If you decide to buy our EX-Con-101 test dump, we can assure you that you will pass exam in the near future.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q144-Q149):

NEW QUESTION # 144
Cloud Kicks (CK) is in the process of updating and retiring multiple Experience Cloud sites on its one org.
What should CK consider before taking action as it inactivates and brings on new sites?

- A. Each org can have up to 100 Experience Cloud sites; preview sites don't count toward that limit.
- B. Each org can have up to 100 Experience Cloud sites as long as they are active.
- C. Each org can have up to 100 Experience Cloud sites; active, preview, and inactive sites all count toward that limit.
- D. Each org can have up to 100 Experience Cloud sites; preview sites count toward that limit but inactive sites do not.

Answer: C

Explanation:
This license type allows users to access accounts, contacts, leads, opportunities, orders, price books, products, and custom objects in a partner community. Channel Account users can also register deals and collaborate with UMS on sales opportunities. Channel Account users cannot access reports and dashboards, cases, or Knowledge articles.

NEW QUESTION # 145
The Cloud Kicks (CK) site administrator is onboarding a now partner to its Experience Cloud site. They have created the partner as an Account, added the required Contacts, and ensured that the Welcome Email selection is checked. However, upon review, the site administrator has found that none of the partner users were able to register.
What should the site administrator do to ensure they areable to set up partner users correctly?

- A. Ensure that the Account has been enabled as a partner Account.
- B. Double-check that the partner profile has been added to the CK site.
- C. Double-check that the provided email addresses are correct.
- D. Ensure thatthe Contacts under the Account are enabled as partner users.

Answer: D

Explanation:
To ensure that the partner users are able to register, the site administrator should enable the Contacts under the Account as partner users. This will allow the site administrator to assign a username, password, and profile to each Contact and send them a welcome email with a link to activate their account and log in to the site.

NEW QUESTION # 146
Universal Containers is implementing a customer community.
What sharing mechanism should be used to allow customers to view their own cases even after those cases are assigned to a support agent?

- A. Case co-ownership using Super User access
- B. Sharing Map and custom permission set
- C. Sharing Set
- D. OWD and Apex Sharing

Answer: C

Explanation:
A sharing set is a feature that grants community users access to records that have a lookup relationship with their user record or their account or contact record. For example, a sharing set can grant customers access to cases that have the same contact as their user record, regardless of the case owner or role hierarchy. Sharing sets are easy to configure and do not require code.

NEW QUESTION # 147
Cloud Kicks has packaged its Customer Support Community. The community includes navigation menu items that link to standard and custom objects.
Which two points should the Experience Cloud consultant consider when reviewing the package? Choose 2 answers

- A. Custom list views for custom objects are included as dependencies.
- B. Custom list views for custom objects are not included as dependencies.
- C. Custom list viewsfor standard objects are not included as dependencies.
- D. Custom list views for standard objects are included as dependencies.

Answer: B,C

Explanation:
When you package your Experience Cloud site, some components and settings are included as dependencies, while others are not. For example:
* Custom list views for custom objects are not included as dependencies. You need to manually add them to your package or recreate them in the target org.
* Custom list views for standard objects are not included as dependencies. You need to manually add them to your package or recreate them in the target org.

NEW QUESTION # 148

Recently, Ursa Major Solar (UMS) decided it no longer wants to utilize Data Categories to control article visibility for its customer portal. UMS's users will need to be logged in to the portal in order to view any Knowledge articles.
Outside of Data Categories, what is another way UMS can control Knowledge article visibility?

- A. Sharing Rules
- B. Permission Sets
- C. Audience Targeting
- D. Branding Sets

Answer: B

Explanation:
Permission sets are a feature that allows you to grant additional permissions to users without changing their profiles. You can use permission sets to control Knowledge article visibility by granting users access to specific article types and actions. For example, you can create a permission set that allows users to view only certain article types and assign it to your customer portal users.

NEW QUESTION # 149
.....

We know deeply that a reliable EX-Con-101 exam material is our company's foothold in this competitive market. High accuracy and high quality are the most important things we always looking for.
