CIPS L4M4합격보장 가능 덤프 & L4M4유효한 최신덤프

Fast2test에서 출시한 CIPS L4M4덤프만 있으면 학원다닐 필요없이 시험패스 가능합니다. CIPS L4M4덤프를 공부하여 시험에서 떨어지면 불합격성적표와 주문번호를 보내오시면 덤프비용을 환불해드립니다.구매전 데모를 받아 덤프문제를 체험해보세요. 데모도 pdf버전과 온라인버전으로 나뉘어져 있습니다.pdf버전과 온라인버전은 문제는 같은데 온라인버전은 pdf버전을 공부한후 실력테스트 가능한 프로그램입니다.

CIPS L4M4 시험요강:

주제	소개
주제 1	Understand the key processes that can be applied to the analysis of potential external suppliers:
주제 2	Understand compliance issues when sourcing from suppliers: It explores legislative, regulatory, and organizational requirements for sourcing. It compares the use of audit and other mechanism of feedback.

주제 3	• This section examines analyzing market data, obtaining quotations • tenders, and assessing responses. The sub-topics focus on key processes for evaluating potential suppliers.
주제 4	• Understand options for sourcing requirements from suppliers: This section covers the sourcing process, approaches, options, and award criteria for obtaining requirements from suppliers. The sub-topics provide a foundation for strategic sourcing.

최신 CIPS Level 4 Diploma in Procurement and Supply L4M4 무료샘플문제 (Q175-Q180):

질문 # 175

Ramesh is an IT category manager within the UK's NHS and is responsible for the procurement of a new high-value network system. Ramesh has concluded that the use of a restricted tender is the most appropriate.

Which of the following statements is true for a restricted tender process?

- A. The contract will be awarded strictly on pricing criteria
- B. Direct negotiations occur prior to suppliers submitting their offer
- C. Suppliers responding to the tender are pre-qualified
- D. It is only relevant when there are few suppliers in the market

정답: C

설명:

Restricted tendering is a two-stage process: first, a pre-qualification stage to ensure only capable, compliant suppliers are invited; second, the issue of the ITT to that shortlist. This method is appropriate when requirements are complex, high-value, or where assurance of supplier competence is essential. It is not based solely on price and does not rely on limited supplier numbers but on filtering through qualification. This balances transparency and efficiency, avoiding wasteful evaluation of unsuitable suppliers while still maintaining competitive tension. CIPS L4M4 highlights that restricted tendering strengthens governance, improves efficiency, and ensures due diligence in supplier selection.

질문 # 176

Incoterms are designed to be understood and interpreted on a worldwide basis. What is the interpretation for FOB (Free on Board)?

- A. The buyer takes responsibility for taking the goods from the departure quayside to the ship, plus all subsequent costs
- B. The buyer takes responsibility for the goods after they are loaded on the ship, plus all subsequent costs including freight charges
- C. The buyer takes responsibility for the goods after they are loaded on the ship, plus subsequent costs excluding freight charges
- D. The buyer takes responsibility for transferring the goods from the seller's premises to the ship, plus all subsequent costs

정답: B

설명:

Under the FOB (Free on Board) Incoterm, the seller is responsible for delivering the goods onto the vessel at the named port of shipment. Once the goods are on board, the risk and responsibility transfer to the buyer.

From that point onward, the buyer assumes all costs and risks associated with the transportation of the goods, including freight charges, insurance, unloading, and delivery to the final destination.

This interpretation aligns with the Incoterms 2020 rules set by the International Chamber of Commerce (ICC). It's crucial to note that FOB is applicable only for sea or inland waterway transport and is not suitable for containerized cargo, where the FCA (Free Carrier) term is more appropriate.

질문 # 177

The use of Incoterms will eliminate all risks involved in international trade transactions. Is this statement true?

- A. No, they can reduce risks but will not eliminate them
- B. No, they will only provide assurance about the quality of goods
- C. Yes, they are popular because all risks are avoided
- D. Yes, they eliminate all the risks of buying from an overseas supplier

정답: A

설명:

Incoterms clarify responsibilities between buyers and sellers, reducing certain risks but not eliminating them entirely. Responsible sourcing requires recognising that Incoterms are only part of risk management in international trade, and other factors, such as supplier reliability and quality, must be considered.

질문 # 178

Faisal is a medical equipment maintenance services procurement specialist within a local hospital. Faisal is responsible for ensuring contracts are in place that will ensure operational continuity of high-value pieces such as radiology equipment. When carrying out tender opportunities for these services, Faisal will specify, as an essential requirement, that certain standards are adhered to. Which of the following is a benefit of incorporating standards as a requirement within a specification?

- A. Standards provide clear guidelines and remove the risk of ambiguity
- B. Standards will ensure low pricing is submitted in the tender response
- C. Standards will mirror the buyer's requirements in its entirety
- D. Standards will ensure suppliers meet all the buyer's requirements

정답: A

설명:

Incorporating standards within specifications provides clear guidelines for suppliers, reducing ambiguity and helping ensure consistency in quality and performance. This aligns with ethical and responsible sourcing practices by promoting transparency and setting consistent expectations for suppliers.

질문 # 179

What is a major benefit to using Incoterms when sourcing goods internationally?

- A. it ensures value for money
- B. it replaces lengthy contractual clauses
- C. it replaces the need for insurance
- D. it ensures ethical business practices

정답: B

설명:

Incoterms can replace lengthy contract clauses as they replace the need for contracts to detail which party is responsible for organising transport, paying duties, having the insurance etc.

Incoterms is an odd one for exam topics- some students say it was a huge part of their exam and there were many questions on this. Others said there were just one or two. Questions get randomly assigned from the bank so it's completely random how many you'll get on this topic.
