Reliable Professional-Cloud-DevOps-Engineer Braindumps Sheet - Professional-Cloud-DevOps-Engineer Exam Bible

The Google Professional-Cloud-DevOps-Engineer Certification Exam is one of the valuable credentials that are designed to prove an Google aspirant's technical expertise. With the Google Cloud Certified - Professional Cloud DevOps Engineer Exam (Professional-Cloud-DevOps-Engineer) certificate they can be competitive and updated in the highly competitive market. The Google Certification Questions offers a great opportunity for beginners and experienced professionals to not only validate their skills but also advance their careers.

Google Cloud Certified - Professional Cloud DevOps Engineer Exam Sample Questions (Q112-Q117):

NEW QUESTION # 112
You support an application running on GCP and want to configure SMS notifications to your team for the most critical alerts in Stackdriver Monitoring. You have already identified the alerting policies you want to configure this for. What should you do?

- A. Download and configure a third-party integration between Stackdriver Monitoring and an SMS gateway. Ensure that your team members add their SMS/phone numbers to the external tool.
- B. Configure a Slack notification for each alerting policy. Set up a Slack-to-SMS integration to send SMS messages when Slack messages are received. Ensure that your team members add their SMS/phone numbers to the external integration.
- C. Select the Webhook notifications option for each alerting policy, and configure it to use a third-party integration tool. Ensure that your team members add their SMS/phone numbers to the external tool.
- D. Ensure that your team members set their SMS/phone numbers in their Stackdriver Profile. Select the SMS notification option for each alerting policy and then select the appropriate SMS/phone numbers from the list.

Answer: D

Explanation:
https://cloud.google.com/monitoring/support/notification-options#creating_channels To configure SMS notifications, do the following: In the SMS section, click Add new and follow the instructions. Click Save. When you set up your alerting policy, select the SMS notification type and choose a verified phone number from the list.

NEW QUESTION # 113

Your team is designing a new application for deployment both inside and outside Google Cloud Platform (GCP). You need to collect detailed metrics such as system resource utilization. You want to use centralized GCP services while minimizing the amount of work required to set up this collection system. What should you do?

- A. Instrument the code using a timing library, and publish the metrics via a health check endpoint that is scraped by Stackdriver.
- B. Import the Stackdriver Profiler package, and configure it to relay function timing data to Stackdriver for further analysis.
- C. Install an Application Performance Monitoring (APM) tool in both locations, and configure an export to a central data storage location for analysis.
- D. Import the Stackdriver Debugger package, and configure the application to emit debug messages with timing information.

Answer: C

NEW QUESTION # 114

Your product is currently deployed in three Google Cloud Platform (GCP) zones with your users divided between the zones. You can fail over from one zone to another, but it causes a 10-minute service disruption for the affected users. You typically experience a database failure once per quarter and can detect it within five minutes. You are cataloging the reliability risks of a new real-time chat feature for your product. You catalog the following information for each risk:
* Mean Time to Detect (MUD} in minutes
* Mean Time to Repair (MTTR) in minutes
* Mean Time Between Failure (MTBF) in days
* User Impact Percentage
The chat feature requires a new database system that takes twice as long to successfully fail over between zones. You want to account for the risk of the new database failing in one zone. What would be the values for the risk of database failover with the new system?

- A. MTTD:5
  MTTR: 10
  MTBF: 90
  Impact 50%
- B. MTTD: 5
  MTTR: 10
  MTBF: 90
  Impact: 33%
- C. MTTD:5
  MTTR: 20
  MTBF: 90
  Impact: 33%
- D. MTTD:5
  MTTR: 20
  MTBF: 90
  Impact: 50%

Answer: C

NEW QUESTION # 115

You support an application running on App Engine. The application is used globally and accessed from various device types. You want to know the number of connections. You are using Stackdriver Monitoring for App Engine. What metric should you use?

- A. flex/connections/current
- B. flex/instance/connections/current
- C. tcp_ssl_proxy/new_connections
- D. tcp_ssl_proxy/open_connections

Answer: A

NEW QUESTION # 116

A third-party application needs to have a service account key to work properly When you try to export the key from your cloud project you receive an error "The organization policy constraint larn.disableServiceAccountKeyCreation is enforcedM You need to make the third-party application work while following Google-recommended security practices What should you do?

- A. Add a rule to set the iam.disableServiceAccountKeyCreation policy to off in your project and create a key.
- B. Disable the service account key creation policy at the project's folder, and download the default key
- C. Remove the iam.disableServiceAccountKeyCreation policy at the organization level, and create a key.
- D. Enable the default service account key. and download the key

Answer: A

NEW QUESTION # 117

......

We guarantee that after purchasing our Professional-Cloud-DevOps-Engineer exam torrent, we will deliver the product to you as soon as possible within ten minutes. So you don't need to wait for a long time and worry about the delivery time or any delay. We will transfer our Google Cloud Certified - Professional Cloud DevOps Engineer Exam prep torrent to you online immediately, and this service is also the reason why our Professional-Cloud-DevOps-Engineer Test Braindumps can win people's heart and mind. Therefore, you are able to get hang of the essential points in a shorter time compared to those who are not willing to use our Professional-Cloud-DevOps-Engineer exam torrent.
