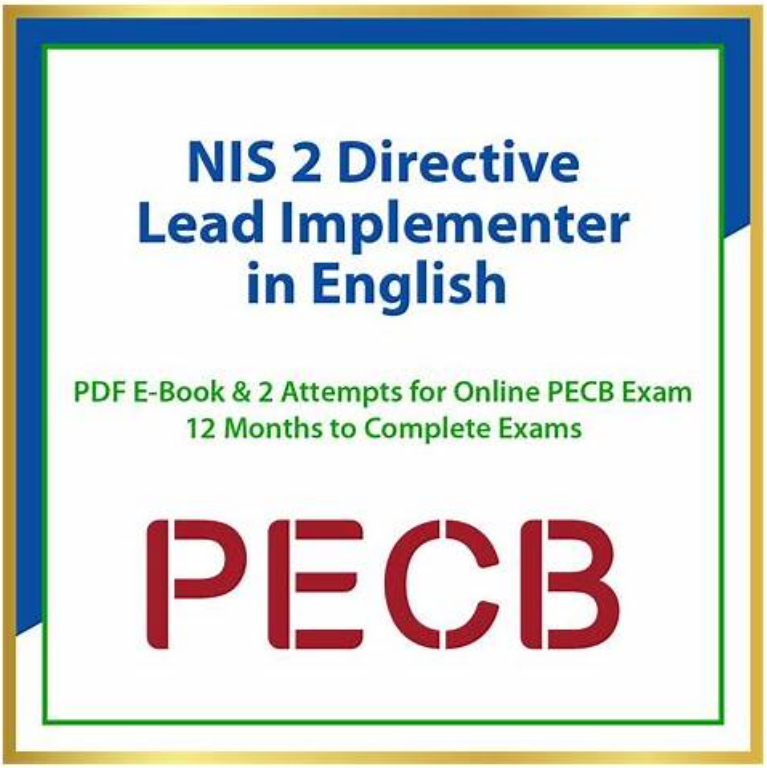
NIS-2-Directive-Lead-Implementer Latest Study Notes & Free NIS-2-Directive-Lead-Implementer Pdf Guide



What's more, part of that ExamsLabs NIS-2-Directive-Lead-Implementer dumps now are free: https://drive.google.com/open?id=1rC6MD8aY9zcgvANBsZfTGAlvsPXw8tKX

In this social-cultural environment, the NIS-2-Directive-Lead-Implementer certificates mean a lot especially for exam candidates like you. To some extent, these NIS-2-Directive-Lead-Implementer certificates may determine your future. With respect to your worries about the practice exam, we recommend our NIS-2-Directive-Lead-Implementer Preparation materials which have a strong bearing on the outcomes dramatically. For a better understanding of their features, please follow our website and try on them.

PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	• Communication and awareness: This section covers skills of Communication Officers and Training Managers in developing and executing communication strategies and awareness programs. It emphasizes fostering cybersecurity awareness across the organization and effective internal and external communication during cybersecurity events or compliance activities.
Topic 2	• Cybersecurity roles and responsibilities and risk management: This section measures the expertise of Security Leaders and Risk Managers in defining and managing cybersecurity roles and responsibilities. It also covers comprehensive risk management processes, including identifying, assessing, and mitigating cybersecurity risks in line with NIS 2 requirements.
Topic 3	• Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.

Topic 4	• Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.

Free NIS-2-Directive-Lead-Implementer Pdf Guide & NIS-2-Directive-Lead-Implementer Formal Test

PECB Certification evolves swiftly, and a practice test may become obsolete within weeks of its publication. We provide free updates for PECB Certified NIS 2 Directive Lead Implementer NIS-2-Directive-Lead-Implementer exam questions after the purchase to ensure you are studying the most recent solutions. Furthermore, ExamsLabs is a very responsible and trustworthy platform dedicated to certifying you as a specialist. We provide a free sample before purchasing PECB NIS-2-Directive-Lead-Implementer valid questions so that you may try and be happy with its varied quality features.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q47-Q52):

NEW QUESTION # 47
Scenario 4: StellarTech is a technology company that provides innovative solutions for a connected world. Its portfolio includes groundbreaking Internet of Things (IoT) devices, high-performance software applications, and state-of-the-art communication systems. In response to the ever-evolving cybersecurity landscape and the need to ensure digital resilience, StellarTech has decided to establish a cybersecurity program based on the NIS 2 Directive requirements. The company has appointed Nick, an experienced information security manager, to ensure the successful implementation of these requirements. Nick initiated the implementation process by thoroughly analyzing StellarTech's organizational structure. He observed that the company has embraced a well-defined model that enables the allocation of verticals based on specialties or operational functions and facilitates distinct role delineation and clear responsibilities.
To ensure compliance with the NIS 2 Directive requirements, Nick and his team have implemented an asset management system and established as asset management policy, set objectives, and the processes to achieve those objectives. As part of the asset management process, the company will identify, record, maintain all assets within the system's scope.
To manage risks effectively, the company has adopted a structured approach involving the definition of the scope and parameters governing risk management, risk assessments, risk treatment, risk acceptance, risk communication, awareness and consulting, and risk monitoring and review processes. This approach enables the application of cybersecurity practices based on previous and currently cybersecurity activities, including lessons learned and predictive indicators. StellarTech's organization-wide risk management program aligns with objectives monitored by senior executives, who treat it like financial risk. The budget is structured according to the risk landscape, while business units implement executive vision with a strong awareness of system-level risks. The company shares real-time information, understanding its role within the larger ecosystem and actively contributing to risk understanding. StellarTech's agile response to evolving threats and emphasis on proactive communication showcase its dedication to cybersecurity excellence and resilience.
Last month, the company conducted a comprehensive risk assessment. During this process, it identified a potential threat associated with a sophisticated form of cyber intrusion, specifically targeting IoT devices. This threat, although theoretically possible, was deemed highly unlikely to materialize due to the company's robust security measures, the absence of prior incidents, and its existing strong cybersecurity practices.
Based on scenario 4, which risk level does the identified threat during StellarTech's assessment fall into?

- A. Very low
- B. Low
- C. Moderate

Answer: A

NEW QUESTION # 48
Which of the following entities are included on the scope of the NIS 2 Directive?

- A. Entities engaged in nuclear power plant electricity production
- B. Diplomatic andconsular missions of Member States in third countries
- C. Public administration entities whose activities are predominantly carried out in national security

Answer: A

NEW QUESTION # 49
Scenario 5:Based in Altenberg, Germany, Astral Nexus Power is an innovative company founded by visionary engineers and scientists focused on pioneering technologies in the electric power sector. It focuses on the development of next-generation energy storage solutions powered by cutting-edge quantum materials. Recognizing the critical importance of securing its energy infrastructure, the company has adopted the NIS 2 Directive requirements. In addition, it continually cooperates with cybersecurity experts to fortify its digital systems, protect against cyber threats, and ensure the integrity of the power grid. By incorporating advanced security protocols, the company contributes to the overall resilience and stability of the European energy landscape.
Dedicated to ensuring compliance with NIS 2 Directive requirements, the company initiated a comprehensive journey toward transformation, beginning with an in-depth comprehension of its structure and context, which paved the way for the clear designation of roles and responsibilities related to security, among others. The company has appointed a Chief Information Security Officer (CISO) who is responsible to set the strategic direction for cybersecurity and ensure the protection of information assets. The CISO reports directly to the Chief Executive Officer (CEO) of Astral Nexus Power which helps in making more informed decisions concerning risks, resources, and investments. To effectively carry the roles and responsibilities related to information security, the company established a cybersecurity team which includes the company's employees and an external cybersecurity consultant to guide them.
Astral Nexus Power is also focused on managing assets effectively. It consistently identifies and categorizes all of its digital assets, develops an inventory of all assets, and assesses the risks associated with each asset. Moreover, it monitors and maintains the assets and has a process for continual improvement in place. The company has also assigned its computer security incident response team (CSIRT) with the responsibility to monitor its on and off premises internet-facing assets, which help in managing organizational risks. Furthermore, the company initiates a thorough process of risk identification, analysis, evaluation, and treatment. By identifying operational scenarios, which are then detailed in terms of assets, threats, and vulnerabilities, the company ensures a comprehensive identification and understanding of potential risks. This understanding informs the selection and development of risk treatment strategies, which are then communicated and consulted upon with stakeholders. Astral Nexus Power's commitment is further underscored by a meticulous recording and reporting of these measures, fostering transparency and accountability.
Has Astral Nexus Power followed all the necessary steps to manage assets in cyberspace in accordance with best practices? Refer to scenario 5.

- A. No. the company should also implement appropriate security controls after assessing the risks associated with each asset
- B. No, the company must also involve external third parties to review and validate its asset management processes
- C. Yes, the company has followed all the steps required to manage assets in cyberspace in accordance with best practices

Answer: A

NEW QUESTION # 50
What should a cybersecurity policy specify with regard to the handling of sensitive information?

- A. Guidelines explaining how to permanently delete all sensitive data
- B. Guidelines on sharing permissions and data masking techniques during threats
- C. Guidance on sharing sensitive information on social media platforms

Answer: B

NEW QUESTION # 51
According to Article 7 of the NIS 2 Directive, what is one of the policies that Member States are required to adopt?

- A. Physical access control policy
- B. Supply chain cybersecurity policy
- C. Disaster recovery planning policy

Answer: B

NEW QUESTION # 52
