## Excellent AD0-E137 Exam Questions make up perfect Study Brain Dumps - DumpsTorrent

They all got benefits from AD0-E137 certification and now they are AD0-E137 certification holders. You can also become part of this skilled and qualified community. To do this you just need to pass the Adobe AD0-E137 certification exam. Are you ready for this? Do you want to become a Adobe Experience Manager Sites Developer Expert certified? If your answer is positive then we

assure you that you are at the right place. Register yourself for Adobe Experience Manager Sites Developer Expert (AD0-E137) certification exam and download the DumpsTorrent AD0-E137 exam practice questions and start preparation right now.

## Adobe AD0-E137 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>• Environment Maintenance: This section of the exam measures the skills of Implementation Specialists and covers managing AEM environment configurations, release management, synchronizing content and configurations across environments via package manager, and applying maintenance tools to support environments.</li></ul>                                                               |
| Topic 2 | <ul style="list-style-type: none"><li>• Configurations: This section of the exam measures skills of AEM Developers and covers how to select and configure dispatcher rules based on scenario, set up multi-tenant environments, integrate SAML and LDAP for authentication, configure replication agents, and manage editable templates or content fragment models.</li></ul>                                                         |
| Topic 3 | <ul style="list-style-type: none"><li>• Build and Deployment: This section of the exam measures the skills of AEM Developers and covers front-end and back-end dependency management, creating a project via Maven archetype, crafting custom run modes, configuring workflows, and creating and managing custom Oak indexes.</li></ul>                                                                                               |
| Topic 4 | <ul style="list-style-type: none"><li>• AEM Development: This section of the exam measures the skills of Technical Consultants and covers implementing a single-page application (SPA) structure, building components using HTL, sling models, and services, writing unit tests and mapping mock data, integrating third-party APIs, developing OSGi services or servlets, and choosing appropriate JCR queries in context.</li></ul> |

## Adobe Experience Manager Sites Developer Expert Sample Questions (Q34-Q39):

### NEW QUESTION # 34

What is the role of the "Retry Delay" setting in an AEM replication agent's configuration?

- A. It specifies how long to wait before marking a replication job as failed.
- **B. It defines how often replication failures will be retried.**
- C. It manages the interval at which the replication queue is processed.
- D. It controls the delay between each replication trigger.

**Answer: B**

### NEW QUESTION # 35

A developer decides to use a text pre-extraction for re/indexing Lucene indexes. When is this recommended?

- A. When dealing with binary-heavy repositories with a small volume of files
- **B. When reindexing an existing Lucene index with binary extraction enabled**
- C. When the repository contains a large volume of images

**Answer: B**

### NEW QUESTION # 36

A developer is tasked with designing a solution to accommodate multiple client projects within a single Adobe Experience Manager (AEM) instance, each requiring its own set of unique resources, code, and content.

Given the need for true multi-tenancy, where each tenant operates independently with zero knowledge of other tenants and no shared code, content, or common authors, which approach should the developer recommend?

- **A. Implement separate author and publish instances for each tenant, ensuring complete isolation of resources, code, and**

content, thereby achieving true multi-tenancy.

- B. Utilize AEM's out-of-the-box multi-tenancy capabilities to segregate tenants within the same author and publish instances, relying on access control lists (ACLs) and content path organization to ensure separation.
- C. Encourage the use of component groups and allowedPaths properties to logically separate tenant-specific components and templates within the same AEM instance.

**Answer: A**

#### NEW QUESTION # 37

While configuring SSO with SAML 2.0 compatible IDP on AEM, a developer notices an infinite loop between the IDP and AEM when trying to log in to AEM using SSO.

Which dispatcher-specific configuration is required to prevent this scenario?

- A. Config File: filters.any  
Config: /0100 {/type "allow" /method "POST" /url "\*/saml\_login"}
- B. Config File: allowed\_clients.any  
Config: /0100 {/type "allow" /method "PUT" /url "\*/samllogin"}
- C. Config File: vhosts.any  
Config: /0100 {/type "allow" /method "POST" /url "\*/samllogin"}

**Answer: A**

#### NEW QUESTION # 38

A website hosted on AEM as a Cloud Service features site page content search as part of their user experience. The search internally uses JCR Queries for content search based on tags. The content has been indexed adequately.

Which approach is recommended to make the index available across all the environments?

- A. Create fully custom index and deploy with Maven configurations and CI/CD Pipelines
- B. Customize out-of-the-box index and deploy with Maven configurations and CI/CD Pipelines
- C. Create Index Package from Package Manager and replicate over other environments

**Answer: B**

#### NEW QUESTION # 39

.....

In recent years, the market has been plagued by the proliferation of learning products on qualifying examinations, so it is extremely difficult to find and select our AD0-E137 study materials in many similar products. However, we believe that with the excellent quality and good reputation of our study materials, we will be able to let users select us in many products. Our study materials allow users to use the AD0-E137 research material for free to help users better understand our products better. Even if you find that part of it is not for you, you can still choose other types of learning materials in our study materials.
