NEW QUESTION # 84

A security team needs to ingest a static file for a specific incident. The log file has not been collected previously and future updates to the file must not be indexed.
Which command would meet these needs?

- A. splunk add one shot / opt/ incident [data .log -index incident
- B. splunk edit monitor /opt/incident/data.* -index incident
- C. splunk add monitor /opt/incident/data.log -index incident
- D. splunk edit oneshot [opt/ incident/data.* -index incident

Answer: A

Explanation:
The correct answer is A. splunk add one shot / opt/ incident [data . log -index incident According to the Splunk documentation1, the splunk add one shot command adds a single file or directory to the Splunk index and then stops monitoring it. This is useful for ingesting static files that do not change or update. The command takes the following syntax:
splunk add one shot <file> -index <index_name>
The file parameter specifies the path to the file or directory to be indexed. The index parameter specifies the name of the index where the data will be stored. If the index does not exist, Splunk will create it automatically.
Option B is incorrect because the splunk edit monitor command modifies an existing monitor input, which is used for ingesting files or directories that change or update over time. This command does not create a new monitor input, nor does it stop monitoring after indexing.
Option C is incorrect because the splunk add monitor command creates a new monitor input, which is also used for ingesting files or directories that change or update over time. This command does not stop monitoring after indexing.
Option D is incorrect because the splunk edit oneshot command does not exist. There is no such command in the Splunk CLI.

NEW QUESTION # 85
An organization wants to collect Windows performance data from a set of clients, however, installing Splunk software on these clients is not allowed. What option is available to collect this data in Splunk Enterprise?

- A. Use an index with an Index Data Type of Metrics.
- B. Use Local Windows host monitoring.
- C. Use Windows Remote Inputs with WMI.
- D. Use Local Windows network monitoring.

Answer: C

Explanation:
https://docs.splunk.com/Documentation/Splunk/8.1.0/Data
/ConsiderationsfordecidinghowtomonitorWindowsdata
"The Splunk platform collects remote Windows data for indexing in one of two ways: From Splunk forwarders, Using Windows Management Instrumentation (WMI). For Splunk Cloud deployments, you must use the Splunk Universal Forwarder on a Windows machines to montior remote Windows data."

NEW QUESTION # 86
When configuring HTTP Event Collector (HEC) input, how would one ensure the events have been indexed?

- A. index=_internal component=ACK | stats count by host
- B. Enable forwarder acknowledgment.
- C. splunk check-integrity -index <index name>
- D. Enable indexer acknowledgment.

Answer: D

Explanation:
Explanation
Per the provided Splunk reference URL
https://docs.splunk.com/Documentation/Splunk/8.0.5/Data/AboutHECIDXAck
"While HEC has precautions in place to prevent data loss, it's impossible to completely prevent such an occurrence, especially in the

event of a network failure or hardware crash. This is where indexer acknolwedgment comes in." Reference https://docs.splunk.com/Documentation/Splunk/8.0.5/Data/AboutHECIDXAck

NEW QUESTION # 87
What is the correct order of steps in Duo Multifactor Authentication?

- A. 1 Request Login 2 Duo MFA
  3. Check authentication / group mapping
  4 Create User session
  5. Authentication Granted
  6 Log into Splunk
- B. 1 Request Login
  2 Check authentication / group mapping
  3 Authentication Granted
  4. Duo MFA
  5. Create User session
  6. Log into Splunk
- C. 1. Request Login 2 Duo MFA
  3. Authentication Granted 4 Connect to SAML server
  5. Log into Splunk
  6. Create User session
- D. 1 Request Login
  2. Connect to SAML server
  3 Duo MFA
  4 Create User session
  5 Authentication Granted 6. Log into Splunk

Answer: A

NEW QUESTION # 88
.....

The Splunk SPLK-1003 questions formats are PDF dumps files, desktop practice test software, and web-based practice test software. All these Splunk SPLK-1003 questions format hold some common and unique features. Such as Splunk PDF dumps file is the PDF version of SPLK-1003 dumps that works all operating systems and devices. Whereas the other two TestBraindump practice test questions formats are concerned, both are the mock Splunk SPLK-1003. Both will give you a real-time Splunk SPLK-1003 exam preparation environment and you get experience to attempt the SPLK-1003 preparation experience before the final exam.
