In this social-cultural environment, the Salesforce-MuleSoft-Developer-I certificates mean a lot especially for exam candidates like you. To some extent, these certificates may determine your future. With respect to your worries about the Salesforce-MuleSoft-Developer-I practice exam, we recommend our Salesforce-MuleSoft-Developer-I preparation materials which have a strong bearing on the outcomes dramatically. Our Salesforce-MuleSoft-Developer-I Preparation materials are products full of advantages. And our Salesforce-MuleSoft-Developer-I exam simulation has quick acquisition. What is more, our Salesforce-MuleSoft-Developer-I study guide offers free updates for one year and owns increasing supporters.

Salesforce Salesforce-MuleSoft-Developer-I Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Building API Implementation Interfaces: This topic involves manually creating a RESTful interface for a Mule application and generating a REST Connector from a RAML specification. It also includes describing the features and benefits of APIkit.

Topic 2	<ul style="list-style-type: none"> Using Connectors: It focuses on retrieving data from REST services using HTTP Request or REST Connector. Moreover, the topic covers using a Web Service Consumer connector for SOAP web services and the Transform Message component.
Topic 3	<ul style="list-style-type: none"> Accessing and Modifying Mule Events: It describes the Mule event data structure. Moreover, the topic focuses on usage of transformers and enriching Mule events.
Topic 4	<ul style="list-style-type: none"> Deploying and Managing APIs and Integrations: It includes packaging Mule applications for deployment and deploying them to CloudHub. This topic also involves using CloudHub properties, creating and deploying API proxies, connecting an API implementation to API Manager, and applying policies to secure an API.
Topic 5	<ul style="list-style-type: none"> Creating Application Networks: The topic of creating Application Networks encompasses understanding MuleSoft's proposal for closing the IT delivery gap and describing the role and characteristics of the modern API. It also includes the purpose and roles of a Center for Enablement (C4E), and the benefits of API-led.
Topic 6	<ul style="list-style-type: none"> Structuring Mule Applications: Structuring Mule applications covers parameterizing an application and defining and reusing global configurations. It includes breaking an application into multiple flows using private flows, subflows, and the Flow Reference component.
Topic 7	<ul style="list-style-type: none"> Transforming Data with DataWeave: It involves writing DataWeave scripts and using DataWeave functions. This topic also includes defining and using DataWeave variables, functions, and modules, and applying correct syntax.
Topic 8	<ul style="list-style-type: none"> Routing Events: It focuses on using the Choice router for conditional logic and the Scatter-Gather router to multicast events. This topic also involves validating data by using the Validation module.
Topic 9	<ul style="list-style-type: none"> Processing Records: Processing records includes methods for processing individual records in a collection and explaining how Mule events are processed by the For Each scope. It also involves using the Batch Job with Batch Steps and a Batch Aggregator.

Salesforce Salesforce-MuleSoft-Developer-I Updated Demo, New Salesforce-MuleSoft-Developer-I Test Guide

All these three Salesforce-MuleSoft-Developer-I exam questions formats are easy to use and compatible with all devices, operating systems, and web browsers. Just choose the best Salesforce-MuleSoft-Developer-I exam questions format and start Salesforce Salesforce-MuleSoft-Developer-I exam preparation without wasting further time. As far as the price of Salesforce Certified MuleSoft Developer (Mule-Dev-201) exam practice test questions is concerned, these exam practice test questions are being offered at a discounted price. Get benefits from Salesforce-MuleSoft-Developer-I Exam Questions at discounted prices and download them quickly. Best of luck in Salesforce-MuleSoft-Developer-I exam and career!!!

Salesforce Certified MuleSoft Developer (Mule-Dev-201) Sample Questions (Q141-Q146):

NEW QUESTION # 141

How are query parameters dynamically passed to an outbound REST request using an HTTP Request operation?

- A. As query parameters in the HTTP Request operation
- B. In the Mule event's payload
- C. As URI parameters in the HTTP Request operation
- D. As flow variables

Answer: A

Explanation:

In General > Request > Query Parameters, click the plus icon (+) to add a parameter to a request. Type a name and value for the parameter or use a DataWeave expression to define the name and value.

Graphical user interface, text, application, email Description automatically generated

Request

Method: GET (Default)

Path: /united/flights/{dest}

URL:

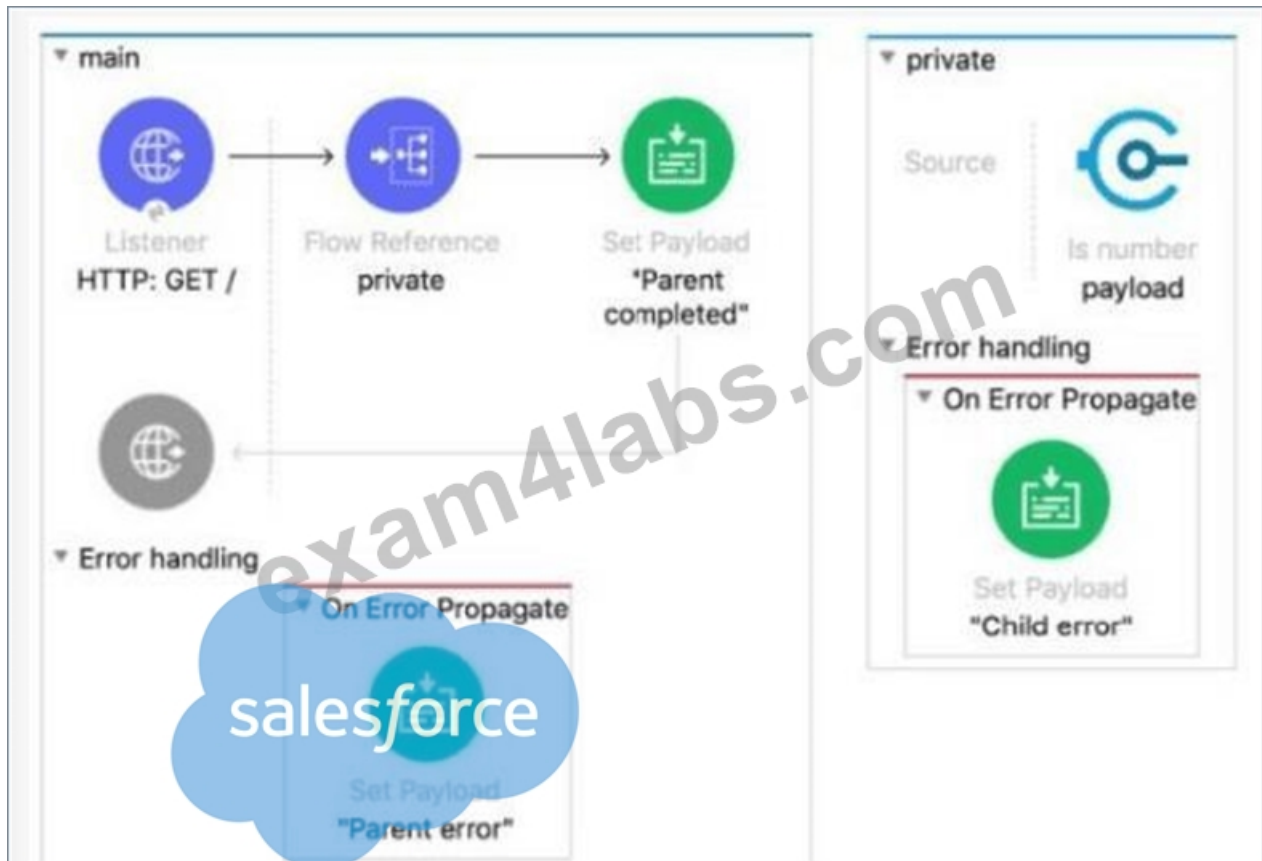

Body Headers Query Parameters URI Parameters

Name	Value
"Key"	"request_key"

Send correlation id: -- Empty --

NEW QUESTION # 142

Refer to the exhibits.

The Mule application does NOT define any global error handlers.

The Validation component in the private flow throws an error

What response message is returned to a web client request to the main flow's HTTP Listener?

```

<http:listener-config name="HTTP_Listener_config" doc:name="HTTP Listener config" >
  <http:listener-connection host="0.0.0.0" port="8081" />
</http:listener-config>

<flow name="main" >
  <http:listener doc:name="HTTP: GET /" config-ref="HTTP_Listener_config" path="/" />
  <flow-ref doc:name="private" name="private"/>
  <set-payload value="Parent completed" doc:name="Parent completed" />
  <error-handler>
    <on-error-propagate enableNotifications="true" logException="true" doc:name="On Error Propagate" >
      <set-payload value="Parent error" doc:name="Parent error" />
    </on-error-propagate>
  </error-handler>
</flow>

<flow name="private" >
  <validation:is-number numberType="INTEGER" doc:name="payload" value="#[payload]"
  message="Validation Error" />
  <error-handler>
    <on-error-propagate enableNotifications="true" logException="true" doc:name="On Error Propagate" >
      <set-payload value="Child error" doc:name="Child error" />
    </on-error-propagate>
  </error-handler>
</flow>

```

- A. "Validation Error"
- B. "Child error"
- C. "Parent error"
- D. "Parent completed"

Answer: A

NEW QUESTION # 143

What is the correct Syntax to add a customer ID as a URI parameter in the HTTP listener's path attribute?

The screenshot shows the Mule IDE interface with the 'Listener' configuration window open. The 'General' tab is active, and the 'Path' attribute is highlighted with a yellow background, showing the value '/accounts/'. The 'Connector configuration' is set to 'HTTP_Listener_config'. The 'Display Name' is 'Listener'. The 'Basic Settings' section is also visible.

- A. #[customerID]
- B. {customerID}
- C. (customerID)
- D. \${customerID}

Answer: B

Explanation:

URL parameters are always accessed using { } like => {customerID}

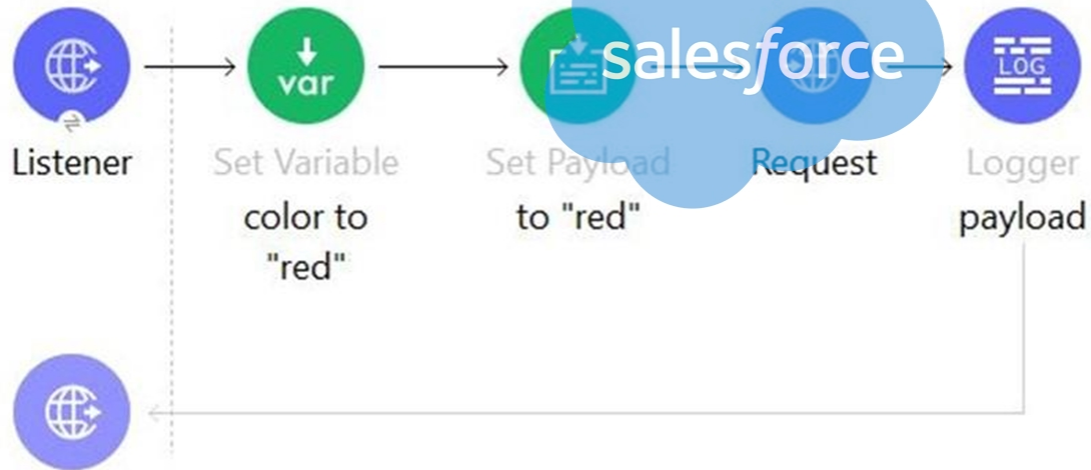

NEW QUESTION # 144

Refer to the exhibits. In the color flow , both the variable named color and payload are set to "red".

An HTTP POST request is then sent to the decideColor flow's HTTP Listener.

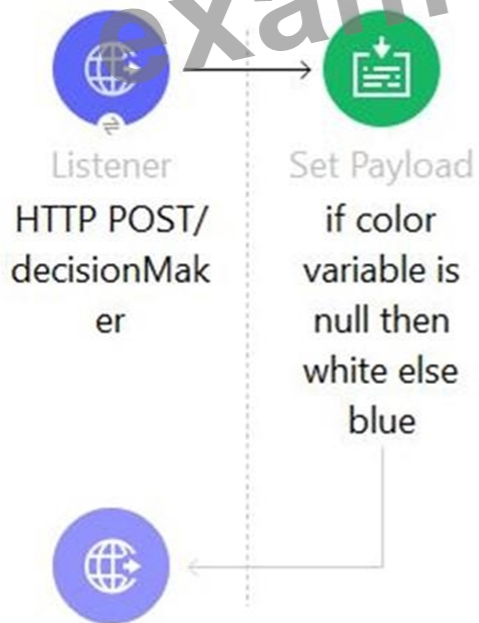

What is the payload value at the Logger component after the HTTP request completes?

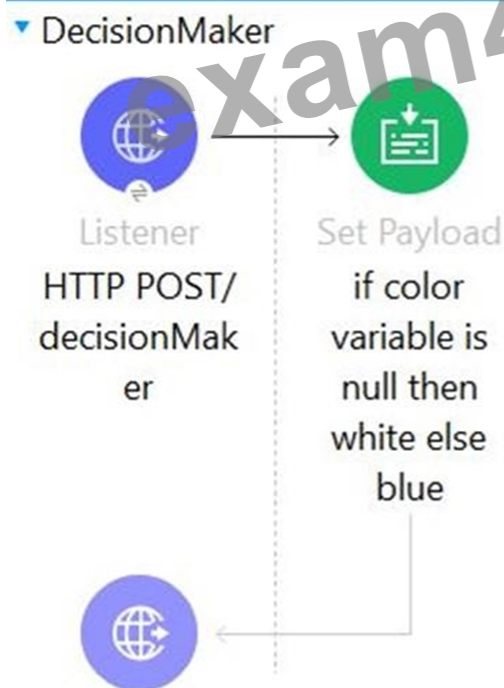

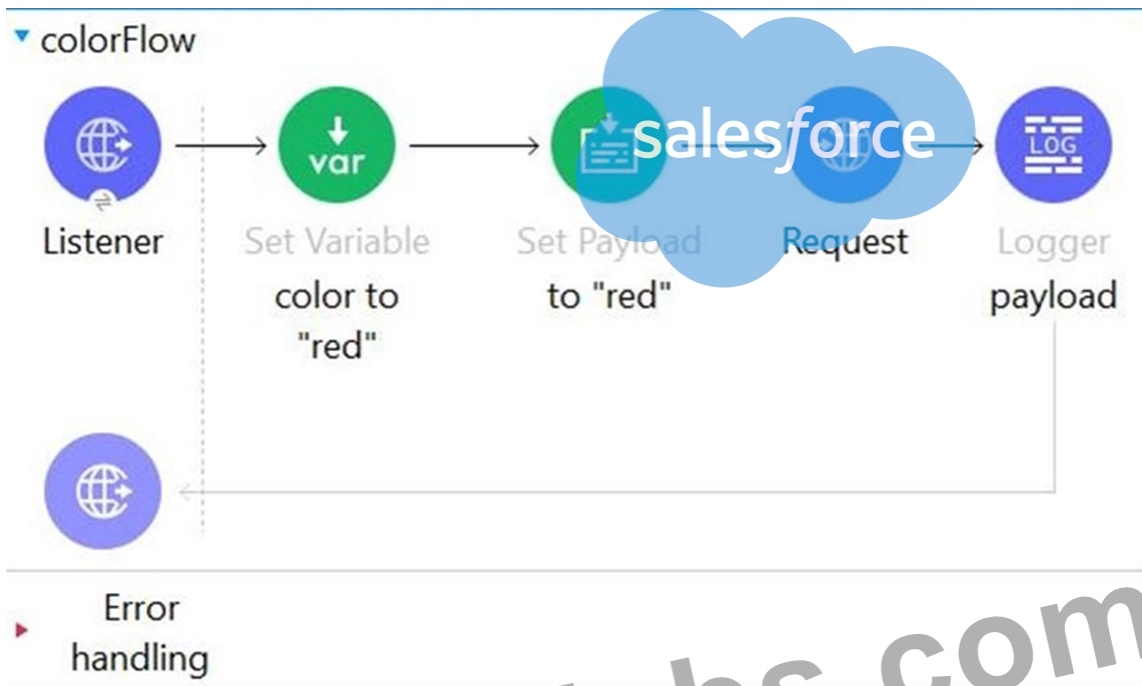

▼ colorFlow

▶ Error handling

▼ DecisionMaker

```

<flow name="colorFlow" doc:id="c0a8245d-7f64-41ec-b611-f3d55407a9c1" >
  <http:listener doc:name="Listener" doc:id="e0342e2c-504b-44c0-96e7-b356528215fb" config-ref="HTTP_Listener_config" path="/color"/>
  <set-variable value="red" doc:name="color to "red" doc:id="8bc2c51f-b23b-4b5e-df61-04c7f4a6ed1f" variableName="color"/>
  <set-payload value="red" doc:name="to "red" doc:id="0d7ee5b9-3a8f-461d-b1fa-9ea26faf8701" />
  <http:request method="POST" doc:name="Request" doc:id="54725652-f25c-459c-d11b-75f551c6d4f5"
    config-ref="HTTP_Request_configuration" path="/decisionmaker"/>
  <logger level="INFO" doc:name="payload" doc:id="69c768e3-f169-469b-b60d-863fb51428e5" message="#[payload]"/>
</flow>
<flow name="DecisionMaker" doc:id="14f2a5e7-84f9-4171-891e-3d0ed16d6d5" >
  <http:listener doc:name="HTTP POST/decisionMaker" doc:id="b9199cd2-5106-4bf9-84ca-b5aab42f4532" config-ref="HTTP_Listener_config" path="/decisionmaker"/>
  <set-payload value="if (vars.color == null)'white' else 'blue'" doc:name="if color variable is null then white else blue" doc:id="fb8201c-d719-4856-9a56-ed989bf855ce" />
</flow>
  
```

- A. white
- B. Error message
- C. red
- **D. blue**

Answer: D

NEW QUESTION # 145

How are multiple conditions used in a Choice router to route events?

- A. To find the FIRST true condition, then route the same event to the matched route and ALL FOLLOWING routes
- B. To find the FIRST true condition, then distribute the event to the ONE matched route.
- C. None of these
- D. To route the same event to the matched route of EVERY true condition

Answer: B

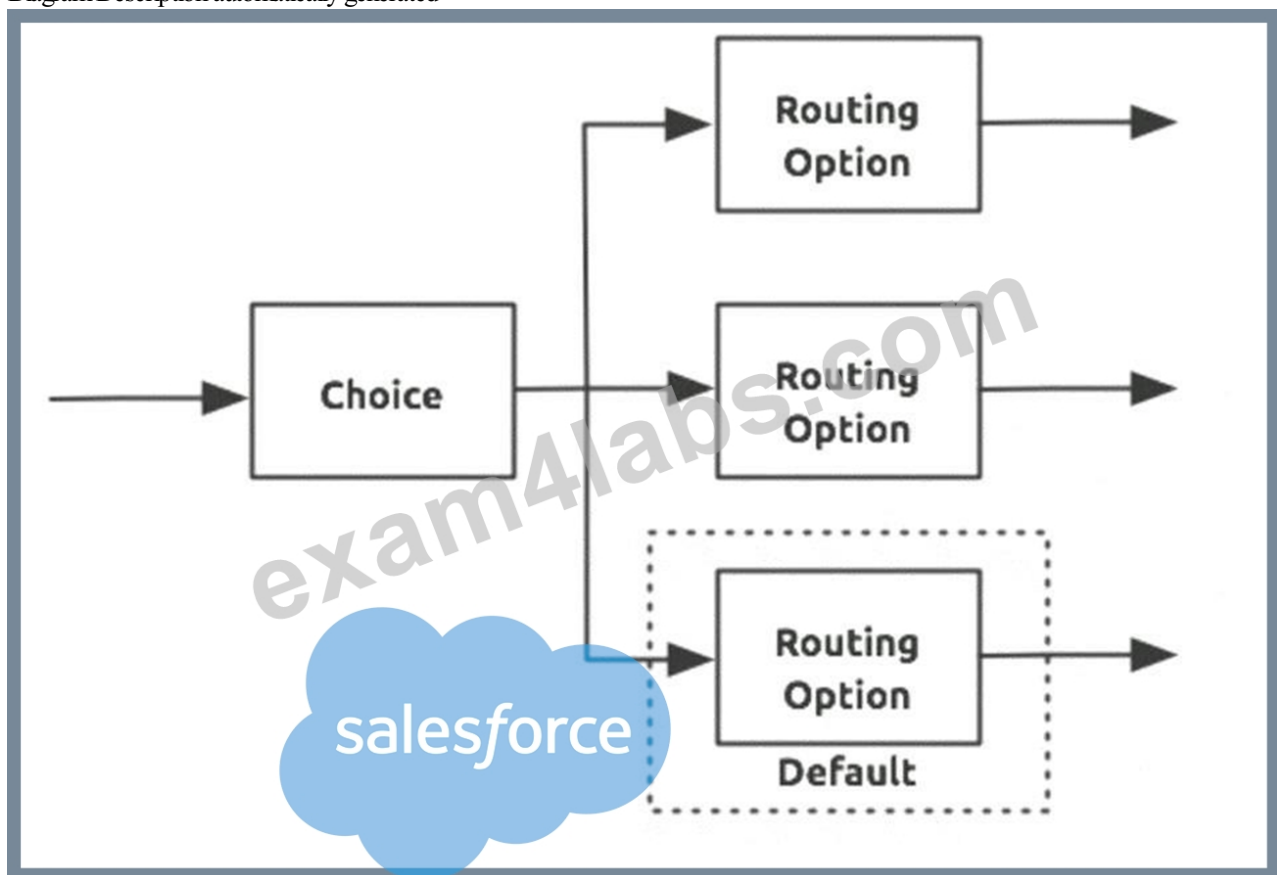

Explanation:

Choice router finds the FIRST true condition, then distribute the event to the ONE matched route.

MuleSoft Doc Ref: <https://docs.mulesoft.com/mule-runtime/4.1/choice-router-concept> The Choice router dynamically routes messages through a flow according to a set of DataWeave expressions that evaluate message content. Each expression is associated with a different routing option. The effect is to add conditional processing to a flow, similar to an if/then/else code block in most programming languages.

Only one of the routes in the Choice router executes, meaning that the first expression that evaluates to true triggers that route's execution and the others are not checked. If none of the expressions are true, then the default route executes.

NEW QUESTION # 146

.....

If you do not quickly begin to improve your own strength, the next one facing the unemployment crisis is you. The time is very tight, and choosing Salesforce-MuleSoft-Developer-I study questions can save you a lot of time. Without our Salesforce-MuleSoft-Developer-I exam braindumps, you may have to find information from the books and online, and it is too broad for you to collect all of them. And at the same time, you have to worry about the validity. But with our Salesforce-MuleSoft-Developer-I Practice Engine, your concerns are all solved. Our Salesforce-MuleSoft-Developer-I learning guide can offer you the latest and valid exam materials.
