It is also beneficial for businesses that want to hire skilled professionals to design and implement their B2C Commerce Cloud solutions.

Salesforce Certified B2C Commerce Architect Sample Questions (Q31-Q36):

NEW QUESTION # 31

A client receives multiple feeds from third parties on the same SFTP location:

- * Product prices (sftp: prod/prices)
- * Stores information (sftp: prod/stores;
- * Product information (sftp: prod/catalog)
- * Categories information (sftp: prod/marketing)
- * Content (sftp: prod/marketing)

Some of the feeds are placed on sftp multiple times a day, as the information is updated in the source system.

The Architect decides to have only two jobs:

- * One that checks and downloads available feeds every hour
- * One that imports the files from Webdav once a day before the data replication, using the standards steps available in the Job Framework Which design is correct for the import Job, taking the steps scope in consideration?

- A. - four sibling flows execute steps in parallel: import products, stores, prices, content
- fifth flow executes: import categories
- last flow executes steps in sequence: reindex
- B. - three sibling flows import steps in parallel: import products, stores, prices
- fourth flow executes: import categories
- last flow executes steps in sequence: reindex, import content
- C. - four sibling flows execute steps in parallel: import products, stores, prices, content
- last flow executes steps in sequence: import categories, reindex
- D. -Four sibling flows execute steps in parallel: import products, stores, price, content
-last flow executes steps in sequence: import:categories, reindex

Answer: D

NEW QUESTION # 32

You're in charge of Pipeline migration to Controllers. What should be the best approach to do it in order to avoid poor performance and using Pipelines and controllers together until all migration is done?

- A. Use the same name for new Controllers than pipelines because it will be easy to identify that is migrated and Controllers take precedence. Furthermore it will be a good practice to do it in separate cartridges.
- B. To reduce risk of circular dependencies and for easier migration mix pipelines and controllers in a single cartridge.
- C. onRequest and onSession pipelines are replaced with the OnRequest and OnSession hooks.
- D. Controllers and pipelines must be in the same folder to avoid collisions between them.

Answer: A,C

NEW QUESTION # 33

An Order Management System (OMS) handles orders from multiple brandspecific sites, as part of the processing, the OMS sends the processing detail to be added at notes to the orders in B2C Commerce. These processing details are captured temporarily in custom objects, and are later processed by a batch Job that:

- * Processes the custom object to extract the orderid and note data.
- * Tries to load the order.
- * If the order is not found, it deletes the custom object and moves on.
- * If the order is found, it updates notes in the Order, upon successful update of this order, it deletes the custom object.

There is an Issue reported that the job is constantly failing and custom objects are growing in number. On investigating the production log the message below is being logged on each failure:

```
Processing of custom object 1xoskncjdw687769 failed for order 5000000001 and has an associated replacement order 1000000001. Exception details:  
com.demandware.core.quota.QuotaLimitExceededException: Limit for quota 'object.OrderPO.relation.notes' exceeded. Limit is 1000, actual is 1001. at  
com.demandware.core.quota.QuotaExceededException.throwLimitExceed(QuotaExceededException.java:21) at  
com.demandware.core.quota.QuotaImpl.handleHardLimitViolation(QuotaImpl.java:333) at
```

What are three solution The Architect can take to fix this issue without losing meaningful data?

Choose 3 answers

- A. Engage B2C Commerce Support Team to soften the quota limit for "object.OrderPO.relation.notes"
- B. Take the backup of the Order as XML and delete the notes from Order to ensure on the next jobrun the custom objects

are getting processed.

- C. Take the backup of the custom object and delete the custom object to ensure on the next job run the custom objects are getting processed.
- D. Using BM site import/export, softenthe<quota id="object.orderPo.relation,notes"><custom-action>warn<custom-action> </quots>to make sure that neither order notes are lost and custom object is processed.
- E. Take the backup of the Order as XML and delete the Order to ensure on the next job run, the custom objects are getting processed.

Answer: A,B,D

NEW QUESTION # 34

An Architect is documenting the technical design for a single B2C Commerce storefront. The Client has a business requirement to provide pricing that is customized to specific groups:

- * 50 different pricing groups of customers
- * 30 different pricing groups of employees
- * 10 different pricing groups of vendors

Which items should the Architect include in the design in order to set applicable price books based on these requirements" Choose 2 answers

- A. - One promotion and 50 campaigns for customers- One promotion and 30 campaigns for employees- One promotion and 10 campaigns for vendors
- B. - One customer group and SO subgroups for customers- One customer group and 30 subgroups for employees- One customer group and 10 subgroups for vendors
- C. - One campaign and multiple promotions for each customer group
- D. - 50 customer groups for customers- 30 customer groups for employees- 10 customer groups for vendors

Answer: B,D

NEW QUESTION # 35

The Client is planning to switch to a new Payment Service Provider (PSP). They have approached an Architect to understand the time and effort to Integrate the new PSP The PSP offers a LINK cartridge compatible with SiteGenesis Pipelines, but the Client's website is build on Controllers.

Which two options should the Architect take into consideration before starting analysis? Choose 2 answers

- A. Produce a proof of concept converting the most essential pipelines into controllers and integrate the cartridge.
- B. Estimate the effort and risk to convert the LINK cartridge from pipelines to controllers.
- C. Reach out to the PSP development team and ask if a new cartridge version that supports controllers is under development
- D. Look for a different PSP that supports controllers and would not require conversion efforts.

Answer: B,C
