* Get Cloudy Consulting - Customer: GCC is the customer of Salesforce, which means it uses Salesforce products and services to run its business.

* Connected Mail - Independent Software Vendor (ISV): Connected Mail is an ISV, which means it develops and sells applications that are built on the Salesforce platform and are available on the AppExchange.

* United Clouds - Partner: United Clouds is a partner of Salesforce, which means it provides consulting, implementation, integration, or training services to help customers succeed with Salesforce.

NEW QUESTION # 103

A Salesforce associate wants to quickly create an org where they can learn, practice, and develop Salesforce skills.

Which type of org should they create from within Trailhead?

- A. Developer Edition
- B. Playground
- C. Sandbox

Answer: A

Explanation:

The type of org that the associate should create from within Trailhead to quickly learn, practice, and develop Salesforce skills is a Playground. A Playground is a free, fully functional Salesforce org that you can use to test and explore the platform. You can create multiple Playgrounds from Trailhead and use them to complete hands-on challenges and projects¹. A Developer Edition is a type of org that you can create from the Salesforce website, not from Trailhead. A Sandbox is a type of org that you can create from a production org as a copy of it for testing and development purposes

NEW QUESTION # 104

An employee at Get Cloudy Consulting recently changed their name. They received a new email address Where should these changes be updated?

- A. Contact Record page
- B. User Profile page
- C. User Record page from Setup

Answer: C

Explanation:

The place where the employee should update their name and email address changes is the User Record page from Setup. The User Record page is where the employee can view and edit their personal information, such as name, email, username, alias, and profile. The employee can access the User Record page by clicking on their profile icon and then clicking Settings. Then, they can click on Personal Information under My Personal Information and edit their name and email address. The User Profile page is where the

employee can view and edit their profile picture, about me, title, and contact information, but not their name and email address. The Contact Record page is where the employee can view and edit their contact details, such as phone, address, and social media accounts, but not their name and email address.

NEW QUESTION # 105

- A. Salesforce Technical Architect
- B. Salesforce Developer
- C. Salesforce Administrator

Answer: C

Explanation:

The person that the associate would typically work with to get a new field added in their Salesforce org is a Salesforce Administrator. A Salesforce Administrator is someone who configures and manages the Salesforce platform for their organization. They can create and customize objects, fields, layouts, reports, dashboards, and other features to meet the specific needs of their users

NEW QUESTION # 106

What is one aspect of multi-tenant architecture?

- A. Shares resources with other tenants
- B. Reserves resources per tenant
- C. Costs more than single-tenant architecture

Answer: A

Explanation:

Salesforce operates on a multi-tenant architecture, where a single instance of the platform serves multiple customers (tenants). Each tenant's data is securely isolated, but they share common resources, such as server space, database instances, and updates. This approach ensures cost efficiency and scalability.

* A. Costs more than single-tenant architecture: Multi-tenancy reduces costs due to shared resources.

* B. Reserves resources per tenant: Resources are shared rather than reserved individually.
