## Salesforce B2B Commerce for Administrators Accredited Professional Sample Questions (Q44-Q49):

### NEW QUESTION # 44

An Administrator has received a request to enable an existing Account for the storefront and checkout. Which two steps should the Administrator take to provide access?

- A. Update the Account Record Type to "B2B Buyer Account."
- B. Update the Account Status to "Approved."
- C. Add Shipping and Billing Addresses to the Contact Point Address object.
- D. Assign the Account to the appropriate Buyer Group.

**Answer: C,D**

Explanation:

To enable an existing Account for the storefront and checkout, the Administrator should A. Assign the Account to the appropriate Buyer Group, ensuring the account is associated with the correct group for product access and pricing, and C. Add Shipping and Billing Addresses to the Contact Point Address object, which is necessary for processing orders and shipping products.

#### NEW QUESTION # 45

An Administrator wants to change the layout of search results and category detail pages. Which two options are available out-of-the-box?

- A. Chart
- B. Matrix
- C. Grid
- D. List
- E. Tree

**Answer: C,D**

Explanation:

To change the layout of search results and category detail pages in Salesforce B2B Commerce, two out-of-the-box options available are D. List and E. Grid. These layout options allow administrators to present products in a structured list or a grid format, enhancing the user experience by providing clear and organized views of products.

#### NEW QUESTION # 46

AB2B Administrator notices a change that needs to be made to a storefront before the Change Set can be finalized for deployment. From which two places can the Administrator directly access Experience Builder to make the change?

- A. Store tile
- B. Experience Cloud Configuration
- C. Digital Experiences
- D. All Sites
- E. All Communities

**Answer: C,D**

Explanation:

An Administrator can directly access Experience Builder to make changes to a storefront from A. All Sites and D. Digital Experiences. These areas within Salesforce provide entry points to the Experience Builder, where administrators can modify the design and layout of storefronts, including components and pages.

#### NEW QUESTION # 47

Which requirement must be met before an Administrator can perform a search index?

- A. All products must have a SKU assigned.
- B. At least one product must have a ProductCode assigned.
- C. At least one product must be marked Active.
- D. All products must have at least one image assigned.

**Answer: B**

Explanation:

Before performing a search index in Salesforce B2B Commerce, it is crucial that at least one product has a ProductCode assigned (D). The ProductCode is a unique identifier for products in Salesforce B2B Commerce, and it is essential for indexing and searching products within the platform. While images (A) and SKUs (B) enhance product listings and navigation, they are not prerequisites for indexing. Ensuring products are marked as Active (C) is important for them to appear in search results, but the presence of a ProductCode is fundamental to the indexing process itself.

#### NEW QUESTION # 48

An Administrator has created a new store and is verifying that a particular user who is a Buyer Manager can review the activity of other users. When logging in an error message shows up: "Looks like this portal user is not a member of an experience or your experience is down. Ask your Salesforce admin or channel manager for help." How can this be resolved?

- A. Verify this member's account is in a Buyer Group for the store.
- B. Verify Membership by Permission Set under Administration in Experience Builder.

- C. Verify Membership by Profile under Administration in Experience Builder.
- D. Adjust the Permission Set Group to include the needed Permission Set.

**Answer: C**

Explanation:

To resolve the issue where a Buyer Manager cannot review the activity of other users due to an error message, the administrator should D. Verify Membership by Profile under Administration in Experience Builder. This ensures that the user has the appropriate access and membership settings to participate in the B2B Commerce experience and perform their role effectively.
