# H12-821_V1.0 Valid Test Simulator - Reasonable H12-821_V1.0 Exam Price

2026 Latest DumpsTorrent H12-821_V1.0 PDF Dumps and H12-821_V1.0 Exam Engine Free Share: https://drive.google.com/open?id=1qjlckzQGwWKisCIlq6pQmXq2VEq5Y9O5

Most of the candidates who plan to take the H12-821_V1.0 certification exam lack updated practice questions to ace it on the first attempt. Due to this, they fail the HCIP-Datacom-Core Technology V1.0 (H12-821_V1.0) test, losing money and time. And in some cases, applicants fail on the second attempt as well because they don't prepare with H12-821_V1.0 Actual Exam questions. This results in not only the loss of resources but also the motivation of the candidate.

The HCIP-Datacom-Core Technology V1.0 exam is targeted at professionals who are involved in the design, implementation, and maintenance of data communication networks. H12-821_V1.0 Exam is designed to test the candidate's knowledge and proficiency in the core technologies used in data communication networks. HCIP-Datacom-Core Technology V1.0 certification is recognized globally and provides a competitive edge to professionals who are seeking to advance their careers in the field of data communication.

Reasonable H12-821_V1.0 Exam Price | Latest H12-821_V1.0 Version

Additionally, we offer up to three months of free HCIP-Datacom-Core Technology V1.0 H12-821_V1.0 exam questions updates. If the actual examination's topics or content changes within three months of your buying, we will immediately provide you with free HCIP-Datacom-Core Technology V1.0 H12-821_V1.0 exam questions updates. It is the best time to buy actual HCIP-Datacom-Core Technology V1.0 H12-821_V1.0 Exam Questions at an affordable price with these amazing offers. Don't miss this golden opportunity. Purchasen Huawei H12-821_V1.0 real exam questions and start preparing for the HCIP-Datacom-Core Technology V1.0 H12-821_V1.0 certification test today. Good Luck!

Huawei HCIP-Datacom-Core Technology V1.0 Sample Questions (Q833-Q838):

NEW QUESTION # 833
When two routers exchange LSDB information using DD packets, a master/slave relationship is formed first, the router with a larger router ID is the master, and determine the MS bit.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
When OSPF routers exchange LSDBs using Database Description (DD) packets, they first establish a master- slave relationship. The router with the larger Router ID becomes the master, setting the MS (Master/Slave) bit in the DD packets. This hierarchical relationship ensures an orderly exchange of routing information .

NEW QUESTION # 834
An enterprise administrator configures route summarization on ASBRs to reduce the number of inter-area Type 3 LSAs, which in turn reduces the routing table size and improves device resource utilization.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
Comprehensive and Detailed Step-by-Step Explanation:
OSPF Route Summarization:
Route summarization combines multiple specific routes into a single summary route. This reduces the number of LSAs advertised between OSPF areas, especially Type 3 LSAs.
Benefits of Route Summarization:
Reduces the size of the OSPF database and routing table.
Minimizes the processing overhead on routers by decreasing the number of routing entries.
Improves the scalability of the OSPF network.
ASBR Function:
The ASBR advertises external routes into OSPF and can summarize routes at area boundaries or during redistribution.

NEW QUESTION # 835
Route attributes are specific descriptions of routes. BGP route attributes can be classified into four types.
Which of the following are well-known discretionary attributes?

- A. MED
- B. Local-Preference
- C. Community
- D. Atomic_Aggregate

Answer: B,D

Explanation:
Comprehensive and Detailed Step-by-Step Explanation:
1. BGP Attributes Overview:
BGP uses attributes to describe the properties of routes. These attributes are classified into the following categories:
* Well-Known Mandatory: Attributes that must be recognized and included in every BGP update.
Examples: AS_PATH, ORIGIN, NEXT_HOP.
* Well-Known Discretionary: Attributes that must be recognized but are not required in every BGP update. Examples: LOCAL_PREF, ATOMIC_AGGREGATE.
* Optional Transitive: Attributes that may or may not be recognized, but must be passed along to other BGP peers. Examples: COMMUNITY.
* Optional Non-Transitive: Attributes that may or may not be recognized, and are not passed along to other BGP peers. Examples: MED (Multi-Exit Discriminator).
2. Analysis of Each Option:
Option A: Atomic_Aggregate
* Correct.
* This is a well-known discretionary attribute. It indicates that the advertised route is an aggregate route that summarizes multiple specific routes.
Option B: Local-Preference
* Correct.

* This is a well-known discretionary attribute. It is used within an AS to prioritize routes, with higher values being preferred.
Option C: Community
* Incorrect.
* The COMMUNITY attribute is an optional transitive attribute. It is used to tag routes with specific labels to apply routing policies.
Option D: MED (Multi-Exit Discriminator)
* Incorrect.
* The MED attribute is an optional non-transitive attribute. It is used to influence the choice of the preferred path when there are multiple entry points into an AS.
3. Summary:
* Well-Known Discretionary Attributes: Atomic_Aggregate and Local-Preference.
:
Huawei HCIA-Datacom Study Guide, Chapter "BGP Route Attributes."
RFC 4271: Border Gateway Protocol 4 (BGP-4).

NEW QUESTION # 836
Router A and Router B are directly connected, OSPF is enabled and the port network type is broadcast.
If the two routers establish an adjacency relationship, which of the following items are necessary? (Multiple choice)

- A. Router IDs are the same
- B. The mask is consistent
- C. Dir-priority consistent
- D. The Hello time interval is the same
- E. Dead time interval is consistent
- F. The MTU size is the same

Answer: B,D,E,F

NEW QUESTION # 837
Two routers running IS-IS can establish an adjacency relationship only if the time interval between IIH sending is the same.

- A. TRUE
- B. FALSE

Answer: B

NEW QUESTION # 838
......

The PDF version of our H12-821_V1.0 guide quiz is prepared for you to print it and read it everywhere. It is convenient for you to see the answers to the questions and remember them. After you buy the PDF version of our H12-821_V1.0 study material, you will get an E-mail form us in 5 to 10 minutes after payment.Once any new question is found, we will send you a link to download a new version of the H12-821_V1.0 training engine. So don't worry if you are left behind the trend.
