And our CLO-002 exam questions will help you pass the CLO-002 exam for sure.

CompTIA Cloud Essentials+ Certification Exam Sample Questions (Q209-Q214):

NEW QUESTION # 209
Which IT process is likely to take more effort with cloud computing?

- A. Installing operating system patches
- B. Performance monitoring
- C. Hardware maintenance
- D. Server maintenance

Answer: B

NEW QUESTION # 210
Which of the following would help an organization's IT department set their objectives and expectations for a cloud computing solution?

- A. Service Design
- B. Service Transition
- C. Service Operation
- D. Service Strategy

Answer: D

NEW QUESTION # 211
A company is moving its long-term archive data to the cloud. Which of the following storage types will the company MOST likely use?

- A. Tape
- B. File
- C. Block
- D. Object

Answer: D

Explanation:
Object storage is a type of cloud storage that stores data as discrete units called objects. Each object has a unique identifier, metadata, and data. Object storage is ideal for storing long-term archive data in the cloud because it offers high scalability, durability, availability, and cost- effectiveness. Object storage can handle large amounts of unstructured data, such as documents, images, videos, and backups, and allows users to access them from anywhere using a simple web interface. Object storage also supports features such as encryption, versioning, lifecycle management, and replication to ensure the security and integrity of the archive data.

NEW QUESTION # 212
Which of the following cloud storage features helps move data online between different types of disks?

- A. Deduplication
- B. Compression
- C. Auto-tiering
- D. Load balancing

Answer: C

Explanation:
Auto-tiering is a cloud storage feature that automatically moves data between different types of storage disks (e.g., high-performance disks, standard disks, and archival disks) based on usage patterns. Data that is frequently accessed may be moved to faster, more expensive disks, while less frequently accessed data is moved to slower, cheaper disks. This helps optimize costs while ensuring the right performance for different types of data.

NEW QUESTION # 213
Which of the following is the cloud storage technology that would allow a company with 12 nearly identical servers to have the SMALLEST storage footprint?

- A. Capacity on demand
- B. Compression
- C. Deduplication
- D. Software-defined storage

Answer: C

Explanation:
SAN policies can be set to compress data written to the RAID array using techniques such as data deduplication, which reduces duplicate data blocks to single occurrences.
Deduplication removes duplicate disk blocks and replaces duplicates with pointers to reduce disk space consumption.

NEW QUESTION # 214
......

The third format is a web-based practice exam that is compatible with Firefox, Microsoft Edge, Safari, and Google Chrome. So the students can access it from any browser and study for CompTIA CLO-002 Exam clarification. In addition, Mac, iOS, Windows, Linux, and Android support the web-based CompTIA CLO-002 practice questions.
