Answer: D

NEW QUESTION # 525

How would you deploy TE250X Check Point appliance just for email traffic and in-line mode without a Check Point Security Gateway?

- A. You can utilize only Check Point Cloud Services for this scenario.
- B. It is not possible, always Check Point SGW is needed to forward emails to SandBlast appliance.
- C. Install appliance TE250X on SpanPort on LAN switch in MTA mode.
- D. Install appliance TE250X in standalone mode and setup MTA.

Answer: A

Explanation:

Explanation

To deploy a TE250X Check Point appliance just for email traffic and in-line mode without a Check Point Security Gateway, you can utilize Check Point Cloud Services. In this scenario, you can leverage cloud-based email security services provided by Check Point without the need for an on-premises Security Gateway.

Option C correctly states that you can use only Check Point Cloud Services for this scenario, making it the verified answer.
