

100% Pass Quiz AD0-E137 - Adobe Experience Manager Sites Developer Expert Updated Test Result

2026 Latest PassLeaderVCE AD0-E137 PDF Dumps and AD0-E137 Exam Engine Free Share: <https://drive.google.com/open?id=1KtqbdP0jwvKBHGcDoPn9zsTOTAo2uPqV>

The client can try out and download our Adobe AD0-E137 Training Materials freely before their purchase so as to have an understanding of our product and then decide whether to buy them or not. The website pages of our product provide the details of our Adobe Experience Manager Sites Developer Expert learning questions.

Adobe AD0-E137 Exam Syllabus Topics:

Topic	Details
Topic 1	Environment Maintenance: This section of the exam measures the skills of Implementation Specialists and covers managing AEM environment configurations, release management, synchronizing content and configurations across environments via package manager, and applying maintenance tools to support environments.
Topic 2	Build and Deployment: This section of the exam measures the skills of AEM Developers and covers front-end and back-end dependency management, creating a project via Maven archetype, crafting custom run modes, configuring workflows, and creating and managing custom Oak indexes.
Topic 3	AEM Development: This section of the exam measures the skills of Technical Consultants and covers implementing a single-page application (SPA) structure, building components using HTL, sling models, and services, writing unit tests and mapping mock data, integrating third-party APIs, developing OSGi services or servlets, and choosing appropriate JCR queries in context.
Topic 4	Configurations: This section of the exam measures skills of AEM Developers and covers how to select and configure dispatcher rules based on scenario, set up multi-tenant environments, integrate SAML and LDAP for authentication, configure replication agents, and manage editable templates or content fragment models.

New Adobe AD0-E137 Test Simulator, Valid AD0-E137 Braindumps

The services provided by our AD0-E137 test questions are quite specific and comprehensive. First of all, our test material comes from many experts. The gold content of the materials is very high, and the updating speed is fast. By our AD0-E137 exam prep, you can find the most suitable information according to your own learning needs at any time, and make adjustments and perfect them at any time. Our AD0-E137 Learning Materials not only provide you with information, but also for you to develop the most suitable for your learning schedule, this is tailor-made for you, according to the timetable to study and review. I believe you can improve efficiency.

Adobe Experience Manager Sites Developer Expert Sample Questions (Q48-Q53):

NEW QUESTION # 48

A developer is tasked with designing a solution to accommodate multiple client projects within a single Adobe Experience Manager (AEM) instance, each requiring its own set of unique resources, code, and content.

Given the need for true multi-tenancy, where each tenant operates independently with zero knowledge of other tenants and no shared code, content, or common authors, which approach should the developer recommend?

- A. Utilize AEM's out-of-the-box multi-tenancy capabilities to segregate tenants within the same author and publish instances, relying on access control lists (ACLs) and content path organization to ensure separation.
- **B. Implement separate author and publish instances for each tenant, ensuring complete isolation of resources, code, and content, thereby achieving true multi-tenancy.**
- C. Encourage the use of component groups and allowedPaths properties to logically separate tenant-specific components and templates within the same AEM instance.

Answer: B

NEW QUESTION # 49

A developer needs to define vanity URLs in the dispatcher configuration file.

Under which property would this be defined?

- **A. /vanity_urls**
- B. /vanity_url
- C. /vanityUrls
- D. vanityUrls

Answer: A

NEW QUESTION # 50

A developer wants to deliver personalized content on a webpage.

Which rule should be applied in the dispatcher configuration to ensure cache efficiency?

- **A. Cache .html files but configure dispatcher to invalidate the cache when URL parameters (query strings) are present.**
- B. Block caching for all .html pages to ensure that every page load is served directly from the AEM publish instance.
- C. Enable caching for all POST requests to improve performance on forms and other dynamic interactions that modify content.

Answer: A

NEW QUESTION # 51

A developer is asked to create an Adobe Experience Manager servlet MyServlet that listens for HTTP requests capable of handling the GET method. The servlet must be registered using Declarative Services (OSGi) and be bound to a specific resource type

/my/resourcetype allowing it to serve requests for a particular component.

What is the correct way to register a servlet?

A)

```
@SlingServletResourceTypes(resourceTypes="/my/resourcetype", methods = {"get"}) public class MyServlet extends
SlingSafeMethodServlet {
    @Override
    protected void doGet(SlingHttpServletRequest request, SlingHttpServletResponse response) throws ServletException,
IOException {
        // Handle get request
    }
}
```

B)

```
@SlingServletResourceTypes(resourceTypes="/my/resourcetype", methods = {"GET"}) public class MyServlet extends
SlingAllMethodsServlet {
    @Override
    protected void doGet(SlingHttpServletRequest request, SlingHttpServletResponse response) throws ServletException, IOException
    {
        // Handle get request
    }
}
```

C)

```
@SlingServletResourceTypes(resourceTypes="/my/resourcetype", methods = {"get"}) public class MyServlet extends
SlingSafeMethodServlet {
    @Override
    protected void doGet(HttpServletRequest request, HttpServletResponse response) throws ServletException, IOException {
        // Handle get request
    }
}
```

- A. Option B
- **B. Option A**
- C. Option C

Answer: B

NEW QUESTION # 52

A developer is creating a set of SPA components, half of which do not require a custom component exporter. The developer needs to override the default exporter for the remaining components.

How can the developer meet this goal?

- **A. Implement ComponentExporter service**
- B. Implement ImplementationPicker service
- C. Implement FallbackComponentImpl service

Answer: A

NEW QUESTION # 53

.....

The warm feedbacks from our customers all over the world and the pass rate high to 99% on AD0-E137 actual exam proved and tested our influence and charisma on this career. You will find that our they are the best choice to your time and money. Our AD0-E137 Study Dumps have been prepared with a mind to equip the exam candidates to answer all types of AD0-E137 real exam Q&A. For the purpose, AD0-E137 test prep is compiled to keep relevant and the most significant information that you need.
