

VMware 2V0-16.25 Pass Leader Dumps | Valid 2V0-16.25 Exam Tutorial

P.S. Free & New 2V0-16.25 dumps are available on Google Drive shared by PracticeMaterial: https://drive.google.com/open?id=19kIdnUF2aBHrIvkgC_XbsnUvN5Y1YICL

Our 2V0-16.25 study guide provides free trial services, so that you can gain some information about our study contents, topics and how to make full use of the software before purchasing. It's a good way for you to choose what kind of 2V0-16.25 test prep is suitable and make the right choice to avoid unnecessary waste. Besides, if you have any trouble in the purchasing 2V0-16.25 practice torrent or trail process, you can contact us immediately and we will provide professional experts to help you online.

If you are already an employee or busy in your routine, you can prepare VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam quickly with PracticeMaterial pdf questions. 2V0-16.25 pdf exam questions help applicants study for the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam at any time from any location. With the pdf questions, it will be easy for you to complete the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam preparation in a short time.

Valid 2V0-16.25 Exam Tutorial - 2V0-16.25 Exam Dumps Free

With the VMware 2V0-16.25 practice test, users can reduce stress, and improve their confidence to succeed. The desktop-based VMware vSphere Foundation 9.0 Administrator (2V0-16.25) practice test software is compatible with Windows only. But the web-based 2V0-16.25 Practice Test is compatible with all operating systems.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q51-Q56):

NEW QUESTION # 51

What are the two methods to add a widget to a VMware Cloud Foundation (VCF) Operations for Logs dashboard? (Choose two.)

- A. Clone the widget from an existing dashboard.
- B. Create the widget in Explore Logs and click Add to Dashboard.
- C. Drag and drop the widget in the dashboard design pane.
- D. Import the widget in the dashboard design pane.
- E. Open Management Pack Builder and clone the widget.

Answer: B,C

Explanation:

Two supported methods exist for adding widgets to VCF Operations for Logs dashboards:

* From Explore Logs- Create a widget (e.g., query result) and select Add to Dashboard. (B)

* Dashboard Design Pane- Use the design interface to drag and drop widgets. (C) Other options:

* A. Clone widget from existing dashboard# Not a supported method.

* D. Import widget in design pane# Import is for dashboards, not individual widgets.

* E. Management Pack Builder# Not related to Logs dashboard widgets.

NEW QUESTION # 52

During a recent audit, it was determined that a group of users may have been compromised. These users should not have access to any VMware vCenter resources while an investigation is underway. All the affected users have been placed into a SUSPECT_USERS group.

Which step is required to ensure that the suspect users will never have access to resources in vCenter?

- A. Assign the SUSPECT_USERS group the Administrator role to the vCenter Object and uncheck propagate.
- B. Disconnect the vCenter from Active Directory.
- C. Assign the SUSPECT_USERS group the No access role to the vCenter Object and check propagate.
- D. Assign the SUSPECT_USERS group the Read-only role to the vCenter Object and check propagate.

Answer: C

Explanation:

To ensure compromised users cannot access vCenter resources:

* Assign the No Access role at the vCenter level.

* Enable propagation so this restriction applies to all child objects.

* This guarantees zero permissions for SUSPECT_USERS.

Other options:

* B. Administrator with uncheck propagate# Still gives dangerous access at root level.

* C. Disconnect Active Directory# Disrupts all AD users, not just suspect ones.

* D. Read-only role# Still grants access, not acceptable during investigation.

NEW QUESTION # 53

Which rule in a virtual machine (VM) storage policy is configured to ensure data redundancy in a VMware vSAN environment?

- A. Stripe Width
- B. Failures to Tolerate
- C. Disk Stripes Per Object
- D. Flash Read Cache Reservation

Answer: B

Explanation:

The VM Storage Policy rule that controls data redundancy in vSAN is Failures to Tolerate (FTT).

* Defines the number of hardware failures (host, disk, network) that vSAN can tolerate while maintaining data availability.

* Configurations include RAID-1 (mirroring), RAID-5/6 (erasure coding).

Other options:

* B. Disk Stripes Per Object# Defines performance striping, not redundancy.

* C. Stripe Width# Same as above, not redundancy.

* D. Flash Read Cache Reservation# Relates to caching performance, not redundancy.

NEW QUESTION # 54

Which scenario demonstrates the benefit of server consolidation using VMware server virtualization?

- A. Providing protection against ransomware attacks.
- B. Performing load balancing between web servers.
- C. Automating the deployment of application clusters.
- **D. Running multiple independent machines on a single physical host.**

Answer: D

Explanation:

The core benefit of server consolidation using VMware server virtualization is the ability to run multiple independent virtual machines (VMs) on a single physical host.

- * This increases hardware utilization, reduces physical server sprawl, and cuts operational costs.
- * A. Load balancing# Achieved through features like DRS, not basic server consolidation.
- * C. Ransomware protection# Achieved through security features and backups, not consolidation.
- * D. Automating application clusters# A benefit of orchestration tools, not consolidation.

NEW QUESTION # 55

An administrator has been tasked to create a virtual machine (VM) into a VMware vCenter Supervisor Namespace in an existing VMware vSphere Foundation (VVF) deployment.

How would the administrator create the VM?

- A. Deploy using the vSphere Client.
- B. Log in to VCF Automation Service Broker and select the "Create a VM" catalog item.
- **C. Create a YAML file and deploy using kubectl.**
- D. Use VCF CLI to deploy the VM.

Answer: C

Explanation:

In a VMware vSphere Foundation (VVF) deployment with vCenter Supervisor Namespaces enabled, the method for creating VMs inside a Supervisor Namespace relies on the vSphere VM Service.

- * The VM Service exposes VMs as Kubernetes-native objects that are managed using kubectl.
- * Administrators (or DevOps engineers with appropriate permissions) must write a VM YAML manifest file, which specifies parameters such as apiVersion, kind: VirtualMachine, spec.imageName, spec.className, spec.storageClass, and spec.networkInterfaces.
- * The YAML manifest is then applied with kubectl to the Supervisor context.

This approach is documented as the supported method:

"As a DevOps engineer, provision a VM and its guest OS in a declarative manner by writing VM deployment specifications in a Kubernetes YAML file." Why the other options are incorrect:

- * B. Deploy using the vSphere Client###The vSphere Client is used to configure Namespaces, permissions, and VM classes, but actual VM creation in Supervisor Namespaces is done via kubectl + YAML.
- * C. Use VCF CLI to deploy the VM###VCF CLI (kubectl vsphere login) is used only to authenticate and obtain context, not to create VMs.
- * D. Log in to VCF Automation Service Broker###This is used for vRealize Automation/Aria Automation integration, not for direct Supervisor Namespace VM creation.

NEW QUESTION # 56

.....

Our 2V0-16.25 practice exams lower the likelihood of failing and are optimal for self-evaluation. You can access the web-based VMware vSphere Foundation 9.0 Administrator (2V0-16.25) practice exam online without having to install any software. All browsers and operating systems support our web-based 2V0-16.25 Practice Test. Every Windows computer supports our desktop VMware 2V0-16.25 practice exam software, enabling you to prepare for the 2V0-16.25 test without an active internet connection.

You can customize the time and types of these VMware Questions.

Valid 2V0-16.25 Exam Tutorial: <https://www.practicematerial.com/2V0-16.25-exam-materials.html>

Because the exam may put a heavy burden on your shoulder while our 2V0-16.25 Reliable Braindumps practice materials can relieve you of those troubles with time passing by, VMware 2V0-16.25 Pass Leader Dumps Now, your hope will be come true, VMware 2V0-16.25 Pass Leader Dumps This is the best shortcut to success, Beside, in case of failure, you do not worry about the money spent on 2V0-16.25 pdf test, we will full refund you, or you can replace with another exam dumps for free.

He believes business is a creative endeavor, similar to 2V0-16.25 a theater production, wherein integrity must be the central character, Adding Text To Your Pages, Because the exam may put a heavy burden on your shoulder while our 2V0-16.25 Reliable Braindumps practice materials can relieve you of those troubles with time passing by.

2026 2V0-16.25: VMware vSphere Foundation 9.0 Administrator –High-quality Pass Leader Dumps

Now, your hope will be come true, This is the best shortcut to success, Beside, in case of failure, you do not worry about the money spent on 2V0-16.25 pdf test, we will full refund you, or you can replace with another exam dumps for free.

We guarantee that these questions will be enough for you to clear the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) examination on the first attempt.
