## C\_S4CPR\_2502최고품질 덤프데모, C\_S4CPR\_2502시험대비 덤프데모

IT인증자격증은 어느때보다 강렬한 경쟁을 보이고 있습니다. SAP 인증C\_S4CPR\_2502시험을 통과하시면 취직 혹은 승진이나 연봉협상에 많은 도움이 되어드릴수 있습니다. SAP 인증C\_S4CPR\_2502시험이 어려워서 통과할 자신이 없나요? KoreaDumps덤프만 있으면 이런 고민은 이제 그만 하지않으셔도 됩니다. KoreaDumps에서 출시한 SAP 인증C\_S4CPR\_2502덤프는 시장에서 가장 최신버전입니다.

## 최신 SAP Certified Associate C\_S4CPR\_2502 무료샘플문제 (Q56-Q61):

### 질문 # 56

What is a Purchasing Info Record?

- A. A master data record that contains information specific to a material and the contract.
- **B. A master data record that contains information specific to a material and the supplier.**
- C. A master data record that contains information specific to a material and the purchase order.
- D. A master data record that contains information specific to a material and the customer.

정답: B

### 설명:

A Purchasing Info Record (PIR) is a master data object in SAP S/4HANA that stores procurement-related information for a specific material and supplier combination. Below is an explanation of the correct answer:

\* A master data record that contains information specific to a material and the supplier (B):The PIR includes details such as pricing conditions, order quantities, and delivery schedules for a specific material supplied by a specific vendor. It serves as a reference point for procurement transactions like purchase orders.

\* A master data record that contains information specific to a material and the purchase order (A):

Purchase orders are transactional documents, not master data. The PIR provides the basis for creating purchase orders but is not tied to individual orders.

\* A master data record that contains information specific to a material and the customer (C):

Customer-related information is managed in sales and distribution processes, not in purchasing info records.

\* A master data record that contains information specific to a material and the contract (D):

Contracts are separate procurement documents, and while they may reference PIRs, the PIR itself is not tied to a specific contract.

SAP S/4HANA Cloud Public Edition Documentation:Procurement Master Data

### 질문 # 57

What does the task list in My Outbox show?

- A. Your completed and suspended tasks.
- B. Your tasks that are to be sent to your manager.
- **C. Your tasks that are not completed yet.**
- D. Your tasks that the deadline were passed.

정답: C

**설명:**

The My Outbox task list in SAP S/4HANA Cloud Public Edition displays tasks assigned to the user that are still pending or incomplete. This feature helps users track their open tasks and ensures timely completion of activities within the system.

\* Your tasks that are not completed yet (Option C): The My Outbox functionality is designed to show tasks that require action from the user but have not yet been completed. This includes tasks such as approvals, reviews, or other workflow-related activities.

The SAP Fiori User Experience Guide confirms this behavior.

\* A. Your completed and suspended tasks: Completed and suspended tasks are typically found in the

"Completed Tasks" or "History" sections, not in the My Outbox task list.

\* B. Your tasks that the deadline was passed: Overdue tasks may appear in the My Outbox list, but they are still considered incomplete tasks. The primary focus of My Outbox is to display tasks that are pending, regardless of whether they are overdue.

\* D. Your tasks that are to be sent to your manager: Tasks that need to be escalated or forwarded to a manager are part of the workflow process but are not specifically displayed in the My Outbox task list.

\* SAP Fiori User Experience Guide: Explains the functionality of the My Outbox task list and how it displays pending tasks. <https://help.sap.com>

\* SAP S/4HANA Cloud Workflow Guide: Provides details on how tasks are managed and displayed in the system.

Why Option C is Correct: Why the Other Options Are Incorrect: Key References:

**질문 # 58**

From which document can you create an RFQ?

- A. Scheduling Agreement
- B. Purchase Contract
- C. Purchase Requisition
- D. Purchase Order

**정답: C**

**설명:**

In SAP S/4HANA Cloud Public Edition, a Request for Quotation (RFQ) can be created from a Purchase Requisition, which serves as the source document for procurement needs. Below is an explanation of the correct answer:

\* Purchase Requisition (B): A purchase requisition is an internal request for goods or services. From this document, an RFQ can be generated to solicit bids from suppliers.

\* Scheduling Agreement (A): A scheduling agreement is a long-term procurement agreement with predefined delivery schedules and cannot be used to create an RFQ.

\* Purchase Contract (C): A purchase contract is a formal agreement with a supplier and is not used to generate RFQs.

\* Purchase Order (D): A purchase order is a legally binding document issued to a supplier after the RFQ process, so it cannot be used to create an RFQ.

**질문 # 59**

Through which component do you access your assigned process tasks from the SAP Activate Roadmap of SAP S/4HANA Cloud Public Edition (3-system landscape)?

- A. SAP Cloud ALM for Implementation
- B. SAP Cloud ALM for Service
- C. SAP Cloud ALM for Operations
- D. SAP Central Business Configuration

**정답: A**

**질문 # 60**

What are some characteristics of public cloud? Note: There are 2 correct answers to this question.

- A. Multi-tenant server
- B. Perpetual license
- C. Software installation on customer site
