With the RealExamFree Pennsylvania Life, Accident and Health Exam (PA-Life-Accident-and-Health) Questions you can easily prepare well for the final Insurance Licensing PA-Life-Accident-and-Health exam and crack it easily.

## Insurance Licensing Pennsylvania Life, Accident and Health Exam Sample Questions (Q39-Q44):

### NEW QUESTION # 39

All of the following statements about Health Maintenance Organizations (HMOs) are true EXCEPT

- A. Out-of-pocket expenses are limited as long as the network is utilized.
- B. Members receive care from providers in the HMO network.
- C. Members pay higher monthly fees when out-of-network providers are utilized.
- D. Members pay fixed monthly fees to the HMO.

**Answer: C**

Explanation:

HMOs typically require members to use a network of designated providers and do not cover out-of-network care except in emergencies. Members pay fixed monthly fees for access to the HMO's network of providers.

While out-of-pocket expenses are limited within the network, utilizing out-of-network providers generally results in the services not being covered at all, rather than higher monthly fees. Therefore, statement D is incorrect.

### NEW QUESTION # 40

Which of the following policies generally does NOT have a cash value?

- A. straight life
- B. endowment
- C. variable life
- D. term

**Answer: D**

Explanation:

Under Pennsylvania Life Insurance classifications, term life insurance is the only policy type listed that does not accumulate cash value. Term insurance provides pure death protection for a specified period, such as 10, 20, or 30 years. If the insured dies during the term, the death benefit is paid; if the insured survives the term, coverage expires with no residual value.

The other policy types listed all include a cash value component. Endowment policies accumulate cash value and mature at a specified age or term. Variable life insurance builds cash value that fluctuates based on investment performance. Straight life insurance, also known as whole life, accumulates guaranteed cash value over time.

Pennsylvania insurance study guides emphasize that term life is typically the most affordable option due to the absence of savings or investment features. Because there is no cash accumulation, premiums are lower compared to permanent policies.

Therefore, the policy that generally does not have a cash value is term life insurance, making option D the correct answer.

### NEW QUESTION # 41

Backdating on a life insurance policy is the practice of

- A. excluding medical coverage for preexisting medical conditions.
- B. accepting the premium after the expiration of the grace period.
- C. reinstating a lapsed policy.
- D. making the policy effective on an earlier date than the present.

**Answer: D**

Explanation:

Backdating in a Pennsylvania life insurance policy refers to the practice of assigning an effective date earlier than the actual

application or issue date of the policy. This is permitted under Pennsylvania insurance regulations primarily to allow the insured to qualify for a lower premium based on a younger insurance age.

Insurers typically allow backdating up to six months, provided the policyowner pays the required back premiums from the backdated effective date to the current date.

Backdating does not reinstate a lapsed policy, accept late premiums beyond the grace period, or exclude coverage for preexisting conditions. Those activities are governed by separate provisions such as reinstatement clauses, grace period rules, and preexisting condition limitations found mainly in health insurance policies. Pennsylvania life insurance study materials emphasize that backdating is strictly regulated and must be requested by the applicant, not imposed by the insurer. Its sole purpose is age-based premium adjustment, making option A the correct answer.

#### NEW QUESTION # 42

I Long-term care insurance is any insurance policy or rider designed to provide coverage for a MINIMUM benefit period of

- A. 2 years.
- **B. 1 year.**
- C. 5 years.
- D. 10 years.

**Answer: B**

Explanation:

Under Pennsylvania Long-Term Care (LTC) insurance regulations, a policy or rider must provide coverage for a minimum benefit period of at least 12 months, or 1 year, to be classified as long-term care insurance. This requirement ensures that the policy addresses extended care needs rather than short-term medical or rehabilitation services.

Long-term care insurance covers services such as nursing home care, assisted living, home health care, and custodial care, which are not typically covered by standard health insurance or Medicare for extended durations. Policies offering less than one year of benefits do not meet Pennsylvania's statutory definition of long-term care insurance.

Options listing longer periods may be available as policy choices, but they exceed the minimum requirement.

Therefore, the correct and verified answer according to Pennsylvania Life, Accident, and Health Insurance study materials is A. 1 year.

#### NEW QUESTION # 43

A temporary insurance producer license may be initially issued for a maximum of:

- A. 90 days
- B. 365 days
- C. 30 days
- **D. 180 days**

**Answer: D**

Explanation:

Under Pennsylvania insurance licensing regulations, a temporary insurance producer license may be initially issued for a maximum period of 180 days. This temporary license is granted at the discretion of the Pennsylvania Insurance Commissioner to ensure continuity of insurance services, most commonly following the death or disability of a licensed producer.

The temporary license allows a designated individual, often a surviving spouse or business representative, to manage existing insurance business while arrangements are made for sale, transfer, or closure of the agency.

Temporary licenses are not automatically issued and do not permit unrestricted solicitation unless expressly authorized.

Pennsylvania Life, Accident, and Health Insurance study materials stress that temporary licenses are time-limited and intended solely for business continuity. Extensions beyond the initial period require Commissioner approval and are not guaranteed. Since the maximum initial issuance period is 180 days, option D is the correct and verified answer.

#### NEW QUESTION # 44

.....

Improvement in PA-Life-Accident-and-Health science and technology creates unassailable power in the future construction and progress of society. PA-Life-Accident-and-Health practice test can be your optimum selection and useful tool to deal with the

urgent challenge. With over a decade's striving, our PA-Life-Accident-and-Health training materials have become the most widely-lauded and much-anticipated products in industry.
