Snowflake SnowPro Core Certification Exam Sample Questions (Q712-

Q717):

NEW QUESTION # 712

Which command should be used to download files from a Snowflake stage to a local folder on a client's machine?

- A. SELECT
- B. COPY
- C. GET
- D. PUT

Answer: C

Explanation:

The GET command is used to download files from a Snowflake stage to a local folder on a client's machine.

NEW QUESTION # 713

True or False: It is possible for a user to run a query against the query result cache without requiring an active Warehouse.

- A. False
- B. True

Answer: B

Explanation:

Explanation

Query result cache is all about fetching the data from cloud services layer and saving the cost by not running the virtual warehouse.

NEW QUESTION # 714

Which Snowflake data governance feature can support auditing when a user query reads column data?

- A. Data classification
- B. Object dependencies
- C. Access History
- D. Column-level security

Answer: C

Explanation:

Access History in Snowflake is a feature designed to support auditing by tracking access to data within Snowflake, including when a user's query reads column data. It provides detailed information on queries executed, including the user who ran the query, the query text, and the objects (e.g., tables, views) accessed by the query. This feature is instrumental for auditing purposes, helping organizations to monitor and audit data access for security and compliance.

NEW QUESTION # 715

Which of the following objects can be shared through secure data sharing?

- A. External table
- B. Stored procedure
- C. Masking policy
- D. Task

Answer: A

Explanation:

Secure data sharing in Snowflake allows users to share various objects between Snowflake accounts without physically copying the data, thus not consuming additional storage. Among the options provided, external tables can be shared through secure data sharing. External tables are used to query data directly from files in a stage without loading the data into Snowflake tables, making them suitable for sharing across different Snowflake accounts.
