## 350-501 Valid Test Objectives, New 350-501 Dumps Ebook

We aim to provide the best service on 350-501 exam questions for our customers, and we demand of ourselves and our after sale service staffs to the highest ethical standard, though our 350-501 study guide and compiling processes have been of the highest quality. We are deeply committed to meeting the needs of our customers, and we constantly focus on customer's satisfaction. We play an active role in making every customer in which we selling our 350-501 practice dumps a better place to live and work.

Cisco 350-501 Exam is designed to test the knowledge and skills of IT professionals who are involved in implementing and operating Cisco Service Provider Network Core Technologies. 350-501 exam focuses on the practical aspects of networking and requires candidates to demonstrate their ability to configure, troubleshoot, and manage complex network infrastructures. It covers a wide range of topics, including network architecture, routing protocols, MPLS, and VPN technologies.

## Exam Preparation

If you want to pass the Cisco 350-501 exam at the first attempt, it is essential to have a thorough preparation process. For this purpose, Cisco offers to take the Implementing and Operating Cisco Service Provider Network Core Technologies v1.0 course. This training option will give you all the information related to the configuration, verification, troubleshooting, and optimization of the

Service Provider IP network infrastructures. Also, the applicants will have the required knowledge of the Service Provider technologies, including core architecture, networking, services, automation, quality of services, network assurance, and security. The candidates can take the SPCOR course in different ways of delivery. The instructor-led training will give them the equivalent of 3 days of self-study material and 5 days of hands-on lab practice. As for the e-learning option, they will have videos and questions that equivalent to 8 days of education.

## Cisco Implementing and Operating Cisco Service Provider Network Core Technologies Sample Questions (Q492-Q497):

### NEW QUESTION # 492

Refer to the exhibit.

What is the effect of this configuration?

- A. R1 supports a peer that is configured for LDP SSO/NSF as the peer recovers from an outage.
- **B. R1 failovers only to a peer that is configured for LDP SSO/NSF.**
- C. R1 failovers to any peer.
- D. R1 supports a graceful restart operation on the peer, even if graceful restart is disabled on the peer.

**Answer: B**

### NEW QUESTION # 493

Refer to the exhibit.

The customer that owns the CE-1, CE-2, and CE-3 routers purchased point-to-point E-Line services from the Carrier Ethernet provider. The service provider is delivering multiplexed UNI at the customer HQ location on PE-1 and untagged UNIs at the PE-2 and PE-3 locations. Additionally, the customer provided these VLAN to EVC mapping requirements:

\* EVC 1 between CE-1 and CE-2 must be provisioned with C-VLAN 12 at the HQ location.

\* EVC 2 between CE-1 and CE-3 must be provisioned with C-VLAN 13 at the HQ location.

Which configuration must the network engineer implement on the PE routers to provide end-to-end Carrier Ethernet service to the customer?

- A. ☐
- **B. ☐**
- C. ☐
- D. ☐

**Answer: B**

### NEW QUESTION # 494

Refer to the exhibit:

Export statistics received do not include the BGP next hop.

Which statement about the NetFlow export statistics is true?

- A. Only the origin AS of the source router will be included in the export statistics.
- B. To include the BGP next hop in the export statistics, those keywords must be included with the version 9 entry.
- C. Loopback 0 must be participating in BGP for it to be included in the export statistics
- **D. The origin AS and the peer-as will be included in the export statistics**

**Answer: D**

### NEW QUESTION # 495

What are the two uses of the YANG data modeling language? (Choose two.)

- A. It is used to replace the OSI model for troubleshooting.
- **B. It is used to model the configuration used by NETCONF operations.**
- C. It is used to replace RESTCONF as a mechanism to install and manipulate configuration.

- D. It is used to shape state data of network elements.
- E. It is used to access a device by HTTP.

**Answer: B,D**

Explanation:

YANG (Yet Another Next Generation) is a data modeling language used primarily for the configuration and state data of network elements. It is closely associated with the NETCONF (Network Configuration Protocol) for which it models configuration data. YANG provides schemas that define how data is structured and transported by NETCONF operations. It also shapes the state data of network elements, allowing for a standardized format for representing the operational state of devices. References: YANG is defined in RFCs such as RFC 6020 and RFC 7950, which outline its role in NETCONF operations and its capabilities in modeling both configuration and state data.

#### NEW QUESTION # 496

Refer the exhibit.

Users on a network connected to router R3 report slow speeds when they connect to the server connected to R2. After analyzing traffic on the network, a network engineer identified congestion on the link between R2 and R3 as the cause. Which QoS service must the engineer implement to drop traffic on the link when it exceeds a configured threshold?

- A. traffic policing
- B. class-based weighted fair queueing
- C. first-in, first-out
- D. traffic shaping

**Answer: A**

Explanation:

<https://www.cisco.com/c/en/us/support/docs/quality-of-service-qos/qos-policing/19645-policevsshape.html>

#### NEW QUESTION # 497

.....

Time is life, time is speed, and time is power. You have to spend less time reaching your goals before you can walk ahead and seize more opportunities. Now, if you use our 350-501 preparation materials, you only need to learn twenty to thirty hours to go to the exam. And this data is provided and tested by our worthy customers. For they have passed the exam with the help of our 350-501 Exam Questions in such a short time and as 98% to 100% of them passed. The pass rate is also unmatched in the market!
