Many applicants do not fulfill their dream of becoming professionals because of using outdated exam preparation material. Failure in the Logistics Management exam leads them to anxiety. If this situation sounds familiar, do not waste time and get your hands on CIPS L5M10 for exam preparation.

CIPS L5M10 Exam Overview:

Certification Vendor:	CIPS
Exam Name:	Managing Logistics and Supply Chains (L5M10)
Exam Number:	L5M10
Exam Duration:	120 minutes
Available Languages:	English
Exam Price:	Varies (~GBP 70–120 per module, depending on region and provider)
Passing Score:	50%
Exam Format:	Multiple Choice Questions, Computer-Based Exam
Certificate Validity Period:	Qualification does not expire; subject to ongoing CIPS CPD requirements
Related Certifications:	CIPS Level 4 Diploma in Procurement and Supply CIPS Level 5 Advanced Diploma in Procurement and Supply CIPS Level 6 Professional Diploma in Procurement and Supply
Real Exam Qty:	60 (typically)
Recommended Training:	CIPS Level 5 Study Resources CIPS Official Learning
Exam Registration:	CIPS Exam Booking Portal CIPS Qualifications Overview
Sample Questions:	CIPS L5M10 Sample Questions
Exam Way:	Computer-based exam delivered via test centres or remote invigilation where available
Pre Condition:	CIPS Level 4 Diploma in Procurement and Supply or equivalent professional experience is recommended
Official Syllabus URL:	https://www.cips.org/qualifications/

Reliable L5M10 Exam Question | L5M10 Certification

We try our best to provide the most efficient and intuitive learning methods to the learners and help them learn efficiently. Our L5M10 exam reference provides the instances to the clients so as to they can understand them intuitively. Based on the consideration that there are the instances to our L5M10 test guide to concretely demonstrate the knowledge points. Through the stimulation of the Real L5M10 Exam the clients can have an understanding of the mastery degrees of our L5M10 exam practice question in practice. Thus our clients can understand the abstract concepts in an intuitive way.

CIPS L5M10 Exam Syllabus Topics:

Topic	Details
Topic 1	Analyse the Role and Activities of Logistics Management: This section of the exam measures the skills of Logistics Managers and covers the essential concepts, functions, and strategic importance of logistics within modern supply chains. It explains what logistics is, how its key elements work together—such as transportation, warehousing, inventory, packaging, information flow, and security—and how these components support procurement, production, distribution, after-sales processes, and product disposal. The section explores how logistics integrates with broader supply chain management and introduces the idea of total logistics and total cost thinking, showing how multimodal transport and pipeline inventory contribute to efficiency. Candidates must understand how logistics creates competitive advantage by aligning operations with business strategy, managing customer service levels, measuring service quality, and recognizing its financial impact. This heading also evaluates the increasing role of technology in logistics, including barcoding, RFID, e-fulfilment systems, warehouse management systems, automated data capture, and the integration of digital tools across the logistics network.
Topic 2	Understand Capacity Planning and Control in Logistics Management: This section of the exam measures the skills of Operations Planners and focuses on the techniques and systems used to manage capacity, demand, and resource planning across logistics activities. It explains how organizations balance planning with real-time control, adjust to fluctuating demand, and schedule workloads effectively. Candidates are expected to understand capacity concepts, constraints, demand forecasting, capacity measurement, and different planning approaches such as level planning, chase demand strategies, and demand management methods. The section also examines the use of technology in capacity planning, particularly Materials Requirements Planning (MRP), MRP II, ERP systems, master production scheduling, inventory data, and bills of materials, while recognizing the limitations of these tools. Finally, it covers the role of reverse logistics, emphasizing the handling of customer returns, the development of return policies, and how returned items are reintegrated into the supply chain.

CIPS Logistics Management Sample Questions (Q10-Q15):

NEW QUESTION # 10

There are five aspects to Total Supply Chain Management Costs. Which of the following is not one of them?

- A. Supply chain related finance and planning costs
- **B. Overhead costs**
- C. Material acquisition costs
- D. Order management costs
- E. Inventory carrying costs

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Total Supply Chain Cost (TSCC) covers five areas:

- * Order management,
- * Material acquisition,
- * Inventory carrying,

* Supply chain IT systems,

* Supply chain finance and planning costs. Overheads (e.g., admin, utilities) are general business expenses, not TSCC elements.

(Reference: CIPS L5M10 Study Guide, Supply chain cost components, p.

48)

NEW QUESTION # 11

Green Frog Ltd is a consultancy with ~50 customers. The CEO plans to use a Cost-to-Serve (CTS) tool to understand customer profitability. Is this the right approach?

- A. No - all customers are equally profitable if they pay the same rates
- B. Yes - it is expensive but provides high visibility
- C. No - use Total Cost of Ownership (TCO) instead
- **D. Yes - Cost to Serve will allow identification of unprofitable customers**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Cost-to-Serve analyses end-to-end activities and resources consumed to serve specific customers or segments, exposing variation in profitability (e.g., delivery distance, visit frequency, handling complexity). It is appropriate for finding unprofitable customers. CTS is not inherently "expensive," and TCO focuses on lifecycle cost of acquiring/owning goods-not customer profitability. (Reference: CIPS L5M10 Study Guide, Cost-to-Serve concept and uses, p. 61)

NEW QUESTION # 12

When using a Total Cost of Ownership (TCO) model to determine the true cost of holding inventory, which of the following costs would not be included in the calculation?

- A. Insurance
- B. Pilferage
- **C. Warehouse staff uniforms**
- D. Obsolescence

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

TCO for inventory focuses on all direct and indirect costs incurred in holding stock - such as pilferage (theft), obsolescence (unsellable items), and insurance (risk protection for loss/damage). Staff uniforms, however, are general overheads unrelated to inventory holding cost. (Reference: CIPS L5M10 Study Guide, "Costs of holding inventory," p. 27)

NEW QUESTION # 13

Which pieces of information would you require to calculate aBOM exposure? Select TWO

- A. Price of the materials
- **B. Materials required to complete an order**
- C. Lead-time of the materials
- **D. Current inventory levels**

Answer: B,D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

ABOM exposure determines net requirements by expanding the Bill of Materials for an order and offsetting it against current inventory/receipts to find what must be procured or made. Prices and lead times are relevant for scheduling/costing, not for the netting calculation itself. (CIPS L5M10 Study Guide, p. 182)

NEW QUESTION # 14

What is the name of the emerging tool that can help companies improve supply chain visibility across macro- environmental factors such as political, environmental, and social changes?

- A. SCEM
- B. LEAN
- C. STEEPLE
- D. Six Sigma

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Supply Chain Event Management (SCEM) systems monitor and compare planned versus actual supply chain events. They issue alerts when disruptions or macro-environmental changes (e.g., political instability or weather) cause deviations from plan, enabling rapid corrective actions. (Reference: CIPS L5M10 Study Guide, SCEM section, p. 40)
