## Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q29-Q34):

### NEW QUESTION # 29

Your company works regularly with a partner. Your employees regularly send emails to your partner's employees. You want to ensure that the Partner contact information available to your employees will allow them to easily select Partner names and reduce sending errors.

What should you do?

- A. Educate users on creating personal contacts for the Partner Employees.
- **B. Create shared contacts in the Directory using the Domain Shared Contacts API.**
- C. Add a secondary domain for the Partner Company and create user entries for each Partner user.
- D. Create shared contacts in the Directory using the Directory API.

**Answer: B**

Explanation:

### NEW QUESTION # 30

Your organization wants more visibility into actions taken by Google staff related to your data for audit and security reasons. They are specifically interested in understanding the actions performed by Google support staff with regard to the support cases you have opened with Google. What should you do to gain more visibility?

- A. From Google Admin Panel, go to Audit, and select Login Audit Log.
- B. From Google Admin Panel, go to Audit, and select Rules Audit Log.
- C. From Google Admin Panel, go to Audit, and select Admin Audit Log.
- **D. From Google Admin Panel, go to Audit, and select Access Transparency Logs.**

**Answer: D**

Explanation:

Google staff logs related to accessing user content are stored in Access Transparency logs.

### NEW QUESTION # 31

As the Workspace Administrator, you have been asked to enable the help desk team to share incoming support requests from end users. The help desk team has ten users who need to respond to support requests that are sent to a help desk email address. The users must be able to respond by email and assign ownership of tickets. Finally, the help desk team is highly mobile and will need to manage help desk tickets from their mobile devices. How would you provide this functionality for the help desk team?

- A. Create a help desk Workspace mail account, and set the help desk team as mail delegates to the help desk account.
- B. Create the help desk group as a Q&A Group, and add the "Manager" role to the help desk team users.
- **C. Configure a Google Group as a collaborative inbox, and assign the required Groups permissions to the help desk team members.**
- D. In Google Drive, create a help desk request form, and give the help desk team the ability to view the inbound requests.

**Answer: C**

### NEW QUESTION # 32

The credentials of several individuals within your organization have recently been stolen. Using the Google Workspace login logs, you have determined that in several cases, the stolen credentials have been used in countries other than the ones your organization works in. What else can you do to increase your organization's defense-in-depth strategy?

- A. Implement an IP block on the malicious user's IPs under Security Settings in the Admin Console.
- **B. Use Context-Aware Access to deny access to Google services from geo locations other than the ones your organization operates in.**
- C. Use Mobile device management geo-fencing to prevent malicious actors from using these stolen credentials.
- D. Enforce higher complexity passwords by rolling it out to the affected users.

**Answer: B**

### NEW QUESTION # 33

Your organization has enabled spoofing protection against unauthenticated domains. You are receiving complaints that email from multiple partners is not being received. While investigating this issue, you find that emails are all being sent to quarantine due to the configured safety setting. What should be the next step to allow users to review these emails and reduce the internal complaints while keeping your environment secure?

- A. Add your partner domains IPs to the Inbound Gateway setting.
- B. Change the spoofing protection to deliver the emails to spam instead of quarantining them.
- C. Add your partner sending IP addresses to an allowlist.
- **D. Change the spoofing protection to deliver the emails to inboxes with a custom warning instead of quarantining them.**

**Answer: D**

Explanation:

Access Admin Console: Log into your Google Workspace Admin Console.

Navigate to Security Settings: Go to Security > Gmail > Safety.

Modify Spoofing Protection: Locate the spoofing protection settings.

Change Delivery Method: Change the setting from quarantining emails to delivering them to inboxes with a custom warning. This way, users can review the emails and determine if they are legitimate while still being alerted to potential issues.

Save Settings: Save the changes to apply the new delivery method.

Reference

Google Support: Protect against spoofing & identity deception

### NEW QUESTION # 34

.....
