Latest APMG-International ISO-IEC-27001-Foundation Learning Material - Exam ISO-IEC-27001-Foundation Tests

As we know that thousands of people put a premium on obtaining ISO-IEC-27001-Foundation certifications to prove their ability. With the difficulties and inconveniences existing for many groups of people like white-collar worker, getting a ISO-IEC-27001-Foundation certification may be draining. Therefore, choosing a proper ISO-IEC-27001-Foundation exam guide can pave the path for you which is also conducive to gain the certification efficiently. So why should people choose us? Because the high pass rate of our ISO-IEC-27001-Foundation Latest Practice Materials is more than 98% and you will pass the ISO-IEC-27001-Foundation exam easily to get the dreaming certification.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q35-Q40):

NEW QUESTION # 35

Identify the missing word in the following sentence.

The organization shall determine the [?] of interested parties relevant to information security.

- A. requirements
- B. structure

- C. number
- D. influence

Answer: A

Explanation:

Clause 4.2 of ISO/IEC 27001:2022 states:

"The organization shall determine: a) interested parties that are relevant to the information security management system; b) the relevant requirements of these interested parties; c) which of these requirements will be addressed through the ISMS." This confirms that the missing word is requirements. Neither number, structure, nor influence are specified in the standard.

NEW QUESTION # 36

Who determines the number of days required for a certification audit?

- A. The lead internal auditor from the organization to be audited
- B. The management representative from the organization to be audited
- **C. The external auditor from the Certification Body who will undertake the audit**
- D. Both the management representative and the external auditor together

Answer: C

Explanation:

Certification audits are carried out by Certification Bodies (CBs), not the organization itself. ISO/IEC 27001 requires external certification audits to be independent, impartial, and objective. According to ISO/IEC 27006 (Requirements for bodies providing audit and certification of ISMS), the Certification Body determines the audit duration and number of audit days based on factors such as organizational size, complexity, scope, and risk environment. This ensures consistency across organizations and prevents manipulation by the auditee. ISO/IEC 27001 Clause 9.2 and 9.3 address internal audit and management review, but the determination of certification audit days is outside the organization's control; it rests solely with the accredited Certification Body auditors. Thus, answer: C is correct, as the CB's external auditor formally calculates and assigns the audit time.

NEW QUESTION # 37

Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an audit of a Certification Body
- B. Conduct an audit of an Accredited Training Organization
- C. Conduct a surveillance audit of their own area of the organization
- **D. Conduct an internal audit of the organization**

Answer: D

Explanation:

ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 38

Which action must top management take to provide evidence of its commitment to the establishment, operation and improvement of the ISMS?

- A. Implementing the actions from internal audits
- B. Producing a risk assessment report
- C. Communicating feedback from interested parties to the organization
- **D. Ensuring information security objectives are established**

Answer: D

Explanation:

Clause 5.1 (Leadership and Commitment) requires top management to demonstrate leadership by:

* "ensuring the information security policy and the information security objectives are established and are compatible with the strategic direction of the organization;"

* "ensuring the integration of the ISMS requirements into the organization's processes;"

* "ensuring that the resources needed for the ISMS are available;"

Among the options, the one explicitly mandated is ensuring that information security objectives are established. Risk assessments (C) and implementing audit actions (D) are responsibilities of management but not the direct leadership evidence required in Clause 5.1. Communicating interested party feedback (A) is relevant but not specifically cited as leadership evidence. Thus, the verified answer is B.

NEW QUESTION # 39

Which International Standard can be used to implement an integrated management system with ISO/IEC 27001?

- A. None of the above
- B. ISO/IEC 27003
- C. ISO 9001
- **D. ISO/IEC 27013**

Answer: D

Explanation:

ISO/IEC 27013 provides specific guidance on the integration of ISO/IEC 27001 (Information Security Management) and ISO/IEC 20000-1 (IT Service Management). It offers practical advice for organizations seeking a unified management system approach. While ISO/IEC 27003 (A) provides guidance on ISMS implementation, it does not address integration. ISO 9001 (C) is the Quality Management Standard and can be integrated, but the specific standard designed for integrating 27001 with ITSM is ISO/IEC 27013. Therefore, the correct answer is B: ISO/IEC 27013, as it is explicitly published for this purpose.

NEW QUESTION # 40

.....

Living in such a world where competitiveness is a necessity that can distinguish you from others, every one of us is trying our best to improve ourselves in every way. It has been widely recognized that the ISO-IEC-27001-Foundation exam can better equip us with a newly gained personal skill, which is crucial to individual self-improvement in today's computer era. With the certified advantage admitted by the test ISO-IEC-27001-Foundation Certification, you will have the competitive edge to get a favorable job in the global market. Here our ISO-IEC-27001-Foundation exam braindumps are tailor-designed for you.
