Free PDF Quiz 2026 Cyber AB CMMC-CCP Pass-Sure Test Fee

P.S. Free 2026 Cyber AB CMMC-CCP dumps are available on Google Drive shared by ExamPrepAway: https://drive.google.com/open?id=13nrEymbK2UDJBGuV0Vm-NE-H1IJP4w0E

During the process of using our CMMC-CCP study materials, you focus yourself on the exam bank within the given time, and we will refer to the real exam time to set your CMMC-CCP practice time, which will make you feel the actual exam environment and build up confidence. Not only that you can get to know the real questins and answers of the CMMC-CCP Exam, but also you can adjust yourself to the real pace of the CMMC-CCP exam.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	• CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.
Topic 2	• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.
Topic 3	• CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.

Free PDF 2026 Efficient Cyber AB CMMC-CCP Test Fee

Our CMMC-CCP guide torrent boosts 98-100% passing rate and high hit rate. Our CMMC-CCP test torrent use the certificated experts and our questions and answers are chosen elaborately and based on the real exam. The language of our CMMC-CCP study torrent is easy to be understood and the content has simplified the important information. Our product boosts the function to simulate the CMMC-CCP Exam, the timing function and the self-learning and the self-assessment functions to make the learners master the CMMC-CCP guide torrent easily and in a convenient way.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q218-Q223):

NEW QUESTION # 218

According to the Configuration Management (CM) domain, which principle is the basis for defining essential system capabilities?

- A. Least privilege
- B. Essential concern
- C. Separation of duties
- D. Least functionality

Answer: D

Explanation:

Understanding the Principle of Least Functionality in the CM DomainTheConfiguration Management (CM) domainin CMMC 2.0 focuses on maintaining the security and integrity of an organization's systems through controlled configurations and restrictions on system capabilities.

The principle ofLeast Functionalityrefers to limiting a system's features, services, and applications to only those necessary for its intended purpose. This principle reduces the attack surface by minimizing unnecessary components that could be exploited by attackers.

* CMMC Practice CM.L2-3.4.6 (Use Least Functionality)explicitly states:"Employ the principle of least functionality by configuring organizational systems to provide only essential capabilities."
* Thegoalis to prevent unauthorized or unnecessary applications, services, and ports from running on the system.
* Examples of Implementation:
* Disabling unnecessary services, such as remote desktop access if not required.
* Restricting software installation to approved applications.
* Blocking unused network ports and protocols.
* A. Least Privilege
* This principle (associated with Access Control) ensures that users and processes have only the minimum level of access necessary to perform their jobs.
* It is relevant to CMMC PracticeAC.L2-3.1.5 (Least Privilege)but does not define system capabilities.
* B. Essential Concern
* There is no officially recognized cybersecurity principle called "Essential Concern" in CMMC, NIST, or related frameworks.
* D. Separation of Duties
* This principle (covered under CMMCAC.L2-3.1.4) ensures that no single individual has unchecked control over critical functions, reducing the risk of fraud or abuse.
* While important for security, it does not define essential system capabilities.
* CMMC 2.0 Level 2 Assessment Guide - Configuration Management (CM) Domain
* CM.L2-3.4.6 mandatesleast functionalityto enhance security by removing unnecessary features.
* NIST SP 800-171 (which CMMC is based on) - Requirement 3.4.6
* States:"Limit system functionality to only the essential capabilities required for organizational missions or business functions."
* NIST SP 800-53 - Control CM-7 (Least Functionality)
* Provides detailed recommendations on configuring systems to operate with only necessary features.

Justification for the Correct Answer: Least Functionality (C)Why Other Options Are IncorrectOfficial CMMC and NIST ReferencesConclusionTheprinciple of Least Functionality (C)is the basis for defining essential system capabilities in theConfiguration Management (CM) domainof CMMC 2.0. By applying this principle, organizations reduce security risks by ensuring that only the necessary functions, services, and applications are enabled.

NEW QUESTION # 219

A Level 2 Assessment was conducted for an OSC, and the results are ready to be submitted. Prior to uploading the assessment results, what step MUST the C3PAO complete?

- A. Notify the CMMC-AB that submission is forthcoming.
- B. Complete an internal review of the results.
- C. Pay an assessment submission fee.
- D. Coordinate a final briefing between the Lead Assessor and the OS

Answer: B

NEW QUESTION # 220

In performing scoping, what should the assessor ensure that the scope of the assessment covers?

- A. All entities, regardless of the line of business, associated with the organization
- B. All assets documented in the business plan
- C. All assets processing, storing, or transmitting FCI/CUI and security protection assets
- D. All assets regardless if they do or do not process, store, or transmit FCI/CUI

Answer: C

Explanation:

Scoping Requirements in CMMC AssessmentsTheCMMC 2.0 Scoping GuideandCMMC Assessment Process (CAP) Documentclearly define what should be included in the scope of an assessment.

The assessment scope must cover:

All assets that process, store, or transmit FCI/CUI

Security Protection Assets (ESP)- these assets help protect FCI/CUI, such as firewalls, endpoint detection systems, and encryption mechanisms.

Thus, thecorrect scope includes both:

#FCI/CUI Assets(Data storage, processing, or transmission assets)

#Security Protection Assets (ESP)(Firewalls, security tools, etc.)

A). All assets documented in the business plan#Incorrect.Business plans may include assets unrelated to FCI

/CUI, making this scopetoo broad. Only assets relevant to FCI/CUI should be assessed.

B). All assets regardless if they do or do not process, store, or transmit FCI/CUI#Incorrect. CMMC doesnotrequire organizations to include assets thathave no connection to FCI/CUI.

C). All entities, regardless of the line of business, associated with the organization#Incorrect.Only the assets relevant to FCI/CUI or security protection should be assessed. Unrelated business divisions (like a non-federal commercial division) areout-of-scope.

Why the Other Answers Are Incorrect

CMMC 2.0 Scoping Guide - Level 1 & Level 2

CMMC Assessment Process (CAP) Document

CMMC Official ReferencesThus,option D (All assets processing, storing, or transmitting FCI/CUI and security protection assets) is the correct answeras per official CMMC assessment scoping requirements.

NEW QUESTION # 221

Which entity requires that organizations handling FCI or CUI be assessed to determine a required Level of cybersecurity maturity?

- A. CMMC-AB
- B. NIST
- C. DoD
- D. CISA

Answer: C

NEW QUESTION # 222

Which phase of the CMMC Assessment Process includes the task to identify, obtain inventory, and verify evidence?

- A. Phase 2: Conduct Assessment
- B. Phase 4: Remediation of Outstanding Assessment Issues
- C. Phase 3: Report Recommended Assessment Results
- D. Phase 1: Plan and Prepare Assessment

Answer: A

Explanation:

Understanding the CMMC Assessment Process

TheCMMC Assessment Process (CAP)consists offour phases, each with specific tasks and objectives.

Phase 1: Plan and Prepare Assessment- Planning, scheduling, and preparing for the assessment.

Phase 2: Conduct Assessment-Gathering and verifying evidence, conducting interviews, and evaluating compliance.

Phase 3: Report Recommended Assessment Results- Documenting findings and reporting results.

Phase 4: Remediation of Outstanding Assessment Issues- Allowing the organization to address any deficiencies.

Why "Phase 2: Conduct Assessment" is Correct?

DuringPhase 2: Conduct Assessment, theAssessment Teamperforms key activities, including:

#Identifying required evidencefor compliance verification.

#Obtaining and reviewing artifacts(e.g., security policies, configurations, logs).

#Verifying the sufficiency of evidenceagainst CMMC practice requirements.

#Interviewing key personneland observing cybersecurity implementations.

Since the question specifically mentions"identify, obtain inventory, and verify evidence,"this task directly falls underPhase 2: Conduct Assessment.

Breakdown of Answer Choices

Option

Description

Correct?

A). Phase 1: Plan and Prepare Assessment

#Incorrect-This phase focuses onscheduling, logistics, and planning, not evidence collection.

B). Phase 2: Conduct Assessment

#Correct - This phase involves gathering, verifying, and reviewing evidence.

C). Phase 3: Report Recommended Assessment Results

#Incorrect-This phasedocumentsresults but doesnotcollect evidence.

D). Phase 4: Remediation of Outstanding Assessment Issues

#Incorrect-This phase focuses oncorrective actions, not evidence collection.

Official References fromCMMC 2.0 Documentation

CMMC Assessment Process Guide (CAP)-Phase 2: Conduct Assessmentexplicitly includes tasks such asgathering and verifying evidence.

Final Verification and Conclusion

The correct answer isB. Phase 2: Conduct Assessment, as this phase includesidentifying, obtaining, and verifying evidence, which is critical for determining CMMC compliance.

NEW QUESTION # 223
