The source of our confidence is our wonderful PC-BA-FBA-20 exam questions. Passing the exam won't be a problem as long as you keep practice with our PC-BA-FBA-20 Study Materials about 20 to 30 hours. Considered many of the candidates are too busy to review, our experts designed the PC-BA-FBA-20 question dumps in accord with actual examination questions, which would help you pass the exam with high proficiency.

BCS Foundation Certificate in Business Analysis V4.0 Sample Questions (Q49-Q54):

NEW QUESTION # 49

Which of the following lists only includes stakeholders shown on the stakeholder wheel?

- A. Competitors, Consumers, Providers.
- B. Contractors, Partners, Suppliers.
- C. Regulators, Compliance, Owners.
- **D. Competitors, Customers, Partners**

Answer: D

Explanation:

The stakeholder wheel is a framework used to categorize stakeholders based on their relationship to the organization or project. It typically includes categories such as customers, partners, suppliers, regulators, and competitors, among others.

Key Considerations:

Regulators, Compliance, Owners: While regulators and owners are valid stakeholders, "compliance" is not a stakeholder category but rather a function or responsibility.

Competitors, Customers, Partners: These are all valid stakeholder categories commonly found on the stakeholder wheel.

Competitors, Consumers, Providers: While competitors and consumers (a synonym for customers) are valid, "providers" is not a standard term used in the stakeholder wheel.

Contractors, Partners, Suppliers: Contractors are not typically included as a primary stakeholder category on the stakeholder wheel, though partners and suppliers are.

Evaluation of Each Option:

A. Regulators, Compliance, Owners:

"Compliance" is not a stakeholder category; it refers to adherence to rules or regulations.

Conclusion: This is not correct.

B. Competitors, Customers, Partners:

These are all valid stakeholder categories found on the stakeholder wheel.

Conclusion: This is correct.

C. Competitors, Consumers, Providers:

While competitors and consumers (customers) are valid, "providers" is not a standard stakeholder category.

Conclusion: This is not correct.

D. Contractors, Partners, Suppliers:

Contractors are not typically included as a primary stakeholder category on the stakeholder wheel.

Conclusion: This is not correct.

Final Recommendation:

The list that only includes stakeholders shown on the stakeholder wheel is:

B. Competitors, Customers, Partners

NEW QUESTION # 50

Which elements are included in a CARDI log?

- A. Constraints, Assumptions, Risks, Dependencies, Issues.
- B. Constraints, Actions, Risks, Dependencies, Issues.
- C. Constraints, Assumptions, Risks, Dependencies, Identification.
- **D. Costs, Assumptions, Risks, Dependencies, Issues.**

Answer: D

NEW QUESTION # 51

What is shown by the actor-task level of the business process hierarchy?

- A. The actors involved in the business process.
- **B. The work conducted within each individual task.**
- C. The event triggering the business process.
- D. The work carried out to complete the business process at an overview level.

Answer: B

Explanation:

The actor-task level is the lowest and most detailed level of the business process hierarchy. Its purpose is to show the sequence of actions and decisions taken by specific actors to complete a process. It effectively illustrates the work conducted within each individual task (often referred to as the procedure or work instruction). This level details how the work is performed.

Option A describes the Event-Response level (mid-level).

Option C is only part of the description-the actor is crucial, but the level shows the tasks they perform.

Option D describes the trigger for the Event-Response level.

NEW QUESTION # 52

Which of the following would BEST be managed with the keep satisfied" stakeholder management strategy?"

- A. Those with some power/influence and high interest in the project.
- **B. Those with high power/influence and some interest in the project.**
- C. Those with some power/influence and some interest in the project.
- D. Those with high power/influence and no interest in the project.

Answer: B

NEW QUESTION # 53

Which of the following is a goal of all workshops?

- A. Reviewing the business case.
- B. Brainstorming ideas.
- C. Creating mind maps and process models.
- **D. Collaboration.**

Answer: D

Explanation:

Workshops are structured meetings designed to achieve specific objectives through group participation. Regardless of the workshop's focus, collaboration is a fundamental goal.

Key Considerations:

Collaboration: Workshops bring stakeholders together to share ideas, solve problems, and make decisions collaboratively.

Reviewing the Business Case: While reviewing the business case may be a specific objective of some workshops, it is not a universal goal.

Creating Mind Maps and Process Models: These are tools or outputs of workshops, not overarching goals.

Brainstorming Ideas: Brainstorming is a technique used in workshops but is not the ultimate goal of all workshops.

Evaluation of Each Option:

A . Collaboration:

Collaboration is the core purpose of workshops, enabling participants to work together effectively.

Conclusion: This is correct .

B . Reviewing the business case:

This is a specific objective, not a universal goal of all workshops.

Conclusion: This is not correct .

C . Creating mind maps and process models:

These are tools or outputs, not goals.

Conclusion: This is not correct .

D . Brainstorming ideas:

Brainstorming is a technique, not the overarching goal of all workshops.

Conclusion: This is not correct .

Final Recommendation:

The goal of all workshops is:

A . Collaboration.

NEW QUESTION # 54
