunnel using `sshuttle` to forward all the traffic to the compromised computer.
- C. Set up a Metasploit listener on the compromised computer and create a reverse shell on the target network.
- D. Configure a VNC server on the target network and access the VNC server from the compromised computer.

Answer: B

Explanation:

Pivoting allows attackers to use a compromised host as a gateway to access internal resources.

Create an SSH tunnel using `sshuttle` (Option A):

`sshuttle` creates a transparent VPN-like connection over SSH, allowing the tester to forward traffic securely.

Advantages:

Provides encryption, preventing IDS/IPS detection.

Requires minimal interaction with the compromised host.

Reference: CompTIA PenTest+ PT0-003 Official Study Guide - "Pivoting and Lateral Movement Techniques"

"

Incorrect options:

Option B (VNC server): VNC lacks encryption and is easily detectable.

Option C (Metasploit listener): Reverse shells can be detected by EDR solutions.

Option D (Netcat connection): Netcat is plaintext, making it highly detectable.

NEW QUESTION # 58

User credentials were captured from a database during an assessment and cracked using rainbow tables.

Based on the ease of compromise, which of the following algorithms was MOST likely used to store the passwords in the database?

- A. SHA-1
- B. bcrypt
- C. MD5
- D. PBKDF2

Answer: C

Explanation:

Reference: <https://www.geeksforgeeks.org/understanding-rainbow-table-attack/>

NEW QUESTION # 59

A penetration tester gains access to a Windows machine and wants to further enumerate users with native operating system credentials. Which of the following should the tester use?

- A. net
- B. whoami
- C. nbtstat
- D. route

Answer: A

Explanation:

Windows provides built-in utilities for user enumeration and privilege escalation.

net command (Option C):

The net command is used to list users, groups, and shares on a Windows system:

```
net user
```

```
net localgroup administrators
```

```
net group "Domain Admins" /domain
```

Useful for gathering privilege escalation targets and understanding user permissions.

Reference: CompTIA PenTest+ PT0-003 Official Study Guide - "Windows Enumeration Commands" Incorrect options:

Option A (route): Displays network routing tables, not user information.

Option B (nbtstat): Used for NetBIOS name resolution, but does not enumerate users.

Option D (whoami): Displays current logged-in user but does not list all users.

NEW QUESTION # 60

.....

Maybe most of people prefer to use the computer when they are study, but we have to admit that many people want to learn buy the paper, because they think that studying on the computer too much does harm to their eyes. PT0-003 test questions have the function of supporting printing in order to meet the need of customers. You can print our PT0-003 Exam Question on papers after you have downloaded it successfully. It not only can help you protect your eyes, but also it will be very convenient for you to make notes. We believe that you will like our PT0-003 exam prep.
