

3V0-21.23 Valid Test Practice & 3V0-21.23 Exam Braindumps

P.S. Free 2026 VMware 3V0-21.23 dumps are available on Google Drive shared by Actual4dump: <https://drive.google.com/open?id=10AjXbVwjYzM2ePfEvup4JrkB8t9OirtA>

Considering your practical constraint and academic requirements of the 3V0-21.23 exam preparation, you may choose the 3V0-21.23 practice materials with following traits. High quality and accuracy with trustworthy reputation; professional experts group specific in this line; considerate after-sales services are having been tested and verified all these years, 3V0-21.23 training guide is fully applicable to your needs.

VMware 3V0-21.23 Exam Syllabus Topics:

Topic	Details
Topic 1	Plan and Design the VMware Solution: This part targets Solution Designers, evaluating their ability to gather business objectives, create conceptual models based on these objectives, develop logical designs, and translate them into physical designs that meet specific requirements like manageability or security.
Topic 2	VMware Products and Solutions: Targeting VMware Engineers, this section describes VMware Cloud Foundation architecture, its components like vSphere and NSX, benefits such as automation and scalability, and use cases like hybrid cloud environments. It assesses understanding of VMware Validated Solutions.
Topic 3	IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers differentiating between business and technical requirements, as well as conceptual, logical, and physical design. A key skill measured is "Designing System Availability."

3V0-21.23 Exam Braindumps | 3V0-21.23 Latest Exam Cost

Every person in the IT industry has his own dream: to pass 3V0-21.23 certification exam, or a promotion, a raise and so on in the IT

career. The dream of Actual4dump is to help you achieve 3V0-21.23 exam certification. After you purchase our 3V0-21.23 Exam Dumps training materials, we will provide one year free renewal service. If you fail 3V0-21.23 certification exam, we can guarantee you that we will give you a full refund.

VMware vSphere 8.x Advanced Design Sample Questions (Q20-Q25):

NEW QUESTION # 20

An architect is reviewing a physical storage design. The customer has specified that a new active-passive based storage array will be used to provide storage for the vSphere clusters.

Which configuration should for the architect recommended?

- A. VMW_SATP_LOCAL
- B. VMW_PSP_FIXED
- C. VMW_PSP_MRU
- D. VMW_SATP_DEFAULT_AA

Answer: C

Explanation:

VMW_PSP_MRU - Most

Recently Used

The Most Recently Used (VMware) policy is enforced by VMW_PSP_MRU. It selects the first working path discovered at system boot time. The Most Recently Used policy does not use the preferred path setting. This policy is default for most active-passive storage devices.

NEW QUESTION # 21

What do workload design requirements focus on?

- A. The network protocols and configurations for data transfer.
- B. The tasks and operations the system should perform.
- C. The type and configuration of hardware components.
- D. The expected response time for system interactions.

Answer: B

NEW QUESTION # 22

During the installation of ESXi, what is the minimum number of network interfaces required for management and vMotion traffic, respectively?

- A. 0, 1
- B. 1, 1
- C. 2, 2
- D. 1, 0

Answer: B

NEW QUESTION # 23

An architect is considering placement of virtual machines within an existing VMware software-defined data center (SDDC).

During the discovery phase, the following information is documented:

Cluster One

- Six ESXi hosts
- vSphere HA with host failures cluster tolerates = 1
- Proactive HA is enabled and set to automated |
- Fully Automated vSphere DRS
- Transparent Page Sharing (TPS) is enabled

Cluster Two

- Eight ESXi hosts
- vSphere HA with host failures cluster tolerates = 1
- Proactive HA is disabled
- Partially Automated vSphere DRS
- Transparent Page Sharing (TPS) is disabled

Cluster Three

- Three ESXi hosts
- vSphere HA with admission control is disabled
- Proactive HA is not supported
- Transparent Page Sharing (TPS) is disabled

Virtual Machine Resource Profile 1

- Memory sharing techniques should not be used
 - Virtual machines should be automatically restarted in the event of host failure if resources are available
- #### Virtual Machine Resource Profile 2
- Memory sharing techniques should not be used
 - Virtual machines should be automatically restarted in the event of host failure regardless of available resources
 - Automated initial virtual machine placement.

Which two recommendations should the architect make for placement of the virtual machines to meet resource profile requirements? (Choose two.)

- A. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster Two.
- B. All virtual machines matching Virtual Machine Resource Profile 1 should be placed on Cluster One.
- C. All virtual machines matching Virtual Machine Resource Profile 1 should be placed on Cluster Two.
- D. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster Three.
- E. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster One.

Answer: C,D

NEW QUESTION # 24

How is the physical and virtual networking topology different in a vSphere environment?

- A. Physical networking refers to the physical network infrastructure, while virtual networking refers to the virtual switches and port groups in vSphere.
- B. Physical networking refers to the virtual switches and port groups in vSphere, while virtual networking refers to physical switches and routers.
- C. Physical networking and virtual networking are synonymous terms used interchangeably.
- D. Physical networking involves software-defined networking, while virtual networking involves physical network switches and routers.

Answer: A

NEW QUESTION # 25

.....

These are VMware 3V0-21.23 desktop software and web-based. As the name suggests, desktop VMware 3V0-21.23 practice exam software works offline on Windows computers and you need an active internet connection to operate the VMware 3V0-21.23 web-based practice test. Both 3V0-21.23 practice exams mimic the VMware 3V0-21.23 actual test, identify your mistakes, offer customizable 3V0-21.23 mock tests, and help you overcome mistakes.
