## **New ITFAS-Level-1 Dumps Book | ITFAS-Level-1 Reliable Dumps Book**

Preparing for the ITFAS-Level-1 real exam is easier if you can select the right test questions and be sure of the answers. The ITFAS-Level-1 test answers are tested and approved by our certified experts and you can check the accuracy of our questions from our free demo. Expert for one-year free updating of ITFAS-Level-1 Dumps PDF, we promise you full refund if you failed

exam with our dumps.

## NICET Inspection and Testing of Fire Alarm Systems Level I Exam Sample Questions (Q40-Q45):

### NEW QUESTION # 40

When is the elevator recall permitted to send a supervisory signal in lieu of an alarm signal?

- A. Where approved by the system designer
- B. Where approved by the building owner
- C. Where approved by the insurance company
- **D. Where approved by the authority having jurisdiction**

**Answer: D**

Explanation:

Elevator recall typically generates an alarm signal, but under specific circumstances, the AHJ may approve the use of a supervisory signal instead.

NFPA 72 (2022), Section 21.3.3.3 (Exception):

"Where permitted by the AHJ, activation of elevator recall initiating devices shall be permitted to result in a supervisory signal." This allows flexibility with AHJ approval, not at the discretion of designers or owners.

Correct answer: A. Where approved by the authority having jurisdiction

### NEW QUESTION # 41

How often are manual fire alarm boxes inspected?

- A. Quarterly
- B. Annually
- **C. Monthly**
- D. Semiannually

**Answer: C**

Explanation:

Manual fire alarm boxes (pull stations) must be visually inspected monthly to ensure accessibility, visibility, and no physical damage.

NFPA 72 (2022), Table 14.3.1 - Inspection Frequencies:

"Manual fire alarm boxes" - Monthly

The inspection verifies the handle is not blocked and the device is clearly labeled.

Correct answer: A. Monthly

### NEW QUESTION # 42

What is the maximum travel distance between two fire alarm boxes measured horizontally on the same floor?

- **A. 200 feet (61 meters)**
- B. 60 feet (18.3 meters)
- C. 90 feet (27 meters)
- D. 30 feet (9.1 meters)

**Answer: A**

Explanation:

NFPA 72 sets a maximum horizontal travel distance between manual pull stations (manual fire alarm boxes) to ensure accessibility in large spaces.

NFPA 72 (2022), Section 17.14.6.4:

"The maximum travel distance to a manual fire alarm box shall not exceed 200 ft (61 m)." This is for accessibility so occupants can reach a pull station quickly in an emergency.

Correct answer: D. 200 feet (61 meters)

### NEW QUESTION # 43

Which two of the following activities are done while visually inspecting batteries? (Choose two.)

- A. Check for corrosion or leakage.
- B. Check tightness of connections.
- C. Check for proper battery voltage.
- D. Check for proper charge voltage.

**Answer: A,B**

Explanation:

During a visual battery inspection, the technician checks for corrosion, leakage, swelling, and loose or corroded terminals- not electrical readings (those are part of functional testing).

NFPA 72 (2022), Table 14.3.1 - Inspection Frequencies:

"Batteries (lead-acid and nickel-cadmium)" # Visual inspection items include:

- \* Cleanliness
- \* Terminal tightness
- \* Corrosion or leakage
- \* Physical damage

Voltage and charging checks are part of testing, not visual inspection.

Correct answers:

- \* Check for corrosion or leakage
- \* Check tightness of connections

### NEW QUESTION # 44

What is the testing frequency of a remote annunciator?

- A. Monthly
- B. Quarterly
- C. Annually
- D. Semiannually

**Answer: C**

Explanation:

Remote annunciators provide fire alarm system status at secondary locations. NFPA 72 mandates annual functional testing of these devices to ensure they correctly display and sound appropriate signals.

NFPA 72 (2022), Table 14.4.3.2 - Testing Methods and Frequencies:

Category: Annunciators (remote)

Frequency: Annually

Test Method: "Verify correct visual/audible indication of alarm, supervisory, and trouble signals." Technicians must activate actual alarm, supervisory, and trouble signals and confirm they display correctly at the remote annunciator.

Correct answer: D. Annually

### NEW QUESTION # 45

.....

Many people may worry that the ITFAS-Level-1 guide torrent is not enough for them to practice and the update is slowly. We guarantee you that our experts check whether the ITFAS-Level-1 study materials is updated or not every day and if there is the update the system will send the update to the client automatically. So you have no the necessity to worry that you don't have latest ITFAS-Level-1 Exam Torrent to practice. We provide the best service to you and hope you are satisfied with our product and our service.
