As candidates who will attend the exam, some may be anxious about the coming exam, maybe both in the CAD practice material and the mental state. We will provide you the CAD practice material with high quality as well as the comfort in your mental. The CAD Exam Dumps have the knowledge for the exam, and the simulated CAD soft test engine will be of great benefit to you through making you know the exam procedures.

ServiceNow is a powerful and versatile cloud-based platform that enables organizations to streamline their IT service management processes. It is used by businesses across various industries worldwide to automate workflows, improve collaboration, and enhance service delivery. ServiceNow Certified Application Developer (CAD) is a widely recognized certification that demonstrates an individual's proficiency in developing applications on the ServiceNow platform.

Passing the CAD Exam is a significant achievement for developers who work with the ServiceNow platform. Certified Application Developer-ServiceNow certification demonstrates that the developer has the skills and knowledge required to design and develop custom applications on the platform. It also validates that the developer has a deep understanding of the platform's capabilities and can use it to solve complex business problems.

## Sure CAD Pass, CAD Test Passing Score

Our product's passing rate is 99% which means that you almost can pass the test with no doubts. The reasons why our CAD study materials' passing rate is so high are varied. Firstly, our test bank includes two forms and they are the PDF test questions which are selected by the senior lecturer, published authors and professional experts and the practice test software which can test your mastery degree of our CAD Study Materials at any time. The two forms cover the syllabus of the entire test. Our questions and answers include all the questions which may appear in the exam and all the approaches to answer the questions. So we provide the strong backing to help clients to help them pass the test.

## ServiceNow Certified Application Developer-ServiceNow Sample Questions (Q211-Q216):

### NEW QUESTION # 211

When crafting a scoped application that contains flow actions, what is the application called?

- A. Spoke
- B. Action
- C. Bundle
- D. Row

**Answer: A**

Explanation:

A spoke is a scoped application that contains flow actions that can be used in Flow Designer. Spokes allow developers to create reusable actions that can be shared across applications and instances.

#### NEW QUESTION # 212

A manager wants to view a snapshot of month-end Sales performance data, as compared to Sales targets. In addition, the manager wants to be able to see those monthly numbers trended over time, and forecasted into the future. What capability do you suggest for this manager?

- A. Scheduled Reports a custom snapshot table and a Trend report
- **B. Performance Analytics**
- C. Key Performance Indicators
- D. Scheduled Reports and Excel
- E. Scheduled Reports, a custom snapshot table, and a Projection report

**Answer: B**

#### NEW QUESTION # 213

When creating application tables, a user role is automatically added to the table record. Which other role does an application typically have?

- A. Application Super User
- B. Application Manager
- **C. Application Admin**
- D. Application Fulfiller

**Answer: C**

Explanation:

An application admin is a role that grants full access to an application and its tables, scripts, and other components<sup>1</sup>. An application admin can create, modify, and delete any element of the application, as well as publish and install it<sup>2</sup>. An application typically has an application admin role that is automatically created and assigned to the application creator<sup>3</sup>.

#### NEW QUESTION # 214

Which testing framework is used to test ServiceNow Applications?

- A. Test Driven Framework (TDF)
- B. Selenium
- C. Junit
- **D. Automated Test Framework (ATF)**

**Answer: D**

#### NEW QUESTION # 215

Which Application Access configuration field(s) are NOT available if the Can read configuration field is NOT selected?

- A. Allow configuration
- B. Can create, Can update, and Can delete
- **C. Can read does not affect the availability of other Application Access fields**
- D. All access to this table via web services

**Answer: C**

### Explanation:

"You must first select read access to grant any other API record operation." [https://docs.servicenow.com/bundle/tokyo-application-development/page/build/applications/reference/r\\_TableApplicationAccessFields.html](https://docs.servicenow.com/bundle/tokyo-application-development/page/build/applications/reference/r_TableApplicationAccessFields.html)

The Application Access configuration fields control the access level for an application and its tables. The following Application Access configuration fields are not available if the Can read configuration field is not selected:

- \* Can create. This field determines whether users can create records on the application tables.
- \* Can update. This field determines whether users can update records on the application tables.
- \* Can delete. This field determines whether users can delete records on the application tables.

These fields are not available because they depend on the Can read field, which determines whether users can view records on the application tables. If users cannot read records, they cannot create, update, or delete them either.

The following Application Access configuration fields are available regardless of the Can read configuration field:

\* All access to this table via web services. This field determines whether users can access the application tables using web services, such as REST or SOAP.  
\* Allow configuration. This field determines whether users can configure the application tables, such as adding or modifying fields, views, or indexes. References: Application Access, Certified Application Developer (CAD) Learning Path

## NEW QUESTION # 216

The Itcertmaster has specially designed the ServiceNow CAD desktop practice exam software for the self-assessment of the learned concepts. Our ServiceNow CAD desktop practice exam software can be installed on all types of windows operating computers. This is ServiceNow CAD practice exam for the applicant's practice that could be solved without internet access. The ServiceNow CAD exam questions preparation products have been designed to provide ease to their customers in all aspects. Everybody can use our CAD Exam Questions And Answers conveniently. We provide 365 days of free updates after the date of purchase so that you can get updated ServiceNow CAD exam questions for the CAD exam preparation.
