years. They are reflection of our experts' authority. By assiduous working on them, they are dependable backup and academic uplift. So our experts' team made the PCNSE Guide dumps superior with their laborious effort. Of course the quality of our PCNSE exam quiz is high.

Palo Alto Networks Certified Network Security Engineer Exam Sample Questions (Q193-Q198):

NEW QUESTION # 193
Which feature must you configure to prevent users from accidentally submitting their corporate credentials to a phishing website?

- A. Anti-Spyware profile
- B. Vulnerability Protection profile
- C. URL Filtering profile
- D. Zone Protection profile

Answer: C

Explanation:
Explanation/Reference: https://www.paloaltonetworks.com/documentation/80/pan-os/pan-os/threat-prevention/prevent- credential-phishing

NEW QUESTION # 194
An administrator needs to upgrade a Palo Alto Networks NGFW to the most current version of PAN-OS software. The firewall has internet connectivity through an Ethernet interface, but no internet connectivity from the management interface. The Security policy has the default security rules and a rule that allows all web- browsing traffic from any to any zone.
What must the administrator configure so that the PAN-OS software can be upgraded?

- A. CRL
- B. Service route
- C. Scheduler
- D. Security policy rule

Answer: B

Explanation:
Explanation/Reference:

NEW QUESTION # 195
An administrator is attempting to create policies tor deployment of a device group and template stack. When creating the policies, the zone drop down list does not include the required zone.
What must the administrator do to correct this issue?

- A. Specify the target device as the master device in the device group
- B. Add a firewall to both the device group and the template
- C. Add the template as a reference template in the device group
- D. Enable "Share Unused Address and Service Objects with Devices" in Panorama settings

Answer: C

Explanation:
In order to see what is in a template, the device-group needs the template referenced. Even if you add the firewall to both the template and device-group, the device-group will not see what is in the template. The following link has a video that demonstrates that B is the correct answer. https://knowledgebase.

NEW QUESTION # 196

Which type of interface does a firewall use to forward decrypted traffic to a security chain for inspection?

- A. Tap
- B. Decryption Mirror
- C. Layer 3
- D. Layer 2

Answer: C

Explanation:
Configure security chain devices with Layer 3 interfaces to connect to the security chain network.
These Layer 3 interfaces must have an assigned IP address and subnet mask.

NEW QUESTION # 197
Information Security is enforcing group-based policies by using security-event monitoring on Windows User-ID agents for IP-to-User mapping in the network. During the rollout, Information Security identified a gap for users authenticating to their VPN and wireless networks.
Root cause analysis showed that users were authenticating via RADIUS and that authentication events were not captured on the domain controllers that were being monitored Information Security found that authentication events existed on the Identity Management solution (IDM). There did not appear to be direct integration between PAN-OS and the IDM solution How can Information Security extract and learn iP-to-user mapping information from authentication events for VPN and wireless users?

- A. Configure the integrated User-ID agent on PAN-OS to accept Syslog messages over TLS.
- B. Configure the User-ID XML API on PAN-OS firewalls to pull the authentication events directly from the IDM solution
- C. Add domain controllers that might be missing to perform security-event monitoring for VPN and wireless users.
- D. Configure the Windows User-ID agents to monitor the VPN concentrators and wireless controllers for IP-to-User mapping.

Answer: A

Explanation:
https://docs.paloaltonetworks.com/pan-os/10-2/pan-os-admin/user-id/map-ip-addresses-to-users/configure-user-i

NEW QUESTION # 198
......

we believe that all students who have purchased PCNSE practice materials will be able to successfully pass the professional PCNSE qualification exam as long as they follow the content provided by our PCNSE study materials, study it on a daily basis, and conduct regular self-examination through mock exams. Of course, before you buy, our PCNSE Study Materials offer you a free trial service, as long as you log on our website, you can download our trial questions bank for free. I believe that after you try PCNSE test engine, you will love them.

2026 PCNSE Latest Guide Files Pass Certify | High-quality Reliable PCNSE Real Test: Palo Alto Networks Certified Network Security Engineer Exam

Nowadays, the growing awareness about importance of specialized certificates and professional skills of knowledge increase and attract our attention, The advantages of our PCNSE dumps PDF is that Valid: all our exam dumps include about 80% questions & answers of the real test, all we sold are the latest and valid; Accurate: we have professional experts to edit and proofread, all our dumps questions & answers are right and accurate; High-quality: PCNSE dumps PDF is famous by our high-quality, we guarantee all our exam dumps on sale can help you pass exams 100% for sure.
