Free PEGACPDC25V1 Practice Exams, Exam PEGACPDC25V1 Materials

Now as you have the best test study material from PDFDumps, you must start with the process of learning. Hard work always pays off and there is no chance to fail the PEGACPDC25V1 exam if you are fully prepared with PDFDumps PDF questions. There is no way that your preparation with real Certified Pega Decisioning Consultant 25 (PEGACPDC25V1) questions PDF shall disappoint you.

Pegasystems Certified Pega Decisioning Consultant 25 Sample Questions (Q93-Q98):

NEW QUESTION # 93
You are a decisioning architect responsible for configuring offer prioritization for home loan offers based on the business requirements. Select each prioritization factor on the left and drag it to the correct condition on the right.

Answer:

Explanation:
A close-up of a document AI-generated content may be incorrect.

NEW QUESTION # 94
Regional Bank experiences an unexpected system outage affecting online banking services across multiple locations. The bank needs to immediately inform all customers about the temporary service disruption and provide alternative banking options. The communication must reach every customer simultaneously and should not be repeated.
Which communication approach should the bank use to address this urgent customer notification requirement?

- A. Schedule a regular always-on outbound communication with engagement policies
- B. Send individual personalized messages through the standard outbound schedules

- C. Create a one-time action to deliver Immediate batch communication to all customers
- D. Configure a promotional campaign with targeted audience segmentation rules

Answer: C

NEW QUESTION # 95

MyCo, a telecom company, uses Pega Customer Decision Hub to present offers to qualified customers. The business recently decided to send offer messages through the email channel. The Design department has designed an email treatment which includes dynamic placeholders.

As a deaccessioning architect, what do you use in order to test the visualization and the rendering of the email content, including replacing of the placeholders with customer information?

- A. Schedule an outbound run with a limited number of customers
- B. Preview section from the email content editor
- C. A seed list from the Test email tab
- D. A list of customer email addresses from the Test email tab

Answer: C

Explanation:

To test the visualization and the rendering of the email content, including replacing of the placeholders with customer information, you use a seed list from the Test email tab. A seed list is a predefined set of customers that you can use to test your email treatments before sending them to your target audience. You can select one or more customers from the seed list and send them a test email with your treatment. You can then verify how the email looks in their inbox and how the placeholders are replaced with their actual values. NEW QUESTION # 96

The U+ Bank marketing department currently promotes various home loan offers to qualified customers.

Now, the bank does not want customers to receive more than four promotional emails per quarter, regardless of past responses to that action by the customer.

Which option allows you to implement the business requirement?

- A. Suitability rules
- B. Volume constraints
- C. Outbound channel limits
- D. Suppression policies

Answer: B

Explanation:

Volume constraints allow you to limit the number of times an action is presented to customers across one or more channels. You can use volume constraints to implement the requirement that customers do not receive more than four promotional emails per quarter, regardless of past responses to that action by the customer.

You can configure the volume constraint to limit the number of actions per channel per quarter and select the option to ignore previous responses. Outbound channel limits are used to limit the number of customers contacted per channel per run, not per quarter. Suppression policies are used to exclude customers from receiving an action based on certain conditions, such as opt-out preferences or recent purchases, not based on the number of times the action is presented. Suitability rules are used to determine whether an action is suitable for a customer based on their propensity, priority, or other criteria, not based on the number of times the action is presented.

NEW QUESTION # 97

U+ Bank, a retail bank, has recently implemented a project in which qualified customers see mortgage offers when they log in to the web self-service portal.

Currently, only the customers who satisfy the following engagement policy conditions receive the Fifteen- year fixed-rate mortgage offer:

The bank decides to make two changes:

1. Update the suitability condition for the Fifteen-year fixed-rate mortgage offer.

2. Introduce a new offer , Twenty-year fixed-rate mortgage.
The following table shows the new engagement policy conditions for both mortgage offers:

What is the best practice to fulfill this change management requirement in the Business Operations Environment?

- A. Create two change requests in the 1:1 Operations Manager portal.
- B. Create a single change request in the 1:1 Operations Manager portal.
- C. Create two change requests: one in the Pega Customer Decision Hub portal and the other in the 1:1 Operations Manager portal.
- D. Create a single change request in the Pega Customer Decision Hub portal.

Answer: B

Explanation:
According to the best practice, a single change request should be created in the 1:1 Operations Manager portal, because both changes are related to the engagement policies and propositions that are managed in this portal. The Pega Customer Decision Hub portal is used to design and test the decision strategies, not the engagement policies and propositions.
