Part 107 Test Cram Sheet

This document is intended for personal use only and may not be shared, distributed, or reproduced in any form. Unauthorized dissemination is prohibited.

Drone Rules and FAA Regulations

- Must be at least 16 years old to get a Remote Pilot Certificate.
- Must report an accident to the FAA within 10 calendar days of any operation that results in serious injury or property damage over \$500.
- Must successfully complete an online recurrent training course (ALC-677) every 24 calendar months to maintain certification currency.
- A "small" unmanned aircraft weighs less than 55 pounds.
- Part 107 applies to civil / commercial operations, NOT public aircraft operated under a COA, model aircraft or hobby operations.
- You have 30 days to notify the FAA of your change of address.
- The Remote PIC is directly responsible for and is the final authority on the operation of the sUAS conducted under Part 107.
- Non-certificated operators can fly an sUAS, but only if they're being directly supervised by a certificated Remote PIC who has the ability to immediately take direct control of the sUAS. One way to do this is via a "buddy box" training system with one cord that connects two different control stations / remote controls / transmitters.
- Even though Visual Observers and other crew members aren't required to be certificated, they still can't participate in the operation if they're not in a physical or mental state to do so. This includes being too
